A WORD ABOUT YOUTH PROTECTION

Child abuse is a serious problem in our society and, unfortunately, it can occur anywhere, even in Scouting. Because youth safety is of paramount importance to Scouting, the Boy Scouts of America continues to strengthen barriers to abuse through its policies and leadership practices, through education and awareness for youth, parents, and leaders, and through top-level management attention to any reported incidents.

KEY TO SUCCESS: LEADERSHIP EDUCATION AND TRAINING

Registered leaders are required to complete Youth Protection training within 30 days of registering. Parents, guardians, and any adults working with youth (whether in Scouting or not) are also encouraged to take the training.

To take the training online, go to www.myscouting.org and establish an account. If you do not yet have your membership number, be sure to return to MyScouting later and enter your number for training record credit.

The training must be taken every two years to remain current. If a volunteer does not meet the BSA's Youth Protection training requirement at the time of recharter, the volunteer will not be reregistered.

BSA YOUTH PROTECTION TRAINING

The BSA created Youth Protection training to address the needs of different age groups as follows.

- **Youth Protection Training for Volunteer Leaders and Parents**—Adults come away with a much clearer awareness of the kinds of abuse, the signs of abuse, and how to respond and report should a situation arise.
- **Youth Protection Guidelines: Training for Adult Venturing Leaders**—Designed to give guidance to the leaders in our teenage coed Venturing program. Supervision and relationship issues have a different focus regarding personal safety with this age group.
- **It Happened to Me**—Developed for Cub Scout-age boys from 6 to 10 years old and their parents. It addresses the four rules of personal safety: Check first, go with a friend, it's your body, and tell.
- **A Time to Tell**—A video for Boy Scout-age boys from 11 to 14 years old—the target group for most molesters. It stresses the three R's of youth protection: Recognize, Resist, and Report.
- **Personal Safety Awareness for Venturing**—Developed for youth ages 13 through 20 in the coeducational Venturing program. It deals with issues pertinent to this age group.

The BSA has Youth Protection policies to protect youth, and these same policies help protect adult volunteers. These and other key policies are addressed in the training:

- **Two-deep leadership is required on all outings.**
- **One-on-one contact between adults and youth members is prohibited.**
- **Privacy of youth is respected.**
- **Separate accommodations for adults and Scouts are required.**
- **Units are responsible to enforce Youth Protection policies.**

To find out more about the Youth Protection policies of the BSA and how to help Scouting keep your family safe, see the *Guide to Safe Scouting* at www.scouting.org/HealthandSafety/GSS/toc.aspx and the Parent's Guide in any of the Cub Scouting or Boy Scouting handbooks, or go to www.scouting.org/Training/YouthProtection.aspx.

WELCOME

Welcome, Cub Scout leader! You have chosen to make an important difference in the lives of the boys in your den and pack. With your guidance as their leader, the Cub Scouts will develop character, leadership skills, responsibility, fitness, and a love for fun while learning. Your role as a den leader is a critical one to a boy's success and continued involvement in Cub Scouting. This guide is your key to leading a successful program for the boys in your den. The materials have been developed to help bring to life the adventures promised in the *Tiger Handbook*, *Wolf Handbook*, *Bear Handbook*, and *Webelos Handbook*.

AN OVERVIEW OF CUB SCOUTING

THE PURPOSE OF CUB SCOUTING

Cub Scouting is a year-round, family-oriented part of the Boy Scouts of America program designed for boys who are in first through fifth grades (or are 7, 8, 9, and 10 years of age). Parents, leaders, and organizations work together to achieve the 10 purposes of Cub Scouting:

- Character Development
- Spiritual Growth
- Good Citizenship
- Sportsmanship and Fitness
- Family Understanding
- Respectful Relationships
- Personal Achievement
- Friendly Service
- Fun and Adventure
- Preparation for Boy Scouts

All the activities leaders plan and boys enjoy should relate to one or more of these purposes.

CUB SCOUTS: A POSITIVE PLACE

The Boy Scouts of America emphasizes a positive place in Cub Scouting. Any Cub Scouting activity should take place in a positive atmosphere where boys can feel emotionally secure and find support, not ridicule. Activities should be positive and meaningful and should help support the purpose of the BSA.

ONE OATH, ONE LAW

Use of the Scout Oath and Scout Law in Cub Scouts and all Scouting programs is designed to help emphasize the unity of the Scouting movement. This helps fulfill Scouting's mission and vision statements, both of which mention the Scout Oath and Scout Law:

Vision Statement: The Boy Scouts of America will prepare every eligible youth in America to become a responsible, participating citizen and leader who is guided by the Scout Oath and Law.

Mission Statement: The mission of the Boy Scouts of America is to prepare young people to make ethical and moral choices over their lifetimes by instilling in them the values of the Scout Oath and Law.

Scout Oath	Scout Law
On my honor I will do my best To do my duty to God and my country and to obey the Scout Law; To help other people at all times; To keep myself physically strong, mentally awake, and morally straight.	A Scout is trustworthy, loyal, helpful, friendly, courteous, kind, obedient, cheerful, thrifty, brave, clean, and reverent.

Age-Appropriate Expectations for Learning the Scout Oath and Scout Law

The concepts of the Scout Oath and Scout Law are difficult to master, but they are not so difficult that a Cub Scout cannot begin the journey. In the beginning of the Cub Scout's journey, don't expect him to memorize. The Scout Oath and Law are printed on the back cover of the handbooks. Use the handbook or a poster as an aid to reciting.

You can also use older Scouts and adults as mentors to help bring your Cub Scouts along at a pace comfortable for their learning needs.

The following descriptions can help you explain the meaning of the Scout Oath and Scout Law to Cub Scouts:

The Meaning of the Scout Oath

ON MY HONOR

Saying "On my honor" is like saying "I promise." It means that you will do your best to do what the Scout Oath says.

The Scout Oath has three parts. Let's look at what they mean.

TO DO MY DUTY TO GOD AND MY COUNTRY AND TO OBEY THE SCOUT LAW

A duty is something you are expected to do. At home, you might be expected to make up your bed or take out the trash. You also have duties to God and to your country. You do your duty to God by following the teachings of your family and religious leaders. You do your duty to your country by being a good citizen and obeying the law. You also promise to live by the 12 points of the Scout Law, which are described here.

TO HELP OTHER PEOPLE AT ALL TIMES

Many people need help. A friendly smile and a helping hand make life easier for others. By doing good deeds, you make our world a better place.

TO KEEP MYSELF PHYSICALLY STRONG, MENTALLY AWAKE, AND MORALLY STRAIGHT

The last part of the Scout Oath is about taking care of yourself. You stay physically strong when you eat the right foods and get plenty of exercise. You stay mentally awake when you work hard in school, learn all you can, and ask questions. You stay morally straight when you do the right thing and live your life with honesty.

The Meaning of the Scout Law

The Scout Law has 12 points. Each one is a goal you should do your best to achieve.

A Scout is **TRUSTWORTHY**.

A Scout tells the truth and keeps his promises. People can depend on him.

A Scout is **LOYAL**.

A Scout is true to his family, friends, Scout leaders, school, and country.

A Scout is **HELPFUL**.

A Scout volunteers to help others without expecting a reward.

A Scout is **FRIENDLY**.

A Scout is a friend to everyone, even people who are very different from him.

A Scout is **COURTEOUS**.

A Scout is polite to everyone and always uses good manners.

A Scout is **KIND**.

A Scout treats others as he wants to be treated. He never harms or kills any living thing without good reason.

A Scout is **OBEDIENT**.

A Scout follows the rules of his family, school, and pack. He obeys the laws of his community and country.

A Scout is **CHEERFUL**.

A Scout looks for the bright side of life. He cheerfully does tasks that come his way. He tries to make others happy.

A Scout is **THRIFTY**.

A Scout works to pay his way. He uses time, property, and natural resources wisely.

A Scout is **BRAVE**.

A Scout can face danger even if he is afraid. He stands for what is right even if others laugh at him.

A Scout is **CLEAN**.

A Scout keeps his body and mind fit. He helps keep his home and community clean.

A Scout is **REVERENT**.

A Scout is reverent toward God. He is faithful in his religious duties. He respects the beliefs of others.

DELIVERING THE CUB SCOUT PROGRAM

Cub Scouting can be extremely rewarding for the boys in the program and their adult leaders. Taking the time to review this information and using the den meeting plans in this den leader guide is the first and best step toward assuring that you can deliver the fun the boys want as easily as possible. Following are some considerations to make things even smoother.

SAFETY FIRST

In conducting activities, Cub Scout den leaders must maintain adequate supervision and assure the proper use of materials. Be careful, and remember: Safety must always come first!

Refer to the latest printing of the *Guide to Safe Scouting*, No. 34416, for information on policies relating to the many activities in which your den may participate.

The *Guide to Safe Scouting* is available on the National Council Web site at www.scouting.org, or you can find it at your local council service center. **The online version of the *Guide to Safe Scouting* will always have the most current information (www.scouting.org/HealthandSafety/GSS/toc.aspx).**

ROLES AND RESPONSIBILITIES IN CUB SCOUTING

Adults support Cub Scouting through a variety of ways. Some adults take on a role with the pack committee and provide support through finance, facilities, and recruiting new leaders. Below are job descriptions for key roles in a Cub Scout den.

DEN LEADER

Cub Scout den leaders work directly with Cub Scouts and their parents/guardians to execute the Cub Scouting program in the den.

Qualifications: Is at least 21 years old, and should be an experienced leader, but may be a parent or guardian of a boy in the den. Recommended by the Cubmaster after consultation with the parents and guardians of the Cub Scouts involved, and approved by the pack committee and chartered organization. Registered as an adult leader of BSA.

Responsibilities:

- Work directly with other den and pack leaders to ensure that the den is an active and successful part of the pack.
- Plan, prepare for, and conduct den meetings with the assistant den leader and den chief (if Wolf, Bear, or Webelos den leaders) or adult partners (if Tiger den leaders).
- Attend the monthly pack leaders' meetings.
- Lead the den at the monthly pack activity.
- Ensure the transition of Cub Scouts to a den of the next rank (or to a Boy Scout troop if Webelos Scouts) at the end of the year by encouraging them to earn the adventures for advancement.
- Keep accurate records, and see that Cub Scouts receive recognition for their achievements.
- Help the den earn the National Den Award.
- Establish good working relationships with den families, seeking out their skills and talents.
- Follow the policies of the Boy Scouts of America.

Your Cubmaster or pack trainer will be glad to explain any of these responsibilities. Being a trained leader will also help you understand the responsibilities of your role.

Tiger den leaders should do the following.

- Coordinate shared leadership among the Tiger adult partners in the den.
- Ensure that each Tiger and his adult partner have the opportunity to be the host team, planning and executing the den activities, and rotate responsibilities monthly.

All Cub Scout den leaders should keep in mind these responsibilities.

- Help train the den chief and guide him in working with Cub Scouts. See that he receives recognition for his efforts at den and pack meetings.
- Provide meaningful responsibilities for the denner and assistant denner so that they can learn responsibility and gain satisfaction from their efforts.

The Webelos den leader should remember these responsibilities.

- Help train the Webelos den chief and guide him in leading Webelos Scouts. Attend den chief training with him. See that he receives recognition for his efforts at den and pack meetings.
- Provide worthwhile tasks for the Webelos denner so that he can assume some responsibility and gain satisfaction from his efforts.
- Along with the Scoutmaster and assistant Scoutmaster, plan and conduct meaningful joint activities.
- Plan and carry out overnight campouts and other outdoor activities.

◆ ASSISTANT DEN LEADER

The assistant Cub Scout den leader shares the responsibilities of the Cub Scout den leader and may be called upon to serve as a family contact or record keeper or to handle other details of den operation. Each den should have at least one assistant den leader, and more if needed. Successful den leaders share their leadership with their assistant den leader.

◆ PARENTS/GUARDIANS/FAMILIES

Cub Scouting seeks to support the family, whatever that looks like. When we speak of parents or families, we are not referring to any particular family structure. Some boys live with two parents, some live with one parent, some have foster parents, and some live with other relatives or guardians. Whomever a boy calls his family is his family in Cub Scouting.

Our focus is on helping build strong families as we build stronger boys. Don't try to carry the load yourself. Involve parents or guardians and encourage them to lend expertise to the program in their areas of interest. Each parent has something to contribute. Invite them to participate and use their skills. Use "two-deep leadership," which means that two adults are required for all outings or activities. Review the section in the *Cub Scout Leader Book* on Parents and Families for more information on how parents can help.

◆ DENNER AND ASSISTANT DENNER

The denner is a den member selected to be a boy leader for a short period of time—anywhere from one week to several months. It is a good practice for the den leader to rotate the position of denner throughout the den so all boys have the opportunity to experience the leadership position. The den leader and den chief determine his responsibilities, which might include helping to set up and clean up the den meeting place; helping with games, ceremonies, tricks, and puzzles; leading a song; or acting as den cheerleader. The denner should be given meaningful responsibilities and recognition to help him learn how to be a leader. The denner wears a shoulder cord on the left shoulder. Some dens also have assistant denners who assist the denner and may move up to the denner position after his rotation.

◆ DEN CHIEF

The den chief is a Boy Scout, Varsity Scout, Venturer, or Sea Scout who serves as an activities assistant at Wolf, Bear, or Webelos Scout den meetings. He (or she, if you work with a female Venturer or Sea Scout) can serve as a positive role model for Cub Scouts as they look toward joining the Boy Scout program and beyond. The Scoutmaster from a local troop may be able to help identify a den chief.

THE ROLE OF TRAINING

Core to succeeding with these responsibilities is the concept that every Cub Scout deserves a trained leader. Being a trained leader helps you deliver the program in a way that is effective and efficient with a focus on the core objectives for the boy. Becoming a trained leader requires completion of the following training:

- Youth Protection
- Leader Position-Specific

Both trainings are available online at www.myscouting.org and as an in-person training through your local council service center. Consult with your pack trainer or visit www.myscouting.org for training options. Leaders who have completed these two trainings qualify to wear the trained leader strip.

RESOURCES

This *Den Leader Guide* is designed to be self-contained, including all the information you will need to run your den meetings. However there are additional resources which add character and context to the Cub Scout leader's experience. As you gain more experience you should consider having the following in your personal Cub Scouting library. Many packs have pack libraries as well for sharing among their pack leadership.

- *Cub Scout Leader Book* (No. 33221)
- *Leader How-To Book* (No. 33832)
- *Ceremonies for Dens and Packs* (No. 33212)
- *Wolf Handbook* (No. 33450)
- *Group Meeting Sparklers* (No. 33122)
- *Cub Scout Songbook* (No. 33222)

THE CUBMASTER: YOUR KEY RESOURCE FOR PROGRAM PLANNING

You will work closely with the Cubmaster to deliver the Cub Scout program to the boys in your den. The Cubmaster works as the program leader for the pack. In addition to working with den leaders, he or she will lead the pack program at your monthly pack meeting. Some of the ways you and the Cubmaster will collaborate include the following:

- Work together to plan and help carry out the Cub Scout program in the pack according to the policies of the BSA. This includes leading the monthly pack meeting with the help of other leaders.
- With the pack committee, develop and execute a year-round recruitment plan for recruiting boys into Cub Scouting.
- Acquire and use the appropriate and available Scouting literature, including the den leader guide for each program level and the pack meeting plans available online at www.scouting.org.
- See that the pack program, leaders, and Cub Scouts positively reflect the interests and objectives of the chartered organization and the BSA.
- Encourage movement into a Boy Scout troop by establishing and maintaining good relationships with Boy Scout troops; this is especially important for Webelos den leaders. Your pack may have an assistant Cubmaster whose primary responsibility is to support transition from Cub Scouting into Boy Scouting.

- Together, maintain good relationships with parents and guardians. Seek their support, and include them in activities.
- Work collaboratively to ensure that Cub Scouts receive a quality, year-round program filled with fun and activities that qualify the dens and pack for the National Summertime Pack Award.
- Participate with the Cubmaster and the pack committee chair in the pack's annual program planning conference and the monthly pack leaders' meetings.
- Work as a team with the pack committee chair to cultivate, educate, and motivate all pack leaders and parents or guardians in Cub Scouting.
- Work together to conduct impressive advancement, recognition, and graduation ceremonies. For Webelos ceremonies, involve Scoutmasters and other Boy Scout and Scout leaders.
- Bring families together at joint activities for Webelos dens (or packs) and Boy Scout troops.
- Support the policies of the BSA.

In addition to coaching and supporting den leaders, the Cubmaster will help coordinate den activities that will take place during the pack meeting. Many of the advancement requirements that are related to outdoor adventure and leadership development require the boys in each den to work with each other during pack meetings. The Cubmaster will help to organize those activities.

RESPONSIBILITIES TO THE BOYS

All Cub Scout leaders have certain responsibilities to the boys in Cub Scouts. Each leader should:

- Respect boys' rights as individuals and treat them as such. In addition to common-sense approaches this means that all parents/guardians should have reviewed *How to Protect Your Children From Child Abuse: A Parent's Guide*, and all youth leaders must have taken the BSA's Youth Protection training.
- See that boys find the excitement, fun, and adventure that they expected when they joined Cub Scouting.
- Provide enthusiasm, encouragement, and praise for boys' efforts and achievements.
- Develop among the boys a feeling of togetherness and team spirit that gives them security and pride.
- Provide opportunities for boys to experience new dimensions in their world.

THE CUB SCOUT RANKS AND HANDBOOKS

A boy who is 7 years old or is in the first grade is a Tiger, and his adventures are found in the *Tiger Handbook*.

A boy who is 8 years old or is in the second grade is a Wolf, and his adventures are found in the *Wolf Handbook*.

A boy who is 9 years old or is in the third grade is a Bear, and his adventures are found in the *Bear Handbook*.

A boy who is 10 and 11 years old or is in the fourth or fifth grade is a Webelos Scout, and his adventures are found in the *Webelos Handbook*.

The den meeting plans are written to help a boy earn the adventure requirements in his handbook. A den leader is strongly encouraged to have the handbook for the den he or she is leading as well, to be able to follow along with the boys and review for den meeting planning.

ADVANCEMENT

◆ CUB SCOUT ADVANCEMENT FOR RANK BADGE

Advancement is one of the methods we use to achieve Scouting's aims and its desired outcomes. As boys earn the ranks of Bobcat, Tiger, Wolf, Bear, Webelos, and the Arrow of Light, they achieve important goals in developing skills and favorable dispositions related to personal fitness, good character, participatory citizenship, outdoor skills and awareness, and leadership development. Each level of the program from Tiger to Arrow of Light is designed to achieve these goals through a series of developmentally-appropriate and fun adventures.

◆ RECOGNITION PROCESS

No boy wants to wait several months to be recognized for his hard work. The Cub Scout program recognizes completion of intermediate steps leading to rank advancement by awarding an immediate recognition device.

Advancement gives boys a means of measuring their progress. Credit is given to the Cub Scout for each requirement when the adult partner (Tigers), den leader, and/or Webelos adventure pin counselor is satisfied that the boy has done his best.

Ensuring that boys are recognized immediately and publicly for their efforts is an important part of the advancement process. **No boy should have to wait for more than two weeks to receive a device and be recognized for his accomplishments.** Your pack may approach this in a variety of ways:

- The den leader may provide the recognition device (a pin for boys working on Webelos and Arrow of Light adventures or an adventure loop for boys working on Tiger, Wolf, and Bear adventures) at the final meeting when the Cub Scouts complete the adventure. At the following pack meeting, the boys would then receive a certificate during a brief ceremony. (Full-size and pocket certificates are available from your local Scout shop.)
- The pack may provide certificates for den leaders to award when the boys complete the adventure and then present the adventure loops and pins at the next pack meeting.

Packs are encouraged to find a method that works well for the boys in the pack, guided by principles that recognition is both *immediate* to encourage the boys and *public* to celebrate their success.

Advancement provides a satisfying means of recognizing boys for their progress. Boys have a ladder to climb, with recognition at each step. Presenting awards to boys in meaningful ceremonies to recognize their accomplishments is a principle of advancement. Advancement is not competition among boys. Each Cub Scout is encouraged to advance steadily and purposefully, setting his own goals with guidance from his family and leaders. Measurement for satisfying requirements is "Do Your Best," and that level can be different for each boy.

◆ HOW THE ADVANCEMENT PROGRAM WORKS

The success of the advancement program depends entirely on how Cub Scout leaders and parents apply it. Careful research has gone into developing the advancement program, but den and pack leaders and families make advancement work in the dens, in the home, and, most importantly, in the lives of boys.

Goals of the Advancement Program

When implemented correctly, the advancement program will:

- Help build a boy's self-esteem.
- Help build his self-reliance as he discovers his increasing abilities.
- Give a boy the positive recognition that he needs.
- Bring a boy and his family closer through the advancement activities that family members enjoy together.

The Den Leader

The den leader has the following responsibilities related to advancement.

1. Stimulate interest in advancement by delivering fun and exciting den meetings using the *Wolf Den Leader Guide* and by providing opportunities for boys to work on advancement requirements in den meetings.
2. Plan meetings that support the advancement program. The den chief or Webelos den chief can help.
3. Help parents and adult partners understand the advancement plan and their role in promoting advancement. Make sure returning parents understand how the advancement process works at each program level.
4. Keep accurate records of requirements that boys complete. Promptly provide the pack leadership with the advancement records so boys can be recognized at the next pack meeting.
5. Identify boys who are not advancing and find out why. This could indicate a weakness in the den or pack program or something you could do to help these boys catch up to their peers.
6. Provide reinforcement for and recognition of advancement at den meetings. These can include advancement charts, den doodles, and immediate recognition items.
7. Make sure that impressive advancement ceremonies and graduation ceremonies are conducted at the pack meetings. For the Arrow of Light rank, involve the Scoutmaster and the troop's youth leaders.

The Cubmaster

The Cubmaster has these responsibilities related to advancement.

1. Provide a quality year-round program full of action and fun that appeals to boys. See that den and pack activities are planned so that completing required and elective adventures for all levels is a natural outcome of the month of fun.
2. Guide den leaders in the use of the *Wolf Den Leader Guide* to help organize and deliver each meeting's program for each level of programming.
3. Work with den leaders to coordinate den activities at pack meetings that support the use of the Cub Scout adventure program materials.
4. Provide advancement reinforcement at the pack meeting, such as colorful and exciting induction, advancement, and graduation ceremonies. Encourage displays of advancement charts and den doodles at pack meetings.
5. Ensure that boys who have earned awards receive them at the next pack meeting. Don't let boys get discouraged by having to wait for recognition.

6. Make sure that den leaders are trained and know how to use the advancement program effectively.
7. See that advancement standards are maintained. Every boy should do his best to complete the requirements as presented in the program.
8. Coordinate with the pack committee to ensure that accurate advancement records are kept. Follow up on boys who are not advancing and find out why.

The Pack Committee

Pack committee members have these responsibilities related to advancement.

1. Help train leaders and adult partners or family members in the proper use of the advancement program.
2. Ensure that den leaders have program resource materials such as den leader guides and advancement charts to support program delivery.
3. Collect den advancement reports at each monthly pack leaders' meeting. Complete the multipart Advancement Report to purchase awards from the local council service center. See that badges are presented at the next pack meeting.
4. Help plan advancement and graduation ceremonies for the pack meeting.
5. Help build and/or secure equipment for use in meaningful advancement ceremonies.

How Fast Should a Boy Advance?

A boy's approach to advancement progress will depend on two factors:

- His own motivation for learning new skills, the encouragement and help he gets from his family, and his need for recognition
- The den leader's preparation for and presentation of advancement activities in the den meetings

The den meeting plans outlined in the *Wolf Den Leader Guide* provide program opportunities that are generally delivered as two den meetings and an outing each month. This will provide opportunities for boys to advance. A year-round program is composed of required adventures (that will lead to rank advancement) and elective adventures (which contribute to rank advancement and provide program enrichment).

If a boy cannot attend all meetings, the den leader should help that boy and his family complete the missed activities.

Although many packs target their blue and gold banquet for awarding the boys' new badge of rank, there is no requirement to advance by an arbitrary date such as a blue and gold banquet.

Advancement Checklist

- Do the Cubmaster and pack committee give den leaders and families guidance in using the advancement program effectively?
- Do family members understand their part in the advancement program? Are they using achievements, electives, and activity badges to suggest activities for the boy's free time?
- Do den leaders talk to parents about boys who are not advancing?
- Do den leaders implement the required den meeting plans leading to advancement as outlined in the *Wolf Den Leader Guide* and, when necessary, have advancement work completed at home?
- Are accurate advancement records kept in the dens and the pack?
- Do boys receive prompt recognition?
- Do pack advancement ceremonies create an incentive for advancement?
- Are wall charts and den doodles used in den and pack meetings?
- Does the pack have an advancement ladder or chart?

THE FIRST RANK FOR ALL BOYS—BOBCAT

The Bobcat rank is the first badge awarded a new Cub Scout. As a new member, he may work on his Bobcat rank requirements while simultaneously working on his next rank as well. He cannot, however, receive his Tiger, Wolf, Bear, Webelos, or Arrow of Light badge until he has completed Bobcat requirements and earned his Bobcat badge. Boys can normally earn their Bobcat badge well within the first month of becoming a new Cub Scout.

You as his leader can help! Practice the requirements with him and the other boys in your den meetings, and encourage them to work on the requirements with their families also. Requirement 7 is a home-based requirement. The requirements are found in each of the youth handbooks as well as listed below:

Bobcat Requirements

1. Learn and say the Scout Oath, with help if needed.
2. Learn and say the Scout Law, with help if needed.
3. Show the Cub Scout sign. Tell what it means.
4. Show the Cub Scout handshake. Tell what it means.
5. Say the Cub Scout motto. Tell what it means.
6. Show the Cub Scout salute. Tell what it means.
7. With your parent or guardian, complete the exercises in the pamphlet *How to Protect Your Children From Child Abuse: A Parent's Guide*.

WOLF ADVANCEMENT

Wolf Scouts work toward the Wolf rank. The Wolf rank is earned by completing seven adventures as described below.

1. Complete each of the following Wolf required adventures with your den or family:
 - a. Call of the Wild
 - b. Council Fire
 - c. Duty to God Footsteps
 - d. Howling at the Moon
 - e. Paws on the Path
 - f. Running With the Pack
2. Complete one Wolf elective adventure of your den or family's choosing.
3. With your parent or guardian, complete the exercises in the pamphlet *How to Protect Your Children From Child Abuse: A Parent's Guide*, and earn the Cyber Chip award for your age.*

*If your family does not have Internet access at home AND you do not have ready Internet access at school or another public place or via a mobile device, the Cyber Chip portion of this requirement may be waived by your parent or guardian.

For each adventure, the Wolf Scout must complete the requirements as outlined in the *Wolf Cub Scout Handbook*.

Requirement 7 of Bobcat and requirement 3 of Wolf are identical. If a Cub Scout earns his Bobcat rank during the same year that he begins working on his Wolf rank, he needs to complete the requirement only one time.

A parent, guardian, or other caring adult acknowledges the completion of each achievement part by signing the boy's handbook (Akela's OK). The den leader also signs each boy's handbook (Den Leader's OK) and records progress in the den's advancement records. The Wolf Scouts also keep track of their own advancement using the Adventure Tracking section in the back of their handbooks, and under the guidance of the den leader, they can also keep a record of their individual progress on a den advancement chart and den doodle.

The pack should encourage each den to deliver a year-round program, drawing from both required adventures to support rank advancement and elective adventures to support program enrichment. Elective adventures may be earned during den activities, by a boy with the participation of his family, and during council and district sponsored program opportunities. There is no required order in which adventures must be earned. The sequence is left to the discretion of the den leader and Cubmaster.

After a boy earns the Wolf badge, he will continue to meet with his den, working on additional elective adventures until he completes second grade (or turns 9 years old) and becomes a Bear Scout.

	Adventure Loop	Wolf
Required		Call of the Wild
Required		Council Fire
Required		Duty to God Footsteps
Required		Howling at the Moon
Required		Paws on the Path
Required		Running With the Pack
Scout or Den Choice		(1) Elective adventure of choice

	Adventure Loop	Wolf
Elective		Adventures in Coins
Elective		Air of the Wolf
Elective		Code of the Wolf

	Adventure Loop	Wolf
Elective		Collections and Hobbies
Elective		Cubs Who Care
Elective		Digging in the Past
Elective		Finding Your Way
Elective		Germs Alive!
Elective		Grow Something
Elective		Hometown Heroes
Elective		Motor Away
Elective		Paws of Skill
Elective		Spirit of the Water

After a boy has completed all the requirements for the Wolf rank, he should receive the Wolf badge from his den leader at the next pack meeting. This is an important milestone, so the ceremony should be suitably impressive. The Wolf badge is sewn on the left pocket of the uniform shirt in the Scout's left position.

A Scout may complete as many elective adventures as his ambition and time available allow. He is entitled to wear each of the adventure loops he earns on his official Cub Scout belt.

◆ PLANNING YOUR MEETINGS

As you plan your den's program for the year, there are a few important points to consider.

- **Required adventures.** These adventures are required to advance from rank to rank.
- **Elective adventures.** These add to the fun and adventure of Cub Scouting. One elective adventure is required to earn the Tiger, Wolf, and Bear ranks. Two are required to earn the Webelos rank, and three are required for boys to earn the Arrow of Light rank.
- **Coordinating your planning.** Some of the adventures require coordination with other dens. A pack meeting is an ideal place to do this. There are some suggestions made in the *Cub Scout Leader Book*, but however your dens and pack wish to do this, work together with the other leaders in your pack to build this into your annual program. When working out your annual program plan, seek to deliver an entire year of fun programming. It is important to seek input from the Cub Scouts in the den to find out which adventures they would like to explore with the members of the den. Elective adventures that are not selected may be earned by boys at home, working with their families.
- **Audience for requirements.** Many of the requirements state that a Scout should demonstrate a new skill or share something they have learned with other boys during a den meeting. We all need to recognize that not all Scouts are able to make each meeting. While we recognize that the best approach is to carry out sharing tasks in a den setting, it may be necessary to allow Cub Scouts to share what they have learned while working on Cub Scout advancement requirements in other settings, such as in front of their family.
- The duty to God adventures are primarily done with the family and, for some dens, may not be included as part of the den meeting planning. If that is the case, notify families that they will need to help their Cub Scouts complete the adventure at home. See page 28 for more information regarding the duty to God adventures.

Read through the Wolf adventures, and give some thought to which adventures will work the best for your location and climate. Write in the adventures you will use and the corresponding month that will work best. Check with your Cubmaster to see if some adventures need to be coordinated with other dens or for upcoming pack meetings.

Important: When planning, keep in mind that six required adventures and one elective adventure are required for Tiger, Wolf, and Bear advancement. The Webelos rank requires five required adventures and two elective adventures. The Arrow of Light rank requires four required adventures and three elective adventures. When planning your annual program, keep those advancement requirements in mind. Rank adventures can be awarded at any time within the boy's rank year by age or grade. Once a boy has moved (graduated) to his next level den, HE MAY NOT EARN THE RANK OF HIS PREVIOUS DEN LEVEL.

DEN MEETINGS

Along with the Cub Scout's family, the den meeting is critical to the Cub Scout's success and enjoyment of the Cub Scouting program. It is in and through the den that the boy makes social connections, has fun, and completes his advancement. Den meetings that are fun, organized, and interesting make a great environment for the boys.

In the den meeting plan section of this resource, you will find that each den meeting follows the same seven parts outlined below.

THE PARTS OF A DEN MEETING

PREPARATION AND MATERIALS NEEDED

This section of the den meeting alerts you to what you need to have on hand to lead the den meeting. It may also alert you to arrangements you need to make in advance, such as scheduling a meeting with a guest or arranging the logistics for an outing.

Read the pages in the handbook for each new adventure before you start to work on it. The handbook provides background information, instructions, or suggestions for many activities. Encourage Scouts to bring their handbooks to each meeting.

GATHERING

This part of the meeting is designed to keep boys occupied and prepare them for the meeting as the rest of the den arrives. Some den meeting plans reference specific suggestions that are related to the meeting's theme. Other den meeting plans will draw your attention to the Appendix, where many different ideas are offered to help organize this part of the meeting. Leading the Cub Scouts in a 10–15 minute active game makes for a great Gathering activity, helping to jump-start the meeting and allowing boys to release energy and improve focus.

OPENING

The opening is usually ceremonial in nature, and it often connects with patriotic practices, such as flag ceremonies, or connects the boys with the ideas of Scouting, such as a shared recitation of the Scout Oath or Law. This can be an appropriate time for a prayer. The opening tells the boys that the meeting has begun.

TALK TIME

This is where the business items of the den take place. Business items can include any of the following:

- Dues
- Recording advancement (a second adult)
- Notification/reminder for upcoming trips or tours
- Notification/flier for upcoming events
- Introducing a new adventure
- Meeting information: Telling Cub Scouts what to expect at this meeting
- Setting the groundwork for future advancement
- Notes for the upcoming pack meeting

Talk Time should be brief so you and the boys can get right to the fun at the heart of the meeting. Some den meeting plans offer specific suggestions; in other cases, you may only be addressing the standard items. Some adventure requirements direct Cub Scouts to share what they accomplished during the week with their den; this is a great time to do that.

ACTIVITIES

This is the heart of the adventure in each den meeting. This is where fun and learning take place, and the boy completes most of his advancement requirements. Detailed guidelines are provided to lead each of the activities.

CLOSING

The Closing provides a ceremonial moment to wrap up the meeting. The Closing, especially as boys grow older and more mature, is often led by the denner, the youth leader of the Cub Scout den.

AFTER THE MEETING

This is a place to review the success of the meeting, to note the need to follow up with additional parts of the meeting, to communicate with parents, and to record what was completed during the den meeting. Many dens enjoy refreshments or snacks at the close of the den meeting. If you do serve a snack, set an example of healthy eating and offer a nutritious snack of fruits or vegetables. And good Scouts always tidy up at the close of the meeting.

WHAT ARE DEN MEETING PLANS, AND HOW DO I USE THEM?

The den meeting plans are your guide to bringing the adventures of advancement to life for your den of boys. These plans will, if followed, help a boy advance in rank as he experiences all the FUN of Cub Scouting. It takes 45–60 minutes to read through and prepare for each den meeting.

The plans are developed around the following:

- Two to three den meetings per month in addition to the pack meeting or other pack activities.
- If a plan consists of three den meetings, one of those meetings is usually designed to be an outing. The outing may take place at the beginning, middle, or end of the adventure, so be sure to read through each of the den meeting plans for each adventure before beginning. Outings are very important to the boy and to his experience in Scouting!
- The plans follow the parts of the den meeting structure listed above.

CHARACTER COMPASS

In the den meeting plans you will notice this icon. The adventures you are planning for the monthly meetings have an association with one or more points of the Scout Law. As you read through the plans and the Cub Scout handbook for the adventure, be aware of the point of the Law emphasis and how you may be able to help teach it to the boys. These icons are to be brought about naturally and subtly within the adventure and are by no means meant to be “drilled” into your meeting plan. That’s one of the wonderful things that happens in Scouting—we teach character development through our adventures and advancement while the boy barely notices!

DO-AT-HOME PROJECTS

Do-at-Home Projects are activities that boys and/or their parents are to do outside den meetings. Projects should be assigned (usually during the Closing). They may be assignments in preparation for the next den meeting plan, or they may be part of a requirement that you will need to then verify at the next den meeting as having been completed.

YOUR FIRST DEN MEETING

The tone you set at the first meeting will determine, to a large extent, the success of your year. Key to setting the right tone is to consider the following:

- Wear your adult uniform to all meetings, and remind boys to wear their uniforms.
- Be completely organized before the start of the meeting.
- If you are new to running meetings like this, it is easier to think of it as seven short activities (see the parts of the den meeting) rather than a single long event.
- Explain clearly to the boys the behavioral expectations. You may wish to use the “good conduct candle” approach (see this guide’s Appendix) and develop a den code of conduct. This can be hand-written on poster board, or a den code of conduct poster may be purchased at your local council Scout Shop (No. 32068). Be consistent, friendly, but firm with the boys.
- Explain that Scouts should bring their handbooks to each meeting.

If you are a new den leader, ask the assistant den leader(s) to arrive at least 15 minutes before the starting time of the meeting. He or she can help you with final preparations before the rest of the boys arrive. It is a good idea to have something constructive for boys who arrive early to do (known as the “Gathering” part of the den meeting plan) while you are making final preparation for den meetings; you might even have them help set up some parts of the meeting.

A snack at den meetings is optional. If you do serve a snack, offer fruits or vegetables to set an example of healthy eating. Be aware of any food allergies of den members and communicate these to parents who may be assisting with the snacks.

To encourage healthy snacks at meetings, you can work toward the SCOUT-Strong Healthy Unit Award as a den! Earn the award by following three healthy meeting practices, including providing fruits and/or vegetables for snacks (if snacks are served). Learn more about this award in the Appendix, under “Awards Cub Scouts Can Earn.”

One best practice to facilitate communication and involvement is to distribute a family information letter at the conclusion of each meeting. The letter tells families what was completed at each meeting and provides information on upcoming den and pack meetings and activities. Sample family information letters can be found at www.scouting.org/CubScouts/Leaders/DenLeaderResources.aspx.

DEN OUTINGS

Den outings are an important part of the Cub Scout experience. They are a time not only for fun but for learning. And they are critical steps in your boys’ earning their badge of rank. It is important that you plan in advance for these field trips. Planning should include the following, at a minimum, for each field trip:

- Arrange for the visit with the point of contact at your destination (if needed).
- Work with the parents or guardians in the den to arrange transportation, or get an adult to carry out the planning.
- Fill out a tour and activity plan (No. 680-014), found online at www.scouting.org/HealthandSafety/TourPlanFAQ.aspx. You can also find online help as well at Scouting.org on how to fill it out. This plan is a tool for best practices so you will be prepared for safe and fun adventures. Completing the plan may not address all possible challenges, but it can help ensure that you have conducted appropriate planning, that qualified and trained leadership is in place, and that the right equipment is available for the adventure. The plan also helps to organize safe and appropriate transportation to and from an event, and it defines driver qualifications and minimum limits of insurance coverage for drivers and vehicles used to transport participants. This plan should be submitted 21 days in advance (check with your local council to confirm submission date) to ensure your council has enough time to review the plan and assist as necessary.

- It is **MANDATORY** to fill out a tour and activity plan for:
 - Trips of 500 miles or more; or
 - Trips outside of council borders (exception: not to your council-owned property); or
 - Trips to Florida Sea Base, Northern Tier, Philmont Scout Ranch, Summit Bechtel Reserve (***you will be asked to present a copy of your tour and activity plan upon arrival***), national Scout jamboree, National Order of the Arrow Conference, or a regionally sponsored event; or
 - When conducting any of the following activities outside of council or district events:
 - Aquatics activities (swimming, boating, floating, scuba, etc.)
 - Climbing and rappelling
 - At a council's request (***Contact your local council for additional guidelines or regulations concerning tour and activity plans; many have set guidelines for events or activities within council boundaries, such as for Cub Scout overnight camping.***)

When in doubt, check with your local council for their guidelines and regulations for tour and activity plans. Your Cubmaster or pack trainer may be able to provide you with this information as well.

There is an **activity consent** form available to use as well at the den level for outings. This is a permission slip the parents sign for their son to attend the outing. The activity consent form is also available at www.scouting.org/HealthandSafety/TourPlanFAQ.aspx.

It's a good idea at your first den meeting to distribute the Family Talent Survey Sheet to the parents, asking them to complete it and return it to you at the next meeting. (The Family Talent Survey Sheet can be found at www.scouting.org/CubScouts/Leaders/Forms.aspx or in the Appendix of this guide.) The survey serves as a useful tool for you to identify family resources within your den.

WORKING WITH CUB SCOUT-AGE BOYS

If you are a parent, you probably have learned a lot about working with boys. If you have more than one child, you probably learned quickly that, while they are different from one another, they do have some common attributes. Knowing and understanding boys is one of the most important skills you bring to your service as a den leader.

Boys of this age are full of energy. Den meetings should focus more on doing things and less on talking. Most of the activities designed in the Cub Scout adventures are designed to do exactly this. Physical activities, such as hiking, sports, playing active games, and bike riding, are important. Be sure to make time for physical activity during every meeting. Doing so will not only help boys burn off energy and have greater focus, but it will help them develop this healthy habit. Even talking activities can take place while walking from place to place, allowing boys to be active and burn off some of their energy.

Youth develop strength, balance, and coordination at this point in their development. Because these changes take place rapidly, they may appear clumsy, uncoordinated, and awkward. Ensuring that boys have support to try new things is important, but so is focusing on the success they achieve more than awkwardness or failure. Boys of this age will typically enjoy a variety of activities, ranging from craft projects to active involvement in physical activities. Be sure to use the entire den meeting plan as designed, as it is intended to reach the varied interests of youth during the time that the den meets together.

During this phase of childhood, children are concerned with developing a social circle, particularly of the same gender. A Cub Scout den serves this purpose very well. Work to ensure that all boys are welcome within the den. Boys begin to feel loyalty to clubs and groups, and the peer group that Cub Scouting can provide is an ideal place to develop this sort of affiliation. Cub Scout-age boys also begin to look up to older youth and will begin to imitate their behavior. For this reason, if you can recruit a den chief as an older role model, you will be serving the boys in your den especially well.

Boys of Cub Scout age look for role models. It is important that you set a strong positive example for the boys in your den. Boys of this age are sensitive to adult feedback and interactions. They are also seeking your approval, so keep in mind that anything you say or do will make a lasting impression on them. You can do this well by preparing for den meetings and ensuring that all boys have a complete and fun program to take part in. Planning and implementing a well-organized den meeting will also keep the boys focused on positive activities, which reduces the need to deal with off-task behavior or disciplinary issues within your den.

Intellectually, children of this age are focused on exploration. Their interests are likely to change regularly during this time; this is one reason the Cub Scout program provides a rich set of experiences both within the required adventures as well as the elective adventures. The materials in the den meeting plans are designed to deliver the information in small, boy-sized pieces. Don't allow the boys to be overwhelmed by any of the activities in the den. The performance standard in Cub Scouting is to encourage a boy to do his best.

This phase of childhood is when abstract reasoning and thinking skills are developing. Many of the outcomes of Scouting are abstract in nature: values and ideals in particular. We seek to support this growth by providing activities that will help to grow these positive values week by week and month by month in den meetings, pack meetings, and outdoor adventures.

Boys of this age are ready to try new things, and are easily motivated to do so. Use the den meeting materials to encourage your boys to try new things. Many of the elective adventures offer rich areas for personal development. Encourage boys in your den to explore with their families adventures that your den may not visit during den meetings.

School can be a frustration for boys of this age. Cub Scouting can be a safe haven for them as they have a chance to try experiences that are not part of the school experience, as well as try traditional academic tasks in a setting that is hands-on and exploratory. Cub Scouting activities also support what takes place in school by providing an informal education setting designed to help boys learn and thrive.

Because of the pace of change and challenges, **self-confidence can be undermined as boys move through this age range.** During this phase, boys often compare themselves to their peers. If they believe that they are not as talented as their peers, their self-confidence can be undermined. Help the boys in your den see the good in what they do by offering sincere praise and recognition for the work that they accomplish. For this reason, be sure that the recognition devices they earn are presented to them as quickly as possible; the adventure loops and pins are referred to as immediate recognition devices for this reason. Remember to focus on boosting your Scouts' self-confidence through praise and recognition for the good work they do. When giving praise, be sure to note the effort that boys in your den deliver, focusing on the Cub Scout standard of doing their best.

Do not make comparisons to others. If a boy makes a comparison, help him understand that we are all different and changes are unique for each boy.

The emotional development of boys at this point is closely related to how they get along with other children. Scouting gives a place for positive social interactions with others and builds a foundation for positive social interactions that will carry on into adolescence and to adulthood. What you do as a den leader makes a difference in the lives of boys.

See Appendix 2 for additional information and specific ideas for working with Cub Scouts, creating den spirit, and tracking behavior.

◆ PROVIDING ENCOURAGEMENT

- Reward more than you criticize, in order to build self-esteem.
- Praise immediately any and all good behavior and performance.
- Change rewards if they are not effective in motivating behavioral improvement when needed.
- Find ways to encourage a Scout who is struggling.
- Teach the Scout to reward himself. This encourages him to think positively about himself.

◆ PROVIDING SUPERVISION AND DISCIPLINE

- As a leader, you must be a number of things to each boy: friend, authority figure, reviewer, disciplinarian, resource, and teacher.
- Listening is an important technique that means giving the Scout an opportunity to express himself. Whether as a part of the group or in private conversation, be patient, be understanding, and take seriously what the Scout has to say. Keep yourself attuned to what he is saying; use phrases like, “You really feel that way?” or “If I understand you right. . . .”
- Avoid ridicule and criticism. Remember, all children have difficulty staying in control.
- Remain calm, state the infraction of the rule, and avoid debating or arguing with the Scout.
- Have pre-established consequences for misbehavior for all Scouts.
- When a Scout is behaving in an unacceptable manner, try the “time out” strategy or redirect his behavior.
- Administer consequences immediately, and monitor proper behavior frequently.
- Make sure the discipline fits the offense and is not unduly harsh.
- Enforce den rules consistently.
- Do not reward inappropriate behavior. Praise when a Scout exerts real effort, even if unsuccessful, and/or when he shows improvement over a previous performance. Never praise falsely.
- Do not accept blaming others as an excuse for poor performance. Make it clear that you expect each Scout to answer for his own behavior. Behavior is a form of communication. Look for what the behavior is saying (i.e., does the Scout want attention?).

WORKING WITH CUB SCOUTS WITH SPECIAL NEEDS AND DISABILITIES

We are all aware that every boy is different and unique in his own way. All boys have different ways they learn and different abilities. When we read or hear the term “disability” we more commonly think of visible forms of disability and not necessarily those that are not visible. It’s obvious that a Scout in a wheelchair may have challenges fulfilling a hiking requirement, but it might not be so obvious when it comes to identifying the challenges faced by a Scout with a learning disability.

Since its founding in 1910, the Boy Scouts of America has had fully participating members with physical, cognitive, and emotional disabilities. The basic premise of Scouting for youth with disabilities is that every boy wants to participate fully and be treated and respected like every other member of the Cub Scout pack. Young men or boys with cognitive, physical, or emotional disabilities should be encouraged to participate in Scouting to the extent their abilities will allow. Many Scouts with disabilities can accomplish the basic skills of Scouting but may require extra time to learn them. Working with these youth will require patience and understanding.

Begin with the Cub Scout and his parents or guardians; seek guidance from them on how best to work with the Scout with special needs. The parents or guardians can help you to understand the Scout’s medical history as well as his capabilities, his strengths and weaknesses, and ways they can support

you as his den leader. This will help you become aware of special needs that might arise at meetings, field trips, and campouts with his parents. To the fullest extent possible, Scouts with disabilities should be given opportunities to camp, hike, and take part in all activities.

The best guide to working with Scouts who have disabilities is to use good common sense, to trust your instincts, and to focus on all the potential that Cub Scouts with disabilities do have. It's important to try to remember that Cub Scouts are first and foremost boys, whether they have a disability or not.

Below are some helpful tips for working with Scouts with special needs and disabilities:

◆ LEADERSHIP TECHNIQUES

- Wise leaders expect challenges but do not consider them overwhelming. All boys have different needs. The wise leader will recognize this and be prepared to help.
- Leaders should make a personal visit to the parents and the new Scout with a disability to learn about the Scout, any physical or cognitive limitations, his abilities and preferences, and whether he knows any of the other boys in the pack. Some young people with disabilities will try to do more than they are capable of doing, just to “fit in” with others, which could result in unnecessary frustration.
- Many youths with disabilities have special physical or health needs. Parents, visiting nurses, special education teachers, physical therapists, doctors, and other agencies can help make you more familiar with the nature of the disability. Get parent permission before contacting health care persons.
- Accept the Scout as a person, and give him the same respect that you expect from him. This will be much easier to do if you know the Scout, his parents, his background, and his likes and dislikes. Remember, any behavior that presents difficulties is a force that can be redirected into more acceptable pathways.
- With some boys with special needs, a “buddy system” can be very effective. If it is appropriate for the new Cub Scout, explain the system to the den. Each week, a different den member will be responsible for helping the new Cub Scout during the meeting. Emphasize that the important factor is to “Do Your Best” and that the boy who is helping must be patient—not only because of the special needs of the Cub Scout but because the new boy is new to Cub Scouting. Practice the planned activities, with each boy taking a turn at helping and being helped. Often, boys learn more about helping others when they themselves are helped.
- Example is a wonderful tool. Demonstrate personal discipline with respect, punctuality, accuracy, conscientiousness, dignity, and dependability.
- Become involved with the Scout in your care. Let him know that you care for him. A small word of praise or a pat on the back for a job well done can mean a lot to a boy who receives little elsewhere. Judge accomplishment by what the Scout can do, not by what someone says he must do or by what you think he cannot do.
- Rewarding achievement will likely cause that behavior to be repeated. Focus rewards on proper behavior and achievement.
- Do not let the Scout or parents use the disability as an excuse for not trying. Expect the Scout to give his best effort.

◆ GIVING INSTRUCTION TO YOUTH WITH DISABILITIES

- Maintain eye contact during verbal instruction, except when the Scout's culture finds this inappropriate.
- Make directions clear and concise. Be consistent with instructions.
- Simplify complex directions. Give one or two steps at a time.
- Make sure the Scout comprehends the instructions before beginning the task.
- Repeat instructions in a calm, positive manner, if needed.
- Help the Scout feel comfortable with seeking assistance.

◆ ADVANCEMENT GUIDELINES FOR CUB SCOUTS WITH SPECIAL NEEDS OR DISABILITIES

The current edition of the *Guide to Advancement* is the official source for administering advancement in all Boy Scouts of America programs. Section 10 deals with advancement for members with special needs. Topic 10.2.1.0 addresses issues specific to Cub Scouting:

Cub Scouts with disabilities may have difficulty completing the requirements to advance. However, it is important that these Scouts feel as much like others as possible. Therefore, completing the requirements as stated in his youth handbook should be a primary objective. And, as with all Cub Scout advancement, the Cub Scout motto “Do Your Best” should be the standard for performance.
GTA 10.2.1.0

There could be times, however, when a Cub Scout’s “best” isn’t enough even to get a start. For example, a boy in a wheelchair cannot pass requirements calling for walking or running. In these cases, the Cubmaster and pack committee may jointly determine appropriate substitutions that are consistent with the Cub Scout showing he can “do his best.”

For additional information on working with Cub Scouts with special needs, see the appropriate chapter in the *Cub Scout Leader Book*. In the Appendix of this guide, you will find definitions of disabilities and guidelines for specific types of special needs and disabilities.

HELPFUL HINTS FOR DEN LEADERS

Prepare yourself to “Do Your Best” as a den leader by focusing on the leader materials and training you should have to best serve your Cub Scouts.

The following are some hints that will help you better plan and execute your den meetings.

PLANNING YOUR MEETINGS IN ADVANCE

Plan your meetings ahead of time with emphasis on the flow of activities. Pay special attention to the “Notes to Den Leader” section at the start of the adventure as well as the “After the Meeting” sections of den meeting plans for preparation and materials needed for the next meeting. You will want to alternate between quiet and more vigorous activities; the den meeting plans are designed with this approach in mind. Boys have a lot of energy to expend, so be sure you have an active game or other activity to help channel some of that energy. In addition to the Gathering activity, there are additional games in the Appendix to this guide that will help you keep the boys on track and having fun. Dens that incorporate regular physical activity and other healthy practices into their meetings can earn the SCOUTStrong Healthy Unit Award. Encourage your Scouts to participate in physical activity at the den meeting and help them earn this award (more information can be found in the Appendix). Plan on investing 45–60 minutes to read through the den meeting plans and prepare for the den meeting. The time invested in planning and preparing will ensure that your meeting runs well and is fun for the Scouts.

DEN RULES AND CODE OF CONDUCT

At the beginning of the year, establish the rules that the den will follow and the consequences for breaking those rules. Boys should participate in the decision-making process. By helping decide what can and can't happen in the den, boys will feel a sense of responsibility toward how the den is run. They will feel that the den is "theirs." Have them design and then sign a poster on which the code of conduct is written and display it at your meeting place. Or make two copies: one that boys can keep at home and one to be displayed at the den meeting after both the boy and his parent have signed it.

DUTY TO GOD ADVENTURES

The BSA maintains that no member can grow into the best kind of citizen without recognizing an obligation to God; the BSA supports all faiths and faith practices equally, whether the youth and his family are members of an organized religious body or not. All Scouts show this by being faithful in their duty to God as their family practices their faith and by understanding the 12th point of the Scout Law: "Reverent."

The duty to God adventures in the Cub Scout rank requirements encourage a Cub Scout to work with his family to thank God and to develop an awareness of his own personal beliefs in relation to his duty to God. These adventures are primarily home-based adventures. As the den leader, you should let parents know they need to help their Cub Scout complete the duty to God adventure. If your pack is sponsored by a religious body or all members of your den share the same faith, you may choose to incorporate the duty to God adventures into your annual den meeting plans, working with the families in the den to achieve these adventures.

The religious emblems program is mentioned in each rank's duty to God adventures. The emblem for a faith can be earned by the Scout by completing the specific program requirements. You may also want to check with your Cubmaster or the pack committee chair for the program materials if you are chartered by a faith-based organization.

Additional information for taking part in the religious emblems program is available at www.scouting.org/Awards/ReligiousAwards.aspx or www.praypub.org; your religious education leaders may also have information on these recognitions.

CEREMONIES

Ceremonies are important for marking the beginning and end of each meeting. They are also a time for reinforcing the aims and purposes of Scouting, marking important events, and bringing the boys together. As boys finish achievements toward their badges, simple ceremonies during the den meeting will serve to congratulate them on their accomplishments. You will find suggested ceremonies in the Appendix of this guide or in the resource *Ceremonies for Dens and Packs* (BSA No. 33212) available at your local Scout shop. Some packs maintain a library of resources; check with your Cubmaster to see if these materials are available within your pack.

Den ceremonies should be short—no longer than two or three minutes—and varied. The same opening and closing each week will become boring. Occasionally, the boys should have a chance to help plan and lead den ceremonies. Here are some types of den ceremonies to consider using in your den meetings:

- An opening ceremony, often a flag ceremony, signals the beginning of the den meeting.
- A progress toward ranks ceremony can acknowledge a boy's progress toward his rank advancement.
- A denner installation ceremony recognizes a boy leader and the importance of this position in Cub Scout and Webelos dens.
- Special recognition ceremonies can mark special events such as birthdays and holidays.
- Closing ceremonies can emphasize Cub Scouting's ideals and bring a quiet, inspirational end to the den meeting.

IMMEDIATE RECOGNITION

A den doodle is an object for the boys to use to show off their accomplishments and achievements. In the Appendix of this guide there are ideas for den doodles. Your den of boys can design and create their own den doodle as a den meeting activity at the start of the year. Use the den doodle to keep a visual reminder of activities the den has completed and shared.

Adventure loops can also be awarded at the den level or at the pack level. Awarding an adventure loop at the pack level lets all the pack know of the Scout's achievement during an advancement ceremony. Check with your Cubmaster and pack leadership for the practices your pack follows. No Cub Scout should be required to wait more than two weeks to receive an award.

MISSED MEETINGS

Circumstances occur when a boy may miss one or more of the den meetings you've planned. Transportation issues, illness, or sports and school activities may require the Scout to miss meetings. **DO YOUR BEST** to communicate the requirement(s) or activities that were missed to his parents or guardian. Determine if you have program materials you can share, such as activity items or notes on the outing, that a family can use to help the boy achieve what was missed. Sharing the content of this book can be a great help as well. It is not the expectation that you alone need to help him make up the missed work. It is a combined effort between you as his leader, the boy, and the boy's family. The Cubmaster is a good resource as well for you to consult with if a boy is consistently missing meetings.

SNACKS/TREATS

Healthy snacks and water at meetings help set an example of healthy eating habits. If a snack is served during meetings, have fruits or vegetables and save the treats for a special occasion. Offering fruits or vegetables can also help you avoid concerns with common food allergies; however, it's best to discuss allergies with families before the first meeting. You can motivate Cub Scouts to try healthy foods by working toward the SCOUTStrong Healthy Unit Award as a den, which requires fruits and/or vegetables as snacks during meetings. Learn tips to get started and more about this award on in the Appendix under "Awards Cub Scouts Can Earn."

DEN SCRAPBOOK

A great idea for each of the boys in your den is to create a scrapbook early in the program year. Fill the scrapbooks with sample artwork that the boys create as den activities, stories about their adventures, and pictures taken of boys with their completed projects. The den scrapbooks will be treasured mementos proudly displayed at the boys' Eagle Scout court of honor in just a few years!

TRACKING THE ADVENTURE

It is important to keep track of what has been accomplished by the Scouts as they advance through the adventures and meet the requirements for each rank. Families will keep track of adventure requirements completed at home in each Scout's handbook. Coach parents in the value of recording accomplishments regularly in their son's handbook. A parent's or guardian's signature will document completion of home-based requirements.

For ease in keeping track of advancement requirements, advancement posters are available at your local council Scout shop (Tiger, No. 34715; Wolf, No. 34182; Bear, No. 34191; Webelos, No. 34187). On a regular basis, transfer requirements completed at home to this form. Keeping track of completed requirements in a single place will also help you share accomplishments with your pack's advancement coordinator, who will order awards each month. The awards will be presented monthly at the pack meeting.

SUCCESS

Leadership is learned and developed. You can become an effective den leader if you complete basic training, plan interesting den meetings, and take the time to understand the boys. Become familiar with the Cub Scout handbook, and provide opportunities for advancement. One of your best resources is your district's monthly Cub Scout leader roundtable, where you can exchange ideas with other den leaders. Remember to be flexible in your planning. Have fun in the program. Be thankful for the opportunity you have to work with boys and influence their lives. There is great satisfaction in helping boys learn good values and worthy skills along their way to becoming adults.

Required Adventures

CALL OF THE WILD

RATIONALE FOR ADVENTURE

Many boys join Scouting because they want to go camping. This adventure will introduce Wolves to several camping skills—selecting and bringing gear, participating with their families in campfire shows, and being prepared for bad weather. They will also learn about animals they might see, the Leave No Trace Principles for Kids, tying knots, and how to handle potentially harmful situations.

TAKEAWAYS FOR CUB SCOUTS

- Outdoor essentials
- Identifying animals
- Tying square and overhand knots
- Taking care of themselves in the wilderness
- A Scout is obedient, courteous. 

Wolf Handbook, page 30

ADVENTURE REQUIREMENTS

1. While a Wolf Scout, attend a pack or family campout. If your chartered organization does not permit Cub Scout camping, you may substitute a family campout or a daylong outdoor activity with your den or pack.
2. Show how to tie an overhand knot and a square knot.
3. While on a den or family outing, identify four different types of animals. Explain how you identified them.
4. With your family or den, make a list of possible weather changes that might happen on your campout according to the time of year you are camping. Tell how you will be prepared for each one.
5. Show or demonstrate what to do:
 - a. When a stranger approaches you, your family, or your belongings.
 - b. In case of a natural disaster such as an earthquake or flood.
 - c. To keep from spreading your germs.
6. On the campout, participate with your family or den in a campfire show. Prepare a skit or song, and then present it at the campfire for everyone else.
7. Do the following:
 - a. Recite the Outdoor Code with your leader.
 - b. Recite the Leave No Trace Principles for Kids with your leader. Talk about how these principles support the Outdoor Code.
 - c. After your campout, list the ways you demonstrated being careful with fire.

NOTES TO DEN LEADER

For Meeting 3, Wolf Scouts may participate in a pack campout (requirement 1) or an alternative activity as permitted by their chartered organization. Confirm the campout plan with families, including transportation, all the necessary clothing, and any additional items they need to bring. Make sure a tour and activity plan has been submitted, if required, and activity consent forms are distributed, signed, and collected.

If Scouts will instead be going on family campouts, identify locations that will help them complete the requirements for this adventure.

See the Appendix for optional den meeting activities, including gatherings, openings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Plans for the upcoming pack campout—location, fees, gear list, food arrangements, etc.
- Assorted flying discs and targets for the Gathering activity (see Meeting 1 Resources)
- Information about how to identify animals, including photos or illustrations (Activity 1)
- Slips of paper for the “Camping Charades” game (Activity 2)
- Sample gear items for the campout, including the Cub Scout Six Essentials (Activity 3)

GATHERING

- As Scouts arrive, have them practice throwing discs at targets. (See Meeting 1 Resources.)
- Have each Scout write his favorite camping activity on a slip of paper, and put all of the papers in a hat, bowl, or other container.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Recite the Outdoor Code (requirement 7a; see the *Wolf Handbook*).
- Recite the Leave No Trace Principles for Kids (requirement 7b; see the *Wolf Handbook*).

TALK TIME

- Introduce the Call of the Wild adventure to the den. Build interest by describing the goals of the adventure and some of the activities that are planned.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Share plans for the pack campout (see above). If some Scouts will be camping out with their families, discuss possible locations with the boys and their parents, and review everything they will need to bring.

ACTIVITIES

◆ Activity 1: Animal Identification (Requirement 3)

- Using photos or illustrations, teach the Scouts how to identify four types of wild animals they may be able to see near their homes or on the campout. If possible, include examples of mammals, birds, insects, reptiles, and amphibians. (See Meeting 1 Resources.)
- Have them go to requirement 3 in their *Wolf Handbooks* and write the name of each animal and how to identify it.
- Show the boys some additional pictures that look similar, but are clearly not the types of animals that they will see on the campout. Have them pick out the differences.

◆ Activity 2: Camping Charades Game

- Have each Scout pick one of the slips of paper they filled out during the Gathering and pretend to be doing that activity while the other boys try to guess what it is. Tell them not to use words or props—only actions—and give them time to plan the charade with help from adult leaders.
- Ideas from this game can be worked into the campfire skit or song the Scouts will perform later with the den or their families (requirement 6). Suggest ways they might do this.

◆ Activity 3: Camping Gear

- Discuss with the Scouts what gear they should bring on the campout for their own personal care and comfort, based on where and when they are camping. Don't forget the Cub Scout Six Essentials! (See Meeting 1 Resources.) You should also cover items like tents, sleeping bags, ground cloths, pillows, sleeping pads or mattresses, warm clothes, raincoats, eating utensils, hats or caps, toothpaste, toothbrushes, etc.

CLOSING

- **The Grand Howl.** To recognize their achievements during this meeting, form a circle and have each boy squat, make the Cub Scout sign with both hands, then lean forward and touch the ground between his feet. Then, like young wolves, all the Scouts raise their heads and give a long howl. When this is done, they all jump to their feet, raise their right hands high above their heads, and give the Cub Scout sign again, shouting, "Akela! We'll—do—our—best!"

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 3, 7a and 7b.
- Work together to clean up the meeting place.
- Prepare thank-you notes for the Scouts to sign at the next meeting.

MEETING 1 RESOURCES

DISC GAMES (GATHERING)

Frisbee-style flying discs can be used for a variety of activities. The basic skill is easy, and the Gathering is a good time for Wolves to refine that skill without the need for much equipment or preparation. Try either of these two games, depending on the time you have available.

Target shooting. Lay out a field of "targets," making sure to include a mix of shapes and sizes at various distances from the throwing line. Have Scouts try to hit the items by throwing the discs. As their skills increase, add a few challenges by removing the larger targets, moving some of them farther away, or providing ring-shaped objects to shoot through (e.g., tires, hula-hoops).

Disc golf. Set up a course over a large field or backyard with markers for "holes." The players must strike the markers to complete a hole, counting shots along the way. The course may include some obstacles to play around. The player with the lowest shot score wins. As a variation, let teams of two boys alternate taking shots to complete a hole.

ACTIVITIES

◆ Activity 1: Animal Identification

These tracks may be included as an illustration during the activity.

Domestic Cat

Cocker Spaniel

Rabbit

Squirrel

Chipmunk

Lynx

Fox

Wolf

Mink

Porcupine

Weasel

Cougar

Coyote

Raccoon

Otter

Skunk

◆ Activity 3: Camping Gear

Cub Scout Six Essentials. Review these items that each Cub Scout should carry in his personal gear when going on hikes or campouts. Suggest getting a small fanny pack or similar bag to organize the items and make them easy to carry without interfering with normal activities. Emphasize that these items are not intended for play and should be used only when needed.

- First-aid kit—adhesive bandages, moleskin, gauze, antibiotic ointment, etc.
- Water bottle—filled and large enough to last until it can be filled again
- Flashlight—for emergency use only
- Trail food—can be made as a den activity prior to hike or campout
- Sun protection—sunscreen of SPF 30 or greater and a hat
- Whistle—also for emergency use only

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Several non-transparent bags, each with a camping item inside for the shape guessing game (Gathering)
- Small bottle of soap and a basin or pot filled with water for hand cleaning (Gathering)
- Whiteboard and a marker for Talk Time
- Examples of gear and clothing needed in case of bad weather (Talk Time)
- Ropes for knot tying and the knot relay game—6" length for each Scout (Activity 1)
- If needed, invite some Boy Scouts or adult volunteers to help as the Wolves learn to tie knots. Have examples on hand of finished overhand and square knots, so they can compare their work.

GATHERING

- **Shape guessing.** Let each Scout reach into one of the bags prepared for the game and try to guess the camping item inside. Then reveal the contents of each bag.
- **Hand cleaning.** Have each boy demonstrate how he would wash his hands on a campout, using the water basin and liquid soap (requirement 5c).

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Discuss plans for the upcoming pack campout or campouts with families.
- Reveal the items that were hidden in bags for the shape guessing game. Discuss hygiene items and gear needed for campouts, making sure to review again the Cub Scout Six Essentials (see Meeting 1 Resources).
- Discuss the Leave No Trace principles and how they support the Outdoor Code (requirements 7a and 7b; see the Appendix). Emphasize that Wolves are focusing especially on the Outdoor Code's call to "Be careful with fire." Talk about ways the boys will demonstrate this principle during the campout.

ACTIVITIES

◆ Activity 1: Safety Check (Requirements 4 and 5)

- Discuss what the boys should do if a stranger approaches them or their family members, and call their attention to the tips in the *Wolf Handbook* (requirement 5a). Another good resource can be found on the National Crime Prevention Council website: www.ncpc.org/topics/violent-crime-and-personal-safety/strangers/. Use the whiteboard and marker to help as you lead the discussion.
- Show the bad weather gear and clothing you collected, and describe how each item might be useful if the weather changes drastically while you are camping.
- Talk about what to do in case a natural disaster occurs during a campout, including each type of disaster listed in the handbook (requirement 5b). Have Wolf Scouts write in their handbooks one thing they can do if any one of those disasters strikes. Don't let the talk get bogged down in hypothetical scenarios—keep it realistic, so the boys can quickly solve the situations. Is your area prone to flooding, earthquakes, wildfires, windstorms, blizzards, or monsoons? Refer to www.ready.gov or other online resources dealing with disaster preparation and recovery.

◆ Activity 2: Knot Tying/Knot Relay Game (Requirement 2)

Show the boys how to tie these two knots, based on the instructions in the *Wolf Handbook*. Give each boy time to practice and demonstrate what he has learned. Then, if time permits, play the Knot Relay Game.

- **Overhand knot.** This type is used to prevent a rope from going completely through a pulley or a hole. It can also be a starter for tying shoes or be used to keep the end of a rope from unraveling.

- **Square knot.** Also called a reef knot, this can be used to tie two ropes together or to tie packages, rig sails, or tie the ends of a bandage.

- **Knot Relay Game.** Divide Scouts into two teams, each standing in single-file lines. Lay two ropes on the floor about 20 feet from the start line. The first Scout in each team runs to the rope, ties an overhand knot, shows it to a judge, unties it, and runs back to tag the next boy in his team. Once this relay is finished, you can repeat it using square knots.

◆ Activity 3: Campfire Show Planning

- Have Wolf Scouts work together to brainstorm some ideas for a campfire show to perform at the upcoming den outing. Ideas can include simple songs, skits, or other creative acts. Help ensure that each Scout is included and has a role in the show. Scouts will practice for the show as a Do-at-Home Project.

CLOSING

- Gather the den in a Friendship Circle. Using their ropes from Activity 2, have each Scout tie his rope to his neighbor's with a square knot until a rope circle is formed. Standing around the circle, the Scouts hold the rope with their left hands while making the Cub Scout sign with their right. The den leader then recites this quote from Lord Baden-Powell: *Every Scout ought to be able to tie a knot. To tie a knot seems a simple thing, and yet there are right and wrong ways of doing it, and Scouts ought to know the right way. Very often it happens that lives depend on a knot being properly tied.*
- Review details for the upcoming campout or outing in Meeting 3. Make sure all Scouts and their families know the plans.

Do-at-Home Project Reminder:

Wolves should practice a skit or song for the campfire show with their family or the whole den (requirement 6).

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 2, 4, and 5.
- Work together to clean up the meeting place.
- Have Scouts sign thank-you notes to give to anyone who helps the den during the pack campout.

MEETING 3 PLAN (Den Outing)

PREPARATION AND MATERIALS NEEDED

- Camping gear, including Cub Scout Six Essentials and all items needed from checklist in *Wolf Handbook*
- Food for cooking meals
- A skit or song for participating in the campfire show with any props or costumes needed for the presentation
- Confirm that a tour and activity plan has been submitted, if required, and that transportation to and from the event is in place. Secure activity consent forms.
- Unit den leader should have in possession (if required by local council practices) the tour and activity plan and a copy of the *Guide to Safe Scouting*.

GATHERING

Remind the Scouts of the slogan, "Take only memories, leave only footprints," and the adage that Scouts always leave a campsite better than they found it. Wolf Scouts focus on the Outdoor Code principle of "Be careful with fire." Discuss ways that they can demonstrate this principle when they are at a campsite, using the *Wolf Handbook's* guidelines for requirements 7a, b, and c as a resource. Point out to them the things that previous campers may have left behind and remind them that if we leave it here also, other campers will think it was ours. So let's clean up!

OPENING

- Say the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law. If the den does not have a United States flag, ask one Scout to display the flag on his uniform for the group.
- Go over the activities planned for the outing.
- Share the time that the dinner preparation will begin.
- Share the time the campfire will begin.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Animal Identification (Requirement 3)

Make sure each Scout identifies four different types of animals during the campout and explains how he identified them. Animals can include birds, insects, and other animals.

◆ Activity 2: Human Chain Race

- Have Wolf Scouts line up single file and in two teams. (Have an adult join one of the teams if you have an odd number of boys.) Each player then reaches down between his legs with his right hand and grabs the left hand of the Scout behind him to make one long chain. On the “Go” signal, both teams race forward around an established turning point and back to the finish line. If one of the chains breaks, the team must stop and re-form before continuing.

◆ Activity 3: Perform Skit or Song (Requirement 6)

Have the Scouts perform their skits or songs at the campfire show. Check to make sure any needed props or costumes are ready to go.

CLOSING

- The closing for this meeting may be part of the ending of the campfire, or possibly the morning after camping out. It should be inspirational and ideally reference the outdoors.
- Have each Scout list in his copy of the *Wolf Handbook* how he demonstrated the principle of “Be careful with fire” during the campout (requirement 7c).

AFTER THE MEETING

- Record completion of requirements 1, 3, 6, and 7c.
- Work together to clean up the campsite.
- Send thank-you notes to those who helped.

Upon completion of the Call of the Wild adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack’s tradition.

NOTES

RATIONALE FOR ADVENTURE

This adventure will give Wolf Scouts the opportunity to learn more about their neighborhood and community structure, how they can be a part of their community through service, and how others have provided service to our country.

TAKEAWAYS FOR CUB SCOUTS

- Teamwork
- Problem solving
- A Scout is loyal. 

Wolf Handbook, page 50

ADVENTURE REQUIREMENTS

1. Participate in a flag ceremony, and learn how to properly care for and fold the flag.
2. Work with your den to develop a den duty chart, and perform these tasks for one month.
3. Do the following:
 - a. Learn about the changes in your community, and create a project to show your den how the community has changed.
 - b. Select one issue in your community, and present to your den your ideas for a solution to the problem.
4. Do the following:
 - a. Attend the pack committee leaders' meeting. Present ideas to the pack committee regarding your service project.
 - b. Work together on a community service project.
5. Talk to a military veteran, law enforcement officer, member of the fire department, or someone else who works for the community. Talk about his or her service to the community. After you have visited with the individual, write a short thank-you note.
6. Do the following:
 - a. Learn about the three "R's" of recycling: reduce, reuse, and recycle. Discover a way to do each of these at home, at school, or in your community.
 - b. Make your own recycling center, or contribute to an existing one.
 - c. Create a den project from recyclables for a pack meeting.

NOTES TO DEN LEADER

The outing in this adventure is not a den meeting. Instead, the den will be attending a pack committee leaders' meeting so the boys can observe the process and present their ideas for a service project. Alert the committee to include the presentation on their agenda. The committee may also ask the den to conduct either an opening or a closing for the meeting. This should be considered when practicing for the presentation.

Once the committee has approved the project, the den can put it into action. The den will need to make separate arrangements for completion of the project based on the specific type of project selected.

Invite a military veteran, member of the fire department, police officer, or community service worker to talk to the den (requirement 5) during Meeting 2. Also, make arrangements well in advance for shipping the military care packages the Scouts will assemble at that meeting. For assistance, contact a local military base, National Guard station, USO office, or American Legion post. The office you contact may be able to suggest items for the packages.

See the Appendix for optional den meeting activities, including gatherings, openings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Five metal washers per Scout and a container with a wide opening (plastic bowl, cardboard box, etc.) for the “Washer Toss Game” (Gathering)
- List of ideas for community service projects (see requirement 3a in the *Wolf Handbook*)
- The den will be selecting a community service project proposal during Meeting 1, and they will present the project during a pack committee leaders’ meeting. Confirm the schedule for the meeting and work with the pack committee chair and parents to coordinate the den’s presentation at that time.
- The presentation to the committee will be made as part of a den outing for Meeting 3.
- Contact the local library or historical society to see if photos are available showing development in the den’s neighborhood or community during the last 25 years—streets being constructed, trees cut down, water diverted, etc. You may also be able to collect photos online that show how the area looked many years ago. Gather enough pictures for each Wolf Scout to build a small photo collage in the “Things Change” activity.
- Whiteboard and a marker for Talk Time
- Blank cards and pencils for ballot voting
- A printed copy of the weekly den duty chart (see Meeting 1 Resources)
- Sheets of poster board and glue or tape for the “Things Change” activity
- Water balloons for team-building game (if no one in the den has a latex allergy)

GATHERING

Washer Toss Game. Have the Scouts form a circle several feet in diameter. Give each boy five metal washers (if those aren’t available, you may substitute pennies, buttons, or wrapped hard candy). Place the container in the center of the circle, then go around the circle as each boy takes a turn throwing his washers. After he succeeds in tossing all five into the container, let him retrieve the washers and try tossing from a farther distance when his turn comes again.

OPENING (REQUIREMENT 1)

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Demonstrate how to properly care for and fold a flag, and actively involve the Wolf Scouts in the demonstration. Refer to the *Wolf Handbook* and the Appendix for additional guidance.
- Have the den recite the Outdoor Code.

TALK TIME (REQUIREMENTS 2, 3A, AND 3B)

- Introduce the Council Fire adventure to the den. Build interest by describing the goals of the adventure and some of the activities that are planned.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Discuss changes in the community and service project ideas.
 - Pass around the community photos you gathered or copied. Ask each Scout to point out one thing he sees that has changed, and then discuss the impact of those changes on plant and animal life. Were any animals forced to leave their natural habitats? Is pasture land gone? Has a water source been blocked or even destroyed? Help the boys to see how problems caused by human expansion can be hard to solve in a way that pleases everyone. Some examples: how to deal with litter and graffiti, or zoning disputes over a new shopping mall or skate park.

- Then have the Scouts narrow their conversation to one community problem and think of ways they could help solve it. Let them also consider the ideas in the *Wolf Handbook*. If none of these are suitable to your area, you may substitute one that is important to your group. List their ideas on the whiteboard and pass out ballots to vote on the one that seems best. After the vote, lead a reflection on how they came to the solution. Did everyone agree? Maybe not, but being a good citizen means we put the needs of the community ahead of our personal opinions.
- Finally, have the boys work together to fill out the den duty chart for the month. See requirement 2 in the *Wolf Handbook* for suggestions, and make sure everyone will have an opportunity to do several jobs. Remind them that “a Scout is loyal,” and they can show loyalty to their den by completing their assigned chores each week. Also, “a Scout is trustworthy”: Their fellow Scouts will trust them to do those chores.

ACTIVITIES

◆ Activity 1: Things Change (Requirement 3a)

Give each Scout a sheet of poster board and some of the neighborhood photos to build a small collage showing changes in their community through the years.

◆ Activity 2: Prepare for Presentation to Pack Committee Leaders

Practice presenting the service project the den has selected to the pack committee leaders. You could offer a skit written by the boys, a digital slide presentation, or a simple oral proposal.

◆ Activity 3: Water Field

- Play this team-building game. (Remember that Scouting is a safe haven for everybody; no one should be forced to play a game if he doesn't feel physically or emotionally comfortable with it.)
- Divide the Scouts into two teams. One at a time, a boy from each team walks across a “water field” (water balloons scattered around the backyard or a grassy area) with his eyes closed or wearing a blindfold. The team to get the most players across the field without getting wet wins. Other players can direct their teammates by shouting instructions to avoid the water (e.g., “two steps to the right”).
Note: Before playing this game, make sure there are no latex allergies in the den.

◆ Activity 4: Den Yell

Share the three “R’s” of recycling—reduce, reuse, and recycle—and have the boys create a den yell using those three words. Two examples: “We don’t want to lose. So recycle, reduce, reuse!” “Help our earth not get the blues. Recycle, reduce, reuse!”

CLOSING

- Have the Scouts lead the den yell they created. Remind them that a Scout is thrifty, and they can practice this quality by remembering to use the three “R’s” at home, at school, and in their community.

Do-at-Home Project Reminder:

Tell Scouts to bring one or more items for the recycled art project the den will build at the next meeting. They also need to collect aluminum cans from home, school, or a parent’s workplace for the “Monster Stomp.” The cans should be emptied and rinsed out, and make sure the boys wear strong shoes for the stomping.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1, 3a, and 3b.
- Work together to clean up the meeting place.

MEETING 1 RESOURCES

DEN DUTY CHART (TALK TIME)

DEN DUTY CHART

Week 1 Duty Chart

Duty	Wolf Scout in Charge	Completed

Week 2 Duty Chart

Duty	Wolf Scout in Charge	Completed

Week 3 Duty Chart

Duty	Wolf Scout in Charge	Completed

Week 4 Duty Chart

Duty	Wolf Scout in Charge	Completed

MEETING 2 PLAN

PREPARATION AND MATERIALS

- Miscellaneous craft items for the Recycled Art Project (scissors, glue, string, wire cutters, etc.).
- Aluminum cans, large trash bag, and hand sanitizer for the “Monster Stomp” (Gathering)
- Invite a military veteran, member of the fire department, police officer, or community service worker to talk to the den (requirement 5). The guest could be a family member of one of the Wolf Scouts.
- Collect information and photos or illustrations related to each branch of the U.S. military and community service groups to share during Talk Time. If your guest is a veteran, he or she may provide assistance and help lead the discussion.
- Flying disc or pie tin for team-building game
- Thank-you card for Scouts to give to the guest who speaks to the den.

GATHERING: MONSTER STOMP (REQUIREMENT 6B)

As Scouts arrive with their aluminum cans, have them do the “Monster Stomp” outside—smashing the cans with their shoes for recycling. Once the cans are flattened, the boys will drop them into the trash bag to be carried later to a recycling center. Provide hand sanitizer for cleanup after all the cans are bagged. Keep a count of how many cans are brought, but don’t reveal the total to the Scouts until the Closing.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Have each Scout say what the word “brave” means to him.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Check the den duty chart, and remind the boys to complete their assigned duties.
- Have each Wolf Scout share an idea on how to reduce, reuse, and recycle (requirement 6a). Ask them why the three “R’s” are important now and in the future. Have them give the den yell from Meeting 1 using the three “R’s.”
- As a den, review the den’s choice of a community service project to be presented to the pack committee leaders for requirement 4a and completed for requirement 4b. If parts of the presentation require further preparation or practice, confirm that Scouts have a plan in place.

ACTIVITIES

◆ Activity 1: Military or Community Service Member Visit (Requirement 5)

- Introduce the visitor to the den.
- Discuss the role of the military in defending our country. Mention each branch of the U.S. services:
 - Air Force (protecting our country from the air, usually from bases on land)
 - Army (occupational infantry forces that move in after the assault forces)
 - Coast Guard (protecting U.S. coasts)
 - Marines (mobile assault infantry)
 - Navy (protecting our country from the ocean or the air, usually based on ships)
- Guide the Scouts in asking questions related to the ways that community service workers such as your visitor help those in their communities.
- Present the visitor with the prepared thank-you card from the Scouts.

◆ Activity 2: Recycled Art Project (Requirement 6c)

- Have the boys create a project using the items they brought from home. This can be a picture, sculpture, or something that has moving parts. When they finish, they can name the project.
- Make sure that none of the objects brought in by the boys are hazardous or unsanitary, and remind them that the completed project will be displayed at the next pack meeting, so it must be easy to transport.

◆ Activity 3: Perpetual Motion

- Play this team-building game. (Remember that Scouting is a safe haven for everybody; no one should be forced to play a game if he doesn't feel physically or emotionally comfortable with it.)
- Scouts sit in a circle on a large playing area with a smooth surface. Give each Scout a number, and put a flying disc or pie tin in the center of the circle. The first player walks to the disc, turns it on its edge and spins it like a coin. Returning to sit, he calls out the number of another player who must reach the disc before it stops spinning, give it another spin, and call another player's number before sitting down. The object of the game is to keep the disc spinning as long as possible.

CLOSING

- Share how many cans were collected for the "Monster Stomp." Then have the boys recite the Scout Law and ask them which points of the law their recycling represents ("a Scout is thrifty, helpful").
- Review details for the upcoming outing in Meeting 3. Make sure all Scouts and their families know the plans.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 5, 6a, 6b, and 6c.
- Work together to clean up the meeting place.
- Make arrangements with a parent or other adult to take the "Monster Stomp" cans to a recycling center.
- Before the den outing in Meeting 3, coordinate with the pack committee to have the Scouts present their ideas for their service project. The service project for Meeting 3 will need to be scheduled to follow that presentation.

MEETING 3 PLAN (Den Outing)

PREPARATION AND MATERIALS

- Two sheets of colored paper—one red, one green—for the "Silent Red Light/Green Light Game" (Gathering)
- 25-foot rope for team-building game

GATHERING

Silent Red Light/Green Light Game. The entire game should be played in silence with Scouts tiptoeing quietly as they move. Select a leader from among the boys, or a den chief or adult leader. This person holds two sheets of paper—one red and one green—but stands with his back to the Scouts, who stand side by side at a starting line. The leader then raises one of the sheets over his head, and the boys silently do whatever the color indicates: "go" at green and "stop" at red. Each time he switches to the other sheet, the boys must switch to that action. The boys must all move at the same pace, and when one of them reaches the leader, that Scout becomes the leader for the next round. Remind everyone that "a Scout is trustworthy," so a boy must return to the starting line if he goes or stops at the wrong time.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Scouts should be prepared to perform a flag ceremony as part of the opening or closing of the pack committee leaders' meeting.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Check the den duty chart, and remind the boys to complete their assigned duties. Adapt the duties as needed for the outing.

ACTIVITIES

◆ Activity 1: Community Service Proposal Presentation

- As prepared, have Scouts present ideas and materials in support of their selected community service project to the committee. Scouts should be prepared to answer questions about their choice and how they will carry out the project.

◆ Activity 2: Tug of War

- Play this team-building game. (Remember that Scouting is a safe haven for everybody; no one should be forced to play a game if he doesn't feel physically or emotionally comfortable with it.)
- Place the long rope in the center of the playing field and divide the boys into two teams, standing single file on either end of the rope. On the "Go" signal, each team tries to pull the other across a center line. After one team wins, have the Scouts play again without looking at each other as they pull. Does this change make a difference in the outcome and how they work together as teams?

CLOSING

Gather everyone in a circle and reflect on the lessons they learned about teamwork while playing the team-building games in this adventure. Connect this to the ways that military units, police officers, firefighters, and other community workers must work as teams in serving and protecting our country.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 2 and 4a.
- Make arrangements with families to complete the approved service project for requirement 4b at a later time. Also make arrangements with the project site and clarify any restrictions or special requirements.
- Work together to clean up the meeting place.

Upon completion of the Council Fire adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack's tradition.

DUTY TO GOD FOOTSTEPS

RATIONALE FOR ADVENTURE

This adventure will help each Wolf Scout develop a consistent awareness of his duty to God. He will also explore ways that he can practice his family's beliefs as part of living out his duty to God.

TAKEAWAYS FOR CUB SCOUTS

- We should show reverence for those of great faith who came before us.
- Religious freedom is one of the founding principles of our country, and Scouting honors that freedom.
- Practicing one's religion—walking the “footsteps”—shows reverence and duty to God.
- A Scout is reverent. 

ADVENTURE REQUIREMENTS

Wolf Handbook, page 68

Complete requirements 1 and 2.

1. Do both of these:
 - a. Visit a religious monument or site where people might show reverence.
 - b. Create a visual display of your visit with your den or your family, and show how it made you feel reverent or helped you better understand your duty to God.
2. Complete 2a and at least two of requirements 2b–2d.
 - a. Give two ideas on how you can practice your duty to God. Choose one, and do it for a week.
 - b. Read a story about people or groups of people who came to America to enjoy religious freedom.
 - c. Learn and sing a song that could be sung in reverence before or after meals or one that gives encouragement, reminds you of how to show reverence, or demonstrates your duty to God.
 - d. Offer a prayer, meditation, or reflection with your family, den, or pack.

NOTES TO DEN LEADER

Meeting 1 will be an outing to a religious monument or reverential historic site (requirement 1a). Scouts may complete the outing with their families or with their dens.

If the den will conduct the outing together, be sure to contact the proposed location well in advance to set up the meeting and make any necessary plans. Make sure a tour and activity plan has been submitted, if required, and activity consent forms are distributed, signed, and collected.

See the Appendix for optional den meeting activities, including gatherings, openings, and closings

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- If you need help finding a location for the outing, check with a local historical society for suggestions. Requirement 1a for this adventure in the *Wolf Handbook* also provides some ideas.
- Contact someone in charge at the site to make plans for the visit and to see if a tour guide is available. Let them know how many Wolf Scouts and adults to expect.
- Collect signed activity consent forms from parents for Scouts to attend.
- Make all the necessary transportation arrangements.

- Prepare thank-you notes for anyone who helps with the outing.
- Obtain a U.S. or den flag that can be used in a flag ceremony at or near the site. This can be a small flag carried by one Scout as the flag bearer.
- Also bring two flags for flag-folding practice (Gathering).
- Bring permanent markers and a section of cloth large enough for each Scout to draw a picture or write a message on it (Activity 2).
- Write the words for Scout vespers on a poster or on individual slips of paper (Closing).

GATHERING

- Remind Wolves of the buddy system, staying with the group, and observing all rules for behavior at the site. Remember, a Scout is courteous and abides by all of the rules and customs at an outing location.
- Review any questions the boys want to ask during the tour, to make certain all are appropriate.
- The den chief leads flag-folding practice.

OPENING

- Conduct a simple flag ceremony that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law. Follow this with a silent prayer.

TALK TIME

- Introduce the Duty to God Footsteps adventure to the den. Build interest by describing the goals of the adventure and some of the activities that are planned.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Have each Scout choose two of the options for requirement 2 to complete at home so he can report what he did at the next meeting.
- Have each Scout sign the thank-you note(s) you prepared.

ACTIVITIES

◆ Activity 1: Religious Monument or Site Visit (Requirement 1a)

Tour the site as a den, and allow time for the Scouts to ask their questions. When the tour is finished, have everyone thank the people who helped and present the thank-you note(s).

◆ Activity 2: Visual Display (Requirement 1b)

Find a place where the Scouts can sit and create something on the large section of cloth. Pass out markers for them to draw pictures or write messages about what the site meant to them personally.

CLOSING

Gather the den members in a circle and recite the Scout Vespers, if appropriate.

*Softly falls the light of day,
While our campfire fades away.
Silently each Scout should ask:
"Have I done my daily task?
Have I kept my honor bright?
Can I guiltless sleep tonight?
Have I done and have I dared
Everything to be prepared?"*

Do-at-Home Project Reminder:

Tell each Scout to think of two ways he can practice his duty to God and choose one to do for a week (requirement 2a). Then have him pick at least two of the other options in requirement 2 and be ready to tell at the next meeting what he did to complete the requirement.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1a and 1b.
- Ensure cleanup takes place.
- Bring the decorated cloth to the next pack meeting and display it.

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- Arrange a time and place for casting each Scout's footprint on paper or in plaster of paris before the meeting (Activity 2).
- Collect ribbons and dowels to create footprint wall hangings if the boys use plaster of paris, or construction paper, paints, permanent markers, and wiggle eyes, etc., if they use paper.
- Printed copies of wolf prints, enough to make a trail around the meeting place (Gathering).
- Poster board with words for the "America's Great Beauty" song. Bring a recording of the "Battle Hymn of the Republic" so Scouts can learn the tune if they do not already know it (Opening, requirement 2c).
- Notify parents that the Scouts will be using paints during the meeting, so they should wear activity clothes instead of their Cub Scout uniforms.

GATHERING

Wolf Prints Game. Place the wolf print copies in a trail around the floor of the meeting place. Have the trail change direction at several points and leave an activity card in those places with an activity instruction on each card. For example: "Jump in place five times." "Walk twice in a circle." "Say the Scout Law." "Say the Scout Oath." "Show a sign of being reverent." "Reach up high."

OPENING (REQUIREMENT 2C)

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Sing "America's Great Beauty" to the tune of the "Battle Hymn of the Republic."

My eyes have seen the beauty of the land and skies and seas,

America's great beauty makes me fall upon my knees.

To thank my God who made her, and to ask him please,

Keep my homeland safe and strong.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Duty to God

Have each Scout share with the den what he completed for requirement 2, including how he practiced his duty to God throughout the week. They may bring pictures, books, or other items to make a presentation.

◆ Activity 2: My Footprints

Have paints, permanent markers, and other craft materials on hand for Scouts to decorate the footprint they made on paper or in plaster of paris.

CLOSING

Have each Scout show his footprint and tell about how it was decorated. Then gather in a circle and tell them: *All of these footprints are different, not only in size and how you decorated them but also in how unique each one of you is as a child of God. You are very special, not only to your families but to God, too. In the years ahead, you will continue to grow and your own footprints will get bigger; as this happens, remember to keep your feet moving forward, doing your duty to God.*

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirement 2.
- Work together to clean up the meeting place.

Upon completion of the Duty to God Footsteps adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack's tradition.

MEETING 2 RESOURCES

GAME (GATHERING)

HOWLING AT THE MOON

RATIONALE FOR ADVENTURE

This adventure will give Cub Scouts an opportunity to become comfortable speaking in front of others. It will also serve as a foundation for organizing and performing a campfire program.

TAKEAWAYS FOR CUB SCOUTS

- Working together to share ideas
- Being part of a team
- Learning to cope with stress, fear, and anxiety
- Participating in a campfire
- A Scout is helpful, cheerful, trustworthy. 

ADVENTURE REQUIREMENTS

Wolf Handbook, page 80

1. Show you can communicate in at least two different ways.
2. Work with your den to create an original skit.
3. Work together with your den to plan, prepare, and rehearse a campfire program to present to your families at a den meeting.
4. Practice and perform your role for a pack campfire program.

NOTES TO DEN LEADER

Meeting 3 will be a Wolf den campfire. Make sure that all of the Scouts' families are invited as soon as the time and location are arranged, and that any needed props are provided or brought by the boys. Wolf Scouts will also practice and perform their roles at an upcoming pack meeting.

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- "Paper Route" game items (Gathering)
 - One door mat or small rug
 - One newspaper per Scout, rolled and secured with tape
- Items for the obstacle course activity (e.g., pool noodles, hula-hoops, rope, sports cones) and one blindfold for each pair of Scouts (Activity 1)
- Copies of the Cub Scout motto sign language demonstration from the *Wolf Handbook* (one per Scout, Activity 2)
- One talking stick, prepared before the meeting (see Meeting 1 Resources)
- Poster board or whiteboard for recording the den's campfire plans (Activity 3)

GATHERING

Play the "Paper Route" game (see Meeting 1 Resources).

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Have the denner call roll. Each Scout should respond with a different friendly greeting.

TALK TIME

- Introduce the Howling at the Moon adventure to the den. Build interest by describing the goals of the adventure and some of the activities that are planned.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Introduce the talking stick (see Meeting 1 Resources for instructions on how to make one). Then have the boys take turns sharing something about their favorite song or movie while they are holding the stick. Remind them that the holder of the stick is the only one who can talk at that time.

ACTIVITIES (REQUIREMENT 1)

First, invite the Wolf Scouts to howl like wolves. Then say: “Howling is one way that wolves communicate. Let’s find other ways to communicate with each other.”

◆ Activity 1: Obstacle Course

- Have the Scouts go through an obstacle course around the room or outdoors, using the items you collected. Divide them into teams of two—one boy wearing a blindfold while the other leads him through the course.
- The first time around, the seeing player holds his partner’s arm and can speak directions. Then they switch roles and go through the course again. This time, the seeing player DOES NOT speak and uses only his hand to guide his partner.
- Remind everyone that a Scout is helpful and trustworthy. The blindfolded Scout should be able to trust that he is being led in the right direction.
- After each team has gone through the course twice, ask these questions:
 - “What did it feel like to close your eyes not knowing where you were going?”
 - “How did you feel when you had to be the ‘eyes’ of your buddy?”

◆ Activity 2: Silent Howl

- Now it’s time for the “silent howl”—speaking with our hands. Pass out copies of the Cub Scout motto in American Sign Language (ASL) from the *Wolf Handbook*. Talk about times when this language is needed (communicating when one person is deaf or hard of hearing). Then learn together how to say the motto using ASL.
- Next, divide the Scouts again into teams of two. Have each pair come up with a word, phrase, or sentence using hand signals. Then spend some time reflecting together on how easy or difficult this was to do.

◆ Activity 3: Story of the Lone Wolf

- Gather the boys around a “pretend” campfire. Tell them the Lone Wolf story and how the magical tradition of campfires began.
- As Wolf Scouts, the boys will plan, prepare, and present their own campfire. Start a discussion about this by asking, “What do we need to do first?” Chart their ideas on the poster board or whiteboard and save it for the next meeting, when the Scouts will complete their plan.

CLOSING

- Gather everyone in a circle. Then pass the talking stick around, and have each Scout share his favorite thing that they did at the meeting.
- Close with a grand howl.

AFTER THE MEETING

- Serve refreshments, if desired.
- Work together to clean up the meeting place.
- Record completion of requirement 1.
- If plans are in place for the time and location of the Wolf den campfire (Meeting 3), share this information with the Scouts' families.

MEETING 1 RESOURCES

PAPER ROUTE (GATHERING)

Materials needed: one door mat or small rug; one newspaper per Scout, rolled and secured with tape

Set up the mat or rug—or an area marked off as “door mat”—and a throw line before starting. The Scouts line up single file behind the throw line. Then each boy takes a turn throwing, trying to hit the door mat with his newspaper. See who can get the most accurate throw. (You can also give one point for each time the newspaper lands on the mat.)

TALK TIME

This is one option for making your talking stick.

Materials needed:

- 10-12" piece of $\frac{3}{4}$ " dowel
- Thin cord (jute twine will work)
- Feathers
- 30 craft beads (colors of your choice)
- Paint pen
- Hot glue gun and glue

Directions:

- Decorate the dowel with designs of your choice using the paint pen. Cut a 12-inch piece of cord lacing. Fold the lacing in half and slide the open ends through the loop, securing the lacing to one end of the dowel. Slide three beads over both halves of the cord and push them close to the dowel. Then slide an equal number of beads over the two sides of the cord and tie off each side with a knot.
- Now, cut an 18-inch piece of cord lacing, fold it in half, and secure it in the same way to the opposite end of the dowel. Slide one bead over both halves of the cord, and push that bead all the way to the dowel. Then slide three beads onto each end of the lacing and tie small knots to secure them. Hot glue the feathers to the last bead on each end.

Note: If you use jute twine, tape each end of the cut pieces with a narrow piece of tape to keep it from unraveling while you work. Remove the tape before tying the knots. Dab a drop of hot glue on each tip after you tie the knots.

◆ Activity 3: The Story of Lone Wolf Cub

Once upon a time, many, many years ago, a wolf cub lived in a forest near some tall mountains. This wolf cub belonged to a pack. Then one night there was a terrible storm. All of the wolves ran to seek shelter, but this wolf cub was not a fast runner. He became separated from the pack and was left behind in the woods. All of the trees began to look alike, and he did not know which way his friends had run.

The wolf cub lived by himself and felt very alone. One cool, dark night he looked around and was surprised to see something shining at the top of a mountain. He decided to climb the mountain to find out where the light was coming from. As he climbed, he felt the light getting brighter. When he reached the top, he saw a campfire. He found light and warmth, and these made him happy. He let out a long howl to say, “Look at me here, with this warm fire. Everyone is welcome to join me.”

As if by magic, a small pack of wolves appeared from the dark forest. They gathered around the fire. The lone cub was so happy to see them that he let out a howl and they all joined in, as if in song. Their song was a happy one. They howled and danced around the fire. This was the first campfire song! After their howling song, one of the wolves went to the center of their circle. He raised his paws and applauded with joy. He told his friends their song was fun. This was the first campfire cheer!

The lone cub wanted to know where these wolves had come from. The pack was excited to tell their story. But their way of telling the lone cub their story was new to him. Each of the members of the pack acted out a part. The lone cub liked watching each of the wolves help tell their story. This new way to tell a story became known as a skit.

In fact, he was so happy to watch their story that, after their tale, he jumped up and did a flip! This was the first stunt ever to be performed at a campfire!

When they asked the lone cub why he was alone, he told his story. He said he was sad to be alone. He told his new friends that his story had a happy ending since he had so much fun at their campfire.

The wolves fell asleep until the sun tickled their noses to signal the morning. They gathered together and invited the lone wolf cub to join their pack. They all prepared to find their way down the mountain.

The lone cub stayed for a little longer, thinking about the fun night he had spent with his friends. He felt as if the campfire had been magical, and he did not want to lose that magic.

He paused. Before leaving, he scooped up some of the cool ashes from the campfire and placed them carefully in his neckerchief. He tied a square knot in the neckerchief and put it around his neck. He thought, "I will carry the spirit of the campfire with me always. The next time I have a campfire, I will put these ashes in it so that campfire will be full of this cheerful spirit." And then he ran away to join his new pack!

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
 - Jokes from *Boys' Life* magazine, printed and cut out
- The following items from Meeting 2 Resources:
 - Symbolic campfire, prepared before the meeting
- One copy of the "Lone Wolf" story (see Meeting 1 Resources)
 - One copy of the den skit planning sheet
 - Run-on scripts, one copy per Scout
- Pencils
- Talking stick
- Poster board or whiteboard for listing campfire ideas
- One copy of the Campfire Program Planner (download from www.scouting.org/forms.aspx)
- Copies of the Cub Scout motto sign language demonstration from the *Wolf Handbook* (one per Scout, Closing)

GATHERING

- As the Scouts arrive, divide the boys into teams of two; if you have an odd number, one of them can be paired up with the den chief. Give each pair a joke from *Boys' Life* magazine and have them practice converting the jokes to skits or run-ons for their campfire. Then have them practice by performing the prepared run-ons in Meeting 2 Resources.
- Run-ons may be done in two different ways. 1) Two Scouts walk on to the stage together like they are having a conversation, stop in the middle to perform their lines, then walk off together. 2) One Scout is already on stage and the other runs into the scene. Then they exchange their lines and both run off stage.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Have everyone sit around the symbolic campfire. Then, tell them the story of the “Lone Wolf” and how the magical tradition of campfires began (if not done as part of meeting 1).

ACTIVITIES

◆ Activity 1: Skit Writing (Requirement 2)

- Have the Scouts write at least one original campfire skit using the den skit planning sheet. Let all the boys work together on a single skit or divide them into groups to create two skits—as long as each Scout has a part to perform.
- To keep the activity moving along, it may be best to have the den chief write down the lines as the boys create them. Also, as the den leader, you must make sure the material remains positive in its tone, without violence or anything else that could be considered mean. Let Wolf Scouts know if the script is moving in a negative direction. A good rule to follow: “When in doubt, leave it out!”

◆ Activity 2: Skit Rehearsal

- Have the Scouts run through their skit(s) one or two times. If you have two groups, let one be the audience while the other group performs.
- Talk about the role of an audience: A good audience is quiet, listens, keeps still, hands to self, etc. Applause (or a howl!) at the end gives performers recognition for “doing their best.” Remember, “a Scout is cheerful,” and he can show his support by laughing at jokes in the skit or answering questions if the performers ask for audience participation. If time allows, teach a cheer the audience can add to their applause.
- Remind the performers to speak clearly, slowly, and loudly enough that everyone can hear. They should face the audience, and remember, this is their moment to enjoy being a star!

◆ Activity 3: Campfire Planning (Requirement 3)

- Using the Campfire Program Planner, have the Scouts prepare the rest of their campfire based on what they think the wolves in the lone cub story may have done. Tell them that you, as the den leader, will help with some parts of the campfire, but that they will be responsible for the good cheer, skits, stunts, and songs. Pass the talking stick around so each boy can suggest activities while you list their ideas on the whiteboard. Then write the final plan on the Program Planner.
- Rehearse the program—where to enter, exit, etc. As you do this, list all the props and costumes that will be needed and make plans for having these ready.

CLOSING

- Bring everyone together in a circle, and remind them of the time and place of their campfire presentation. Then recite the Cub Scout motto—“Do Your Best”—using the sign language they learned from the previous meeting. Follow this with a grand howl.
- Confirm that the Scouts’ families know the time and location of the next meeting, and make sure all the props and refreshments will be ready.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 2 and 3.
- Work together to clean up the meeting place.

MEETING 2 RESOURCES

GATHERING

Run-On Scripts

- Make two copies of these scripts for each pair of Scouts in the Gathering.
- Run-ons may be done in two different ways:
 - Scout 2 is already on stage, and Scout 1 runs into the scene. Then they exchange their lines, and one or both boys run off stage.
 - Scout 1 and Scout 2 walk on to the stage together like they are having a conversation, stop in the middle to perform their lines, then walk off together.

Run-On 1

Scout 1 (running on stage, yelling): They're after me, they're after me!

Scout 2: *Who* is after you?

Scout 1: The squirrels, of course.

Scout 2: Why are squirrels after you?

Scout 1: They think I'm nuts. (Runs off stage.)

Run-On 2

Scout 1: Hey, [Scout 1's name], do you know why the Cub Scout put his trumpet in the freezer?

Scout 2: No, why did the Cub Scout put his trumpet in the freezer?

Scout 1: He wanted to play cool music.

Run-On 3

Scout 1: Hey, [Scout 1's name], do you know the quickest way to double your money?

Scout 2: No, what's the quickest way to double your money?

Scout 1: Fold it in half!

Scout 2 shakes his head.

Run-On 4

Scout 1: What travels faster, heat or cold?

Scout 2: Heat, of course.

Scout 1: How do you know that?

Scout 2: Heat has to travel faster, because you can *catch* a cold!

Run-On 5

Scout 1: Hey, [Scout 1's name], why are fish so much smarter than some fishermen?

Scout 2: That's easy. Because fish travel in schools!

Run-On 6

Scout 1: Hey, [Scout 1's name], why did you eat that dollar?

Scout 2: Because it was my lunch money.

Scout 1: shakes his head.

TALK TIME

Symbolic Campfire

Materials:

- 8 pieces of wood, 2"x12"
- 12 nails, 3½"
- Hammer
- Red cellophane or tissue paper
- Flashlight

Directions:

1. Nail together the pieces of wood in the pattern above.
2. Insert red cellophane—or red, yellow, and orange tissue paper—in the center.
3. Place the flashlight, with the light facing up, in the center so it shines up through the cellophane.

ACTIVITIES

Den Skit Planning Sheet (Activity 1)

Theme (or the story's message):

Skit title:

Number of actors (total number of the Scouts in den):

*Briefly describe what happens as each part this outline is played out in the skit.
Note: Keep it simple. Keep it short (three to five minutes). Keep it in good taste.*

A Scout (or a group of Scouts) wants something:

The Scout (or group) starts to reach that goal:

Obstacles stand in the way:

The Scout (or group) uses knowledge to achieve the goal:

MEETING 3 PLAN

PREPARATION AND MATERIALS NEEDED

- Make sure all Scouts and families know the time and place of the campfire.
- Ensure that the boys will bring any props or other items they need.
- Complete the Campfire Program Planner with all sections filled out.
- Cub Scout Vespers, printed in large letters on a poster board
- Confirm that a tour and activity plan has been submitted, if required, and that transportation to and from the event is in place. Secure signed activity consent forms.
- Unit den leader should have in possession (if required by local council practices) the tour and activity plan and a copy of the *Guide to Safe Scouting*.

GATHERING

As the Scouts arrive, gather them together to rehearse the skit(s) and run-ons. Review the order of the program, and remind each boy of what he will be doing.

OPENING

- Welcome families to the “Wolf Den Campfire.”
- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Discuss the upcoming pack meeting, where the Scouts will perform their original skit.

ACTIVITIES

Wolf Scouts perform their skit(s), run-ons, and the rest of the campfire program.

CLOSING

Have everyone sing the Cub Scout Vespers, to the tune of “O Tannenbaum” (or “O Christmas Tree”).

*As the night comes to this land,
On my promise I will stand.
I will help the pack to go,
As our pack helps me to grow.*

*I will always give goodwill.
And follow my Akela still.
And before I stop to rest,
I will do my very best.*

AFTER THE MEETING

- Serve refreshments.
- Record completion of requirement 4 (to be finalized following performance at the pack meeting).
- Work together to clean up the meeting place.
- Confirm that the Scouts’ families know the time and location of the pack meeting, and make sure they are prepared to bring any props needed.

Upon completion of the Howling at the Moon adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack’s tradition.

PAWS ON THE PATH

RATIONALE FOR ADVENTURE

This adventure will encourage the development of hiking skills in Scouts.

TAKEAWAYS FOR CUB SCOUTS

- The Cub Scout Six Essentials: what they are and how to use them
- How the buddy system works and why we use it
- How to hike with Scouts
- Improving Scouts' knowledge of the world around them
- A Scout is brave, clean. 

Wolf Handbook, page 94

ADVENTURE REQUIREMENTS

1. Show you are prepared to hike safely by putting together the Cub Scout Six Essentials to take along on your hike.
2. Tell what the buddy system is and why we always use it in Cub Scouts.
3. Describe what you should do if you get separated from your group while hiking.
4. Choose the appropriate clothing to wear on your hike based on the expected weather.
5. Before hiking, recite the Outdoor Code and the Leave No Trace Principles for Kids with your leader. After hiking, discuss how you showed respect for wildlife.
6. Go on a 1-mile hike with your den or family. Watch and record two interesting things that you've never seen before.
7. Name two birds, two insects, and two other animals that live in your area. Explain how you identified them.
8. Draw a map of an area near where you live using common map symbols. Show which direction is north on your map.

NOTES TO DEN LEADER

Meeting 3 will take place at an outdoor location for a hike. Confirm the outing plan with families, including transportation, all the necessary clothing, and any additional items they need to bring. Make sure a tour and activity plan has been submitted, if required, and activity consent forms are distributed, signed, and collected.

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Trash bags
- Trail food items—could include raisins, chocolate-coated candies, nuts (check for allergies among Scouts), dried fruit, marshmallows, etc.
- Plastic resealable bags

- Any detailed local map
- A map of the trail or area you will use for your hike
- Cub Scout Six Essentials (first-aid kit, filled water bottle, flashlight, trail food, sun protection, and whistle)
- Word strips to identify features on your detailed map. (This does not have to be a map of the trail you are hiking.)

GATHERING

- Have each Scout make trail food to take on the hike. Give each one a plastic resealable bag labeled with his name. Show the Scouts the options, and allow them to choose and create a personal trail mix.
- Encourage them to sample any unfamiliar items. (Check for food allergies BEFORE any sampling or assembling.)
- Once assembled, collect the bags for use on the hike.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Recite the Outdoor Code together. Ask Scouts to share one way the Outdoor Code makes a difference to hikers.

TALK TIME

- Introduce the Paws on the Path adventure to the den. Build interest by describing the goals of the adventure and some of the activities that are planned.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Map Symbols Game

- Introduce the hike, the highlight of this adventure, by showing the Scouts a map of the area.
- If your map shows the trail as a simple line drawing, acquire a map with details.
- Show the Scouts the key, and explain the symbols.
- Once they get the idea, play a game using word strips. Have a Scout pull a word strip, such as “river,” out of the bag, read it aloud, and show his den mates where it is on the map. Word strip options include:

Highway

Road

Trail

River

Building

Park

◆ Activity 2: Explore the Cub Scout Six Essentials (Requirement 1)

- If your Scouts have already assembled the Six Essentials as Tigers or during the Call of the Wild adventure, simply review each item, and challenge the Scouts to remember the purpose of each. Emphasize the importance of bringing water with them for the following reasons:
 - Water will hydrate them.
 - They cannot rely on the water along the trail because it may not be safe to drink.
 - Natural streams and rivers may have harmful bacteria or germs in them.

- If they have not assembled the Cub Scout Six Essentials, introduce the idea by asking them what sorts of items they should take on EVERY hike. Help them focus on the six items we want them to have. Suggest the idea that each Scout should have his own set of essentials in a small pack or backpack that is easy to carry. Remind them that they should bring these essentials each time they hike.
- Play the Cub Scout Six Essentials game.
 - Divide the den into two groups.
 - Have each group line up 20 feet from a table containing at least two sets of the Six Essentials, as well as some other items that are not on the list of essentials.
 - On “Go,” each team sends the first runner to the table. He selects an item he thinks is one of the six and returns to his team, tagging the next Scout in line.
 - Play continues until one team has assembled the correct Cub Scout Six Essentials.

◆ Activity 3: Preparing for the Weather (Requirement 4)

- Discuss the types of weather you are expecting on the hike and how to prepare for any unexpected weather.
- Have the boys identify what type of clothing they should wear. Be sure they include hats that cover their heads and ears. Other suggestions include long sleeves (especially in the cold and in the sun) and comfortable shoes—preferably ones that lace.
- Remind them that sunscreen is an important part of sun protection, which is one of the Six Essentials.
- If rain is a possibility, include a large trash bag to use as an emergency raincoat.

◆ Activity 4: Map Drawing

- Have the boys choose an area they would like to use for their map drawing. It should be an area they see every day.
- Remind them that at the next meeting you will be drawing maps, and they should spend some time in between looking for details to use on their maps.

CLOSING

- Offer a den leader thought regarding “Be Prepared.” When a Scout is prepared, he is not only able to take care of himself but also able to help other members of his den or his community.
- Retrieve the flags.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirement 4.
- Work together to clean up the meeting place.

Do-at-Home Project Reminder:

Remind the boys to assemble their Cub Scout Six Essentials so they will be ready for the hike. They should be brought to the next meeting for review. Note: If this is your den's introduction to the Six Essentials, suggest that the Scout and his family may be able to minimize the cost by gathering some items from home rather than purchasing everything new.

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- Review the Cub Scout rules for hiking safety (see Meeting 2 Resources).
- Additional maps and key labels for map game
- Map-drawing supplies—paper, colored pencils, rulers, etc.
- Animal identification information
- Pictures, drawings, etc., of animals in your area. Scouts will need to identify two birds, two insects, and two animals for requirement 7.
- Items for making a compass or the “Binocular Balance” game (see Meeting 2 Resources)

Outdoor Meeting Options

The alternate meeting plan is designed to get the Scouts outside to use the hiking skills you’ve been teaching this month in a fun, nonthreatening environment. Consider a school playground, nearby park, or other open space near your normal meeting place. Set up stations in advance on the route the Scouts will take. Have parents or guardians occupy the stations. Adapt the plans for Meeting 2 as appropriate to transfer activities to the selected outdoor location.

GATHERING

- Ask your den chief, assistant den leader, or parent helper to assist Scouts with the activities below.
- Review the Cub Scout Six Essentials that the boys have brought.
- Choose one of the following:
 - Play the “Map Symbols” game from the last meeting. Use multiple maps so the Scouts can apply their knowledge.
 - Make a compass.
 - Play the “Binocular Balance” game.

OPENING

Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: STOP (Requirement 3)

- Ask the Scouts what to do if they are separated from the group on the hike. Steer them to the STOP acronym featured in their handbooks. Reinforce the idea that a lost Scout is not in trouble for being separated and that helpers may be out looking for him. Remind the boys that a Scout is brave, and that while it may be scary to be separated from their buddy or the group, they need to stay calm while they are waiting to be found. They have an important role to play in helping rescuers find them, and they can do that by using **STOP**:

- **Stay calm:** Sit down, take a drink of water, and eat some trail food. Make sure you are comfortable, but stay where you can be seen. Don't hide; you are not in trouble!
- **Think:** Think about how you can help your leaders or others find you. Stay where you are, and be sure people can see you. Make yourself easy to find. Remember, if you are apart from the group, people will come and look for you. Stay in one place where you can be seen.
- **Observe:** Listen for the rest of your group or for the people looking for you. Blow your whistle three times in a row, then listen. Three of any kind of signal means you need help.
- **Plan:** Stay calm, and stay in one place. Plan how to stay warm and dry until help arrives.

◆ **Activity 2: The Buddy System (Requirement 2)**

Explore and understand the buddy system. The buddy system is a fundamental element of Scout safety anytime, but especially in the outdoors. Each Scout is assigned a “buddy” for the duration of the event. (If you have an uneven number of Scouts, put three together in one group.) Each pair is assigned a number. That number is only theirs and the only one they should use in the event of a “buddy check.”

The buddy pairs should be close to each other at all times.

- Assign buddies.
- Practice buddy checks. When a leader calls “Buddy check!” the pair moves toward each other and waits. Once the Scouts are with their partners, they call out their numbers in order—“1,” “2,” “3”—until all numbers have been called. If you get through all the pair numbers, everyone is accounted for. Pairs are not allowed to call their number if they are missing a member, so the process will stop. The process also stops if a number is not called. Pairs can call only their own numbers and no one else's number. Once everyone understands the concept, it goes quickly and is a valuable tool for keeping track of everyone.
- Play a memory game. Give the boys a prompt, such as the number of professional football teams they can name. Have the boys make their own lists for one minute. After the minute is up, give each Scout a minute to join with a buddy to improve their lists. The two-Scout lists should have more items than the single-Scout lists. Make the point that it's good to work with a friend.

◆ **Activity 3: Draw Individual Maps (Requirement 8)**

- It may be helpful for you to provide a detailed map for them to look at.
- See the steps for Activity 3 in the Meeting 2 Resources.

◆ **Activity 4: Identify Local Creatures (Requirement 7)**

Have the boys identify local creatures from pictures. Name two birds, two insects, and two animals. If they have trouble with these identifications, show them the differentiating features (e.g., red breast=robin). Have them write the names in their handbooks. Save the pictures for use on the hike.

CLOSING

- Practice buddy checks.
- Give final reminders for the hike, such as bringing the Cub Scout Six Essentials and a daypack to carry their gear. Make sure all Scouts and their families know the plans.
- Retrieve the flags.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1, 2, 3, and 8.
- Work together to clean up the meeting place.

MEETING 2 RESOURCES

GATHERING

Cub Scout Rules for Hiking Safety

1. Always tell someone where you are going and when you will return.
2. Never hike alone. Always use and practice the buddy system.
3. Dress properly for the weather and environment. Be Prepared for possible changes in the weather.
4. Bring the Cub Scout Six Essentials.
5. Avoid hiking along roadways, but if you must, obey all traffic signs and signals.
6. Stay on the trail, protect the environment, and leave the area better than you found it.
7. Be alert to dangerous animals, insects, and plants. Never touch a wild animal.
8. Take 1 pint of water for each hour you will be hiking. Never drink untreated water.

Tips for a Great Hike

- Practice a buddy check while on the hike to impress on all its importance.
- Designate a “lead” hiker and a “trail” or “sweep” hiker. No one passes the lead or falls behind the sweep. These hikers should be able to contact each other, either with radios, or by passing a message up the trail. Take care that no one gets separated.
- The lead hiker should set a pace that all can maintain. One way to do this is to have the slowest of your group lead the way.
- When it’s time for a break, make sure everyone gets a rest—not just those at the front of the line.
- Scouts will forget to look at scenery, so stop the group and point out natural features, animal signs, interesting plants, and other sights.
- Make sure Scouts keep a good spacing from the hikers in front of them. There should be enough room to fall over without hitting anyone in front or back for all hikers. Help Scouts overcome the natural inclination to pack together on the trail.
- Bring a resealable bag with 1 cup of plaster of paris inside. If you find any animal tracks along the trail, mix some drinking water into the plaster and pour the mix into the tracks.

How to Make a Compass

Materials:

Bowl of water
Magnet
Large needle
Cork
Scissors

Directions:

- To magnetize the needle, rub the magnet down the needle 50 to 60 times. Always rub in the same direction.
- Cut off a piece of cork one-half-inch thick.
- Put the needle through the cork, and place it in the water.
- Which way does it point? Turn the cork the other direction. What happens?

Binocular Balance Game

Materials:

Binoculars
Chalk, tape, string, or cord
Chalk
Stopwatch

Directions:

- Challenge all the Scouts to see the world in a new way—specifically, from the wrong end of a pair of binoculars.
- Set out your course by drawing it or marking it with tape, string, a long cord, or chalk. Challenge each contender to walk along the line while looking through the wrong end of a pair of binoculars. The players are not allowed to look away from the binoculars or stray from the line. If they do, they are disqualified. The Scout who walks the line fastest and straightest is the winner.

ACTIVITIES

Activity 3: Draw Individual Maps

Teaching Maps to Cub Scouts

- Things you'll need:
 - One local map for each Scout or pair of Scouts
 - Direction signs: north, south, east, west
 - Two sheets of chart paper—one blank, one with a sketch of the area around your meeting location
 - Markers
 - Building blocks
 - Yarn
 - Sticky notes with map symbols
 - Graph paper and pencils
- Post signs on the four walls of the room indicating the four cardinal directions. Ask your Scouts to stand up and face north. Repeat for south, east, and west.
- Gather the Scouts in one section of the room, and tell them they need to listen carefully and follow instructions.
- Give verbal directions such as “Take five steps to the south. Turn right at the bookcase.” Your instructions might lead outside or to a place where you can reward them with a special snack or game.

Drawing Maps

- Refer to the signs on the four walls of the room to indicate the four cardinal directions. Ask your Scouts to stand up and face north.
- Place a sheet of chart paper on the floor in the middle of the room or on a table in the middle of the room.
- Draw an outline of the room on the paper. Direct Scouts to identify which lines on the map correspond to the walls of the room.
- Ask what is missing from the drawing on the paper and the room itself. Accept suggestions from the Scouts. Identify where items in the room are located, and mark their location on the drawing.
- Your drawing may have a variety of tables, chairs, lamps, and other objects represented on the drawing.
- When finished, the “map” may look similar to the example here.

Orienting a Hand-Drawn Map to North

- Use the Scout-made compass and the map drawn above to show how the north-seeking arrow matches the map.
- Rotate the map so that it is no longer oriented properly. Ask the Scouts how the compass can be used to point the map in the right direction.
- Have the boys rotate the map so that it is again oriented toward the north. Confirm when the map is properly oriented.

Model to Map

- In advance, sketch the area around your meeting place on chart paper as on the example. Draw a compass rose on the map to help the Scouts orient the map.
- Have the Scouts assist you in laying down the map so that it is oriented to the north. Use their Scout-made compasses or another compass and the labels posted in the room.
- Display some building blocks. Ask the boys to indicate where the den meets and place a block in that position. Tape the map symbol for that structure on the block.
- Do this for a variety of other structures in the area: houses, stores, railroad tracks, streams (use a piece of yarn to mark a stream on the map). When five to six different structures are marked on the map, ask the Scouts how the blocks on the table are like the space outside the meeting place.
- Provide Scouts with a sheet of graph paper and a pencil. Ask them to create a map on their sheets of paper by reproducing the map with the building blocks.
- Once they have the basic area sketched out, talk about what places and objects lie within that area. Work as a group to create a map key of five things that should be indicated on the map. Have the Scouts draw the key in the corner of their maps. They should also draw a compass rose to indicate the directions.
- Tell the Scouts to use the key to draw the symbols for each location or object at the place where it is located within the boundaries they have drawn. They may need help, so you can guide them to figure out, for instance, that the bookcase is located on the eastern wall in the right hand corner. Remind them they can use the compass rose and the direction signs to help determine the correct map location.
- After each Scout has a firm grasp of symbols and directions, have each one map his bedroom, his house, or his street. This task can be done at home and brought to the next den meeting.

MEETING 3 PLAN (Den Outing)

PREPARATION AND MATERIALS NEEDED

- Confirm that a tour and activity plan has been submitted, if required, and that transportation to and from the event is in place. Secure signed activity consent forms.
- Unit den leader should have in possession (if required by local council practices) the tour and activity plan and a copy of the *Guide to Safe Scouting*.
- Trail food from Meeting 1
- Water to fill bottles as needed
- Trail map(s)
- Creature identification information
- Thank you notes
- Cub Scout Six Essentials for each boy

GATHERING

- Conduct a gear check as Scouts arrive, fill water bottles, distribute trail food, tie shoes, etc.
- Remind Scouts of hiking rules (see Meeting 2 Resources) and that a Scout is clean: He respects the environment, and he does not put trash on the trail.
- As a group, lead Scouts as they recite the Outdoor Code and Leave No Trace Principles for Kids. Focus on ways that Scouts can demonstrate the principle of “Respect Wildlife” (requirement 5).
- Refresh animal identification information.

OPENING

Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Hike (Requirement 6)

There are a number of ways to encourage Scouts to engage with the natural world as they hike. Giving Scouts a focus can help ensure that they take in the sights, sounds, smells, and textures around them. Here are a few activities you might include as you hike:

- **I Spy:** Choose a descriptive word, and have Wolves hunt for objects in nature that fit that description. For example, say, “I spy something smooth.” Then have Scouts look around as they hike and name smooth items they see, such as a rock or a leaf. Scouts can take turns as the leader, choosing new descriptive words to search for as they walk.
- **Zoom In:** Bring a number of small, inexpensive magnifying glasses on the hike. When it’s time for a break, give Wolves the magnifying glasses and point out a few interesting objects, such as chewed-up leaves or tiny insects, for them to examine up close.
- **Slow It Down:** After you’ve had a chance to hike for a short distance, have the Scouts pause to take in their surroundings—one sense at a time. First have them look around and notice the details of what they see (e.g., the light, shapes, lines, colors). Then have them stand very silently for a short time, listening for sounds from nature. Follow that up by selecting several safe objects the Scouts can feel, such as bumpy tree bark or a cool rock. A leaf or a flower might be a good opportunity to explore the sense of smell as well. If Scouts ask about the sense of taste, remind them that it’s not safe to taste items they find in nature.

- **Tell a Story:** Have Wolf Scouts bring a small journal and a pencil (or several colored pencils) to record what they see along the trail. When the group stops to rest, have boys take the first few minutes to quietly jot down notes or draw sketches to capture interesting things they have seen. The notes or sketches will help the Scouts when it's time to record their observations in their handbooks for requirement 6.

◆ Activity 2: Trail Games and Hiking Songs

See Meeting 3 Resources.

◆ Activity 3: Creature Hunt (Requirements 6 and 7)

Scouts should find two interesting things on the trail to record in their handbooks.

CLOSING

- Guide Scouts in a reflection on ways they showed respect for wildlife (requirement 5).
- **Thank You Circle:** Everyone—Scouts and leaders—forms a circle and links hands. Go around the circle, and give everyone the opportunity to say thank you for something. (Arrange the group so that the person on your left is already prepared and will give a good answer to set the tone.) Say something like, “You’ll know it’s your turn when the person before you squeezes your hand. You can say something out loud if you like, or just think something to yourself. When you are done, you squeeze the hand of the next person, and so on, around the circle.”
- You will be last; use your turn to thank the Scouts for the great job they did on the hike, thank any leaders who helped today, and add anything else you’d like. Close with the Scout Benediction: “May the great Scoutmaster of all Scouts be with you until we meet again.”

AFTER THE MEETING

- Write thank-you notes to those who helped.
- Record completion of requirements 5, 6, and 7.

MEETING 3 RESOURCES

ACTIVITIES

Activity 2: Trail Games

If you notice young hikers start to complain about the hike or boredom sets in, try some of these games and songs to keep them moving down the trail while distracting them from thinking about the remaining distance.

- **ABC’s:** Starting at the beginning of the alphabet, identify something on the trail that begins with “A,” and work your way to “Z.”
- **The Never-Ending Story:** One person begins to tell a story and passes it along to another person to continue the plot, and so on. This can be a successful way to keep the group hiking together, laughing, and being creative.
- **Categories:** Think of a topic, such as animals, colors, cartoon characters, or U.S. states. Each hiker takes a turn identifying something in the category. This continues to rotate through the group. If a hiker cannot think of something or they repeat something that has already been said, that person is out.
- **Riddles/word games:** Brain teasers are fun and entertaining for hikers of all ages. There are several resources on the Web to find appropriate riddles. Here are just a couple of examples:
 - Q. What happens once in a minute, twice in a moment, but never in a thousand years?
A. The letter “M”
 - Q. What is round on both ends and “hi” in the middle?
A. Ohio
 - Q. What travels around the world, but stays in a corner?
A. A postage stamp

- **Minute Mysteries:** Similar to riddles, minute mysteries can keep a group entertained for quite a while on the trail. Search the Internet for minute mysteries to find numerous short mysteries to solve. Here are some brief examples:
 - Q. A man leaves home, takes three left turns, and returns home to find two people in masks waiting for him. Who are the people in masks?
 - A. It's a baseball game; the two people in masks are the catcher and umpire.
 - Q. A cowboy rides into camp on Tuesday, stays three days, and leaves on Tuesday. How is this possible?
 - A. The cowboy's horse is named Tuesday.
 - Q. A woman pushes a car up to a hotel and realizes she is bankrupt. How can this be?
 - A. The woman is playing Monopoly.

◆ Activity 2: Hiking Songs for Scouts

Along the Trail

(original author unknown; sung to "Frère Jacques")

Let's go marching, let's go marching,

Along the trail, along the trail.

I love to march fast; I love to march slow,

Along the trail, along the trail.

(For additional verses, substitute other actions for marching.)

March and Sing

(original author unknown; sung to "Here We Go Round the Mulberry Bush")

Along the trail we march and sing,

March and sing, march and sing.

Along the trail we march and sing,

Along the trail today.

(Additional verses: We huff and puff; skip and whistle; swing our arms)

I Met a Bear

(original author unknown; sung to "Skip to My Lou")

I met a bear along the trail, I met a bear along the trail,

I met a bear along the trail, I better step aside.

(Additional verses: I met a skunk; squirrel; deer; etc.)

Upon completion of the Paws on the Path adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loop, to be worn on their belt, as soon as possible according to your pack's tradition.

NOTES

RUNNING WITH THE PACK

RATIONALE FOR ADVENTURE

This adventure will promote physical fitness and good health through games and other fun activities.

TAKEAWAYS FOR CUB SCOUTS

- Activities increase our level of fitness and make us feel better about ourselves.
- Good sportsmanship is just as important as skill in sports and active games.
- Choosing nutritious foods will help you live an active life.
- A Scout is friendly. 

Wolf Handbook, page 110

ADVENTURE REQUIREMENTS

1. Play catch with someone in your den or family who is standing 10 steps away from you. Play until you can throw and catch successfully at this distance. Take a step back, and see if you can improve your throwing and catching ability.
2. Practice balancing as you walk forward, backward, and sideways.
3. Practice flexibility and balance by doing a front roll, a back roll, and a frog stand.
4. Play a sport or game with your den or family, and show good sportsmanship.
5. Do at least two of the following: frog leap, inchworm walk, kangaroo hop, or crab walk.
6. Demonstrate what it means to eat a balanced diet by helping to plan a healthy menu for a meal for your family. Make a shopping list of the food used to prepare the meal.

NOTES TO DEN LEADER

If a physician certifies that a Wolf Scout's physical condition will prevent him from completing one or more of the requirements in this adventure, for an undetermined period of time, the Cubmaster and pack committee may authorize substituting up to three requirements from elective adventures.

The Meeting 3 activity will be a game chosen by the boys. Make sure all the needed materials are there, and if the game requires special equipment or a large playing field, contact a nearby school, community college athletic department, or the local parks and recreation office for assistance.

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Two or three balls for playing catch (Gathering)—Choose a size and shape based on the den's playing area and skill level. Options could also include beanbags or stuffed animals.
- Find a 6-foot-long 2 x 4 board to serve as a balance beam.
- Items for the "Under the Broom" game:
 - One broomstick or pole
 - Enough books to build two stacks about three feet in height and level with each other. You should be able to remove a few books from the stacks for each round of the game, while still keeping the stacks at an even level.

GATHERING (REQUIREMENT 1)

- As Wolf Scouts arrive, divide them into two or three groups to play catch, counting how many throws each group can achieve without the ball being dropped.
- At first, have the boys stand 10 steps away from each other; after a few throws, they should step back to make the game a little more challenging.
- Remind them that a Scout is friendly; it is important that all the boys participate, and no one feels left out.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Have Scouts share one way to demonstrate good sportsmanship.

TALK TIME

- Introduce the Running With the Pack adventure to the den. Build interest by describing the goals of the adventure and some of the activities that are planned.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Explain that the Gathering game was not only fun to play but also a way to improve physical fitness through practice. Go over the requirements for this adventure, assuring the boys that it will be full of activity and that everyone will learn ways to keep themselves healthy and fit.

ACTIVITIES

◆ Activity 1: Balance and Flexibility Games (Requirement 2)

Divide the den into two groups. One group will practice on the balance beam—walking forward, backward, and sideways. The other group will play “Under the Broom”:

- Build two stacks of books about three feet high and at least three feet apart. Lay a broomstick or pole across them. The Scouts line up, and each boy crawls under the broomstick, then returns and goes to the end of the line. When everyone has crawled through, remove one or two books from each stack to lower the broomstick, and try again.
- After a few rounds, let the two groups switch places; both the balance beam and “Under the Broom” will help them develop flexibility.

◆ Activity 2: Planning a Nutritious Meal (Requirement 6)

- Ask Scouts to share why eating nutritious foods is important. Can they think of any nutritious foods they enjoy eating?
- Guide them to look under requirement 6 in their handbooks to learn more about some nutritious food options. Explain that they will be working with their families during the week to choose and prepare a meal. Scouts should be ready to share about their meals, including what was hard, easy, fun, or surprising, at the next meeting.

◆ Activity 3: Skin the Snake

- This team-building game begins with Scouts lined up single file. The boy at the back of the line stoops over, places his right hand between his legs, and with his left hand grasps the right hand of the player in front of him. The others do the same until everyone is connected.
- Next, the player at the end of the line lies down on his back. The Scout in front of him backs up by straddling and walking over his body; then that Scout lies down, too, placing his feet next to the other boy's shoulders.
- All the players follow this same pattern, without anyone unclasping hands. Then the last one to lie down gets up and walks forward, straddling all the other players and pulling them up, too, as he goes. This resembles a snake shedding its skin.
- Finally, if time and resources allow, have the boys play a running and jumping game (e.g., basketball or running an obstacle course).

CLOSING

Emphasize that the boys showed “A Scout is friendly” during this meeting by making sure all their friends participated and no one felt left out of the games.

Do-at-Home Project Reminder:

Tell Scouts to complete requirement 6 at home, helping to plan a healthy meal for their family based on what they have learned about eating a balanced diet. They should make a shopping list for this meal, and bring the list to the next meeting.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1 and 2.
- Work together to clean up the meeting place.

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- 1 large sheet of paper or poster board per Scout (Opening)
- Materials for the relay game (Activity 2)
 - Two balls of equal weight and size
 - 6-foot-long 2 x 4 board to serve as a balance beam
 - 1-foot-tall objects to serve as obstacles
 - Cones or markers to define start and endpoints of the race
 - Buckets
- Large poster board and markers (Talk Time)

GATHERING (REQUIREMENT 5)

- As Scouts arrive for the meeting, have the den chief, assistant den leader, or a parent show them how to do the frog leap, inchworm walk, kangaroo hop, and crab walk (see Meeting 2 Resources). Make sure each boy practices at least two of the exercises.
- Using paper or poster boards, have each boy create a sign he can hold up during the opening ceremony (see Opening).

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Simulate an international athletic event opening ceremony by having each boy carry in a sign announcing who he represents. This can indicate his country of ancestry, family name, street, or school.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Explain that the skills they practiced during the Gathering will help them play the “Running with the Pack” relay game.
- Ask Scouts to offer examples of good sportsmanship. Write their answers on a poster board. (Note: This board will be used again in Meeting 3.)
- Have each Scout who completed requirement 6 at home share the shopping list and other information about the healthy meal he planned and prepared for his family.

ACTIVITIES

◆ Activity 1: Balance and Flexibility Exercises (Requirement 3)

Have the boys practice doing front rolls, back rolls, and frog stands. (See Meeting 2 Resources.)

◆ Activity 2: “Running with the Pack” Relay Game

- Play the relay game. (See instructions in Meeting 2 Resources.)
- After the game, discuss the good sportsmanship examples the boys provided during Talk Time. Remind them that a Scout is courteous to all others, and ask if they demonstrated this quality by practicing good sportsmanship during the relay game. If they had trouble being good sports, lead a reflection about what could have gone better and why good sportsmanship is important.

CLOSING

- Say the Scout Oath together. Tell Wolf Scouts that when they did the Gathering exercises and played the relay game, they were having fun but also living out their promise to keep themselves “physically strong.” Also, when they practice good sportsmanship, they show that “a Scout is friendly” and “a Scout is courteous”—two points of the Scout Law.
- Have everyone vote on a game to play as the activity at Meeting 3. Give them three choices (e.g., basketball, badminton, ultimate, bowling, volleyball, etc.).
- If Meeting 3 will be held at a different location to play the game, make sure all arrangements and transportation plans are set.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 3, 5, and 6.
- Work together to clean up the meeting place.

MEETING 2 RESOURCES

GATHERING (REQUIREMENT 5)

Inchworm Walk

- Each boy supports his body on his hands and feet with his legs extended behind him. Keeping his hands in place, he walks on his toes with short steps until his feet are near his hands.
- Then, without moving his feet, he walks forward on his hands with short steps until his original position is attained.
- He repeats the exercise, alternately walking on his toes and hands.

ACTIVITIES

◆ Activity 1: Balance and Flexibility Exercises (Requirement 3)

Front roll

Back roll

Frog stand

The front roll, back roll, and frog stand will help Wolf Scouts in testing and improving their ability to keep their balance and be flexible. Boys may have a little difficulty with these exercises, but they should “do their best.”

◆ Activity 2: “Running with the Pack” Relay Game

- Set up the “Running with the Pack” relay course with signs to indicate what the players should do along the way. For example: Start, front roll, walk the balance beam, back roll, go under the broom, jump on both feet over a 1-foot-tall obstacle, crab walk, frog leap, and toss a ball into a bucket.
- Have the den chief or an adult leader demonstrate how to go through the course. Then divide the Scouts into two teams—lined up one boy behind the other. Each boy, in turn, follows the course to the end. After he finishes, he runs back and tags the next boy in line. When everyone on a team has completed the course, the team members shake hands and do their cheers. If time permits, have everyone try the course again to see if they can improve their time.

MEETING 3 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Equipment for the game the boys selected
- The sportsmanship poster board the den filled out at Meeting 2
- Confirm that a tour and activity plan has been submitted, if required, and that transportation to and from the event is in place. Secure signed activity consent forms.
- Unit den leader should have in possession (if required by local council practices) the tour and activity plan and a copy of the *Guide to Safe Scouting*.

GATHERING

As Scouts arrive, have them practice the skills they will use in the game.

OPENING

Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Remind them that the fun they're having in this adventure is also a great way to keep healthy and fit.
- Review the sportsmanship board the den created at Meeting 2, and make sure everyone knows the rules of the game they are about to play.

ACTIVITIES (REQUIREMENT 4)

Have the den play the selected game, using good sportsmanship.

CLOSING

Lead the den in the Blast-Off Cheer. Tell the Scouts: "Prepare to blast off. Coil your body and then count down from 10 to zero. At zero, yell, 'Blast off!' and jump as high into the air as you can. Land on your feet and yell, 'We did our best!'"

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirement 4.
- Work together to clean up the meeting place.

Upon completion of the Running With the Pack adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack's tradition.

Elective Adventures

ADVENTURES IN COINS

RATIONALE FOR ADVENTURE

Coins are more than just money. In this adventure, Wolves will learn how to spot the various markings on a coin and identify the meanings. Through games and experiments, they will learn how to determine the value of a coin.

TAKEAWAYS FOR CUB SCOUTS

- Following directions
- Practicing mathematical skills
- Learning how to estimate weight
- A Scout is trustworthy. 

ADVENTURE REQUIREMENTS

Wolf Handbook, page 124

1. Identify different parts of a coin.
2. Find the mint mark on a coin; identify what mint facility it was made in and what year it was made.
3. Play a coin game.
4. Choose a coin that interests you, and make a coin rubbing. List information next to the coin detailing the pictures on it, the year it was made, and the mint where it was made.
5. Play a game or create a game board with your den or family where you can practice adding and subtracting coins.
6. Create a balance scale.
7. Do a coin-weight investigation.

NOTES TO DEN LEADER

This adventure does not include a den outing. If desired, an outing to a bank or location featuring coins could be arranged. If an outing is added, the leader will need to make arrangements with the outing location in advance and confirm the outing plan with families, including transportation and any additional items they need to bring. Make sure a tour and activity plan has been submitted, if required, and activity consent forms are distributed, signed, and collected.

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Commemorative state quarters—several for each Scout (Gathering)
- Coins of various denominations (cents, nickels, dimes, quarters, half dollars, and dollar coins)
- Coin identification charts on poster board or in the boys' handbooks
- Visit www.usmint.gov/kids/teachers/coinCurricula/ for large pictures you can print out of individual coin types. Then cut one or more of the pictures into different parts that the boys can reassemble like a puzzle in Activity 1.
- Cut out a large cardboard circle so the boys can paste the pieces of the puzzle on both sides. When it's complete, they will have a big cardboard coin.
- Paste or glue
- Cups, bowls, or pie tins for the coin game (Requirement 3)

GATHERING

Give each Scout several commemorative state quarters representing different states. Then try to see how many matching pairs each boy can find by exchanging one for another.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Optional opening: Hold up a quarter so all the boys can see George Washington's head. Make the following points:

George Washington's writings show he was sensitive about his lack of advanced education. He compensated by being an observant student of other people's behavior. Washington's experiences on the frontier and in the army helped develop his confidence.

Young Washington read and copied important ideas from a book called The Rules of Civility. This book was a guide to young men of his time on how to be respectful of others and to be a gentleman. This combination etiquette manual and moral code taught young George how to work with others. By strictly following its advice, young Washington molded his character. The Scout Law gives us a set of values as well. In honor of President Washington, let's recite the 12 points of the Scout Law. I think that he would have found much in these ideas to use to mold his life as well.

TALK TIME

- Introduce the Adventures in Coins adventure to the den. Build interest by describing the goals of the adventure and some of the activities that are planned.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Discuss the reasons people carry money and why it is important to have not only paper money but also coins.

ACTIVITIES

◆ Activity 1: Elements of a Coin (Requirement 1)

- Hand a coin to every Scout—preferably a different denomination for each boy. Give everyone two or three minutes to examine their coins and see how many different markings they can find (edge texture, inscriptions, raised surfaces, etc.). (See Meeting 1 Resources.)
- As a group, have the boys discuss the similarities and differences in their coins. Using the charts you prepared or the boys' handbooks, help them identify the various parts of a coin.
- Then give them the cardboard circle and the different coin parts you printed out so they can put together a coin puzzle by sticking the pieces in place.

◆ Activity 2: Mint Markings (Requirement 2)

- Give each boy a coin different from one he had in Activity 1. Going around the group, have them read aloud the year on each coin and the mint mark, if there is one.
- Then talk about the different coin mints across the country that are signified by the marks (e.g., P—Philadelphia, D—Denver, S—San Francisco, W—West Point).

◆ Activity 3: Coin Game (Requirement 3)

Have the Scouts play a coin game. This may be any game of your choice that uses coins; here are a couple of options.

- **Coin Basketball.** Sit down at a table with a large coin—a quarter or half dollar. Place a cup about 2 or 3 feet in front of you. Hold the coin upright on its rim between one finger and thumb. Try tossing the coin into the cup, and maybe attempt some “bank shots”: bouncing the coin off the table so that it lands in the cup. Just like in basketball, a player scores two points every time the coin makes it into the cup.
- **Coin Kick.** Give each Scout a coin to place on the toe of his shoe. He then raises his foot and “kicks” the coin into a bowl or pie tin.

CLOSING

- Gather all the Scouts together and tell them: *A Scout is trustworthy. I am proud of the way you all acted today. I trusted you when I handed out my coins for the activities, and you showed your honesty by helping me gather up all the coins at the end. Thank you. Sometimes people do things that they shouldn't do, and it can be tempting to tell a lie to cover it up. But that is not honest. It's better to live the Scout Law and always be trustworthy. Nobody expects perfection, and we are all here to learn and grow. If we do make mistakes, we should always do our best the next time to make a better choice.*
- If time permits, discuss ideas for what type of counting game the Scouts would like to play at the next meeting or with their families. It should involve adding and subtracting coins. If they wish to create a game, assign boys to collect the needed materials.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1, 2, and 3.
- Work together to clean up the meeting place.

MEETING 1 RESOURCES

ACTIVITIES

Activity 1: Elements of a Coin (Requirement 1)

You can find information and graphics showing the elements of a coin at the following websites: coins.about.com/od/coinsglossary/ss/coinanatomy.htm and www.usmint.gov/kids/teachers/.

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Items for coin rubbing (Activity 1)
 - One coin of each denomination
 - Paper and colored pencils
- Board for creating a counting game as a den, if Scouts choose that option, OR items for the “Change Mixer” counting game (Activity 2, see Meeting 2 Resources)
- Pennies and a pie tin for the “Coin Kick” game (Gathering)

GATHERING: COIN KICK

Give each Scout a penny as he arrives, and have him place it on the toe of his shoe. Then see if he can “kick” the coin into the pie tin.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Continue the discussion on trustworthiness from the last meeting and have Scouts explore the difference between borrowing and stealing:
 - Borrowing: You have permission to use an item and you intend to return it.
 - Stealing: You do not have permission and don't plan to return the item.

ACTIVITIES

◆ Activity 1: Coin Rubbing (Requirement 4)

- Hand every Scout a sheet of paper, one coin, and one pencil—giving each boy a different coin and color.
- Each boy makes a rubbing of his coin—front and back, using the directions in the *Wolf Handbook*—and then passes the coin and pencil to someone else until everyone has made rubbings of the whole set.
- Under the rubbings, have each Scout list the markings he found: images on the coin, year, and mint mark.

◆ Activity 2: Counting Game (Requirement 5)

Have the Scouts create or play a game that will help them practice adding and subtracting coins (see Meeting 2 Resources for two suggestions). They can design a game with guidance from you or play one with established rules such as “Change Mixer.”

CLOSING

- Gather everyone in a circle, and have each Scout share his favorite activity from the meeting.
- Close with a grand howl.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 4 and 5.
- Work together to clean up the meeting place.

MEETING 2 RESOURCES

ACTIVITIES

Activity 2: Counting Game (Requirement 5)

Change Mixer

Materials: Four sheets of paper displaying the numbers 1 through 4; four sports or traffic cones labeled “pennies,” “nickels,” “dimes,” and “quarters”; coins of those denominations, one coin per Scout; music (upbeat)

Instructions:

- Give each player one coin.
- Have players begin by standing next to the cone labeled with their coin name.
- Start the music and tell players to move around the room in a particular motion (skipping, sliding, running, jogging, or jumping), but keep things slow and safe.
- Stop the music and hold up one of the numbers. Players then gather into groups of that number, and each group counts the total value of their coins.
- Have the groups share their totals. The group with the lowest sum drops out of the game, and the rounds continue until only one group remains.
- Then start the game again with players moving in a different motion.

Going to the Bank

Materials: Dice; playing pieces, one per Scout (e.g., multicolored buttons or paper clips); one circular or square board with spaces marked with “plus” or “minus” signs; index cards with instructions for “plus” spaces (e.g., “You cleaned three rooms in your house and received a quarter for each room. How much were you paid?”) or “minus” spaces (e.g., “You received a dollar for your birthday and bought 35 cents’ worth of candy at the store. How much do you have left?”)

Instructions:

- Each Scout, in turn, rolls the dice and moves that number of spaces with his playing piece.
- He lands on a space, answers the question associated with it, then receives the balance in coins from the “banker” (the den chief or an adult leader). As the game continues, boys can also exchange coins with the banker—for example, trading in two nickels for a dime.
- When the game is finished, the Scouts count their change to see who collected the largest amount. Then everyone deposits their money back into the bank.

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Materials for coin weight guessing game: small bags; a large number of coins in various denominations (Gathering)
- Materials for making balance scales: four paper cups of equal size and weight; two 10-gallon paint sticks; two binder clips; two pencils; two heavy books; string; masking tape (Activity 1)

GATHERING

Before the meeting, fill several pairs of small bags with coins that total the same amount but in different denominations. For example, put 20 dimes in one bag and put eight quarters in another bag. As each Scout arrives, give him a pair of bags and ask him to hold one in each hand and estimate which bag contains the most money. Make a note of what each boy estimates.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Review the boys' estimates in the Gathering game, and then reveal that the value was actually the same in each pair of bags, even if one bag weighed more than the other.

ACTIVITIES

◆ Activity 1: Building a Balance Scale (Requirement 6)

- Divide Wolf Scouts into two groups and have each build a balance scale from these directions:
 - Poke holes in the rims of two cups and run string through the holes so the cups can hang like buckets from opposite ends of a 10-gallon paint stick. Attach the string ends to the stick with masking tape to keep the cups from falling off when the stick tilts.
 - Attach a binder clip to the middle of the stick and dangle it from your fingers, working the clip back and forth sideways until the stick hangs level.
 - Insert a pencil through the binder clip and secure one end of the pencil to a table top by laying a heavy book on top of it.

◆ Activity 2: Weight Comparison (Requirement 7)

Now the Scouts can use their balance scales to weigh various arrangements of coins. Have them begin with one coin in each denomination. Then give them groups of coins so they can compare four nickels to the weight of two dimes, etc.

The most important relationships will come from coins made of the same substance. Five dimes, for example, will have the same weight as two quarters. Two quarters will have the same weight as a single half-dollar coin. These relationships are based on the history of these coins being made of precious materials. The five-cent coin, made of nickel, is larger than the dime because the metal it is made from is worth less than the metal used to manufacture a dime.

CLOSING

Recite the Scout Law and ask the boys which values they think were used in the den meeting.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 6 and 7.
- Work together to clean up the meeting place.

Upon completion of the Adventures in Coins adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack's tradition.

AIR OF THE WOLF

RATIONALE FOR ADVENTURE

This STEM-based adventure helps Wolves explore basic aspects of air—often an overlooked substance. Then they discover some of the many things that air can do for us.

TAKEAWAYS FOR CUB SCOUTS

- Experiments
- Easy yet fun activities
- Creativity
- A Scout is obedient. 

ADVENTURE REQUIREMENTS

Wolf Handbook, page 140

1. Do the following investigations:
 - a. Conduct an investigation about the weight of air.
 - b. Conduct an investigation about air temperature.
 - c. Conduct at least one of the following investigations to see how air affects different objects:
 - i. Make a paper airplane and fly it five times. Make a change to its shape to help it fly farther. Try it at least five times.
 - ii. Make a balloon-powered sled or a balloon-powered boat. Test your sled or boat with larger and smaller balloons.
 - iii. Bounce a basketball that doesn't have enough air in it. Then bounce it when it has the right amount of air in it. Do each 10 times. Describe how the balls bounce differently when the amount of air changes.
 - iv. Roll a tire or ball that doesn't have enough air in it, and then roll it again with the right amount of air. Describe differences in how they move.
2. Do the following:
 - a. With other members of your den, go outside and record the sounds you hear. Identify which of these sounds is the result of moving air.
 - b. Create a musical wind instrument, and play it as part of a den band.
 - c. With an adult, conduct an investigation on how speed can affect sound.
3. Do the following:
 - a. Explain the rules for safely flying kites.
 - b. Make a kite using household materials.
4. With your family, den, or pack, participate in a kite derby, space derby, or raingutter regatta. Explain how air helps the vehicle move.

NOTES TO DEN LEADER

Requirement 4 is for Wolf Scouts to participate in a kite derby, space derby, or raingutter regatta. The event can occur as part of a district event or as a smaller activity for the den and families at the end of Meeting 3. If the event will be an outing or special event at a location other than the den's regular meeting place, the leader will need to make arrangements with the outing location and obtain necessary permits far in advance and confirm plans with families, including the event rules, plans for inclement weather, transportation, and any additional items they need to bring. Make sure a tour and activity plan has been submitted, if required, and activity consent forms are distributed, signed and collected.

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Paper for making paper airplanes (Gathering)
- Items for activities:
 - Activity 1: 12-inch balloons (be sure there are no latex allergies in the group); balance beam (see Meeting 1 Resources); several paper clips or pennies
 - Activity 2: balloons; a tape measure; thread; a pan
 - Activity 3 (optional): air pump; a basketball or tire

GATHERING

- Have each Wolf Scout make a paper airplane and fly it five times, adjusting the shape afterward to make the plane go farther and then flying it again. They should aim at a trash can or another specific target.
- A helper may be needed for boys who aren't familiar with making these planes.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Optional opening: Hold a kite up as a prop.

Say: Kites will fly when four things are arranged properly: lift, drag, thrust, and weight.

As Cub Scouts, we have lots of things acting on us: our friends, our families, our values, and our interests. The values in the Scout Law serve to lift us up and encourage us to do more for ourselves and for others. Together, let's recite the 12 points of the Scout Law and remember how those values serve to lift us up in service to other people.

TALK TIME

- Introduce the Air of the Wolf adventure to the den. Build interest by describing the goals of the adventure and some of the activities that are planned.
- Ask the boys if they have ever noticed the air. Everyone has witnessed really windy days, but most have probably never thought about air as a substance. Describe how air may be used for many things:
 - Baseballs curve when the seams of the spinning ball interact with the air.
 - Air flowing over the dimples of a golf ball may determine the distance the ball travels.
 - Windmills generate electricity.
 - Mechanics often use air-powered tools.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: The Weight of Air (Requirement 1a)

Ask the boys if they think air has any weight. After a few guesses, help them conduct this investigation.

- Tie two deflated balloons to a balance beam that you have prepared (see Meeting 1 Resources), with one balloon on either end of the stick.
- Now remove one of the balloons, inflate it, and reattach it in the same spot, which will make that end of the stick heavier. Or you can start with two identically inflated balloons and then let the air out of one or pop it, which will also affect the weight.
- Share this interesting fact: The air in a balloon blown up to 10½ feet in diameter would weigh 50 pounds, about as much as one of the boys.
- If the boys seem especially interested, you may try to actually weigh the air in the inflated balloon. Put paper clips or pennies in the deflated balloon, and see how many it takes to balance the beam. Use one of these formulas to guess the weight: one standard paper clip = 1 gram; one U.S. penny = 2.5 grams. If you want to convert the total to ounces: 1 ounce = 28.35 grams, or 0.1 ounce = 2.83 grams.

◆ Activity 2: Temperature of Air (Requirement 1b)

Testing the effect of warming or cooling on air is easy.

- First, give one of the Scouts a deflated balloon (again, be aware of any latex allergies in the den). Have him tie the balloon shut and set it in a pan of very warm water. While the balloon won't inflate, it will puff up enough for the boys to see that warm air takes more space (volume) than cooler air.
- Take another balloon, inflate it halfway, and have the boys measure its circumference. Then tie a thread loosely around the balloon and set it in the same water for three to five minutes. As the balloon gets warmer, note that the thread is visibly holding to its surface. Now, measure the balloon to see how much it expanded.
- Finally, to test the effects of cooling, have the Scouts set an inflated balloon outside (in cold weather), inside a refrigerator, or in ice water.
- Would the Scouts like to know the volume of air in a balloon? To get a rough idea (though not an exact figure), inflate a balloon to a certain size and measure it; then fill another balloon with water until it reaches the same size.

◆ Activity 3 (optional): The Effect of Air (Requirement 1c)

If you have time, have the Scouts do the investigation in either 1c.iii or 1c.iv, or they can experiment further with their paper airplanes (1c.i).

CLOSING

If you have enough balloons left, finish the meeting with the thunder of bursting balloons. Tell the boys to imagine the sound of one balloon popping as being like a boy alone, with no friends. Then pop all the other balloons at once—that's the sound of Scouting!

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1a, 1b, and 1c.
- Work together to clean up the meeting place.
- Remind each Scout to bring a rinsed-out 20-ounce soft drink bottle for the next meeting's Bottle Band activity.

MEETING 1 RESOURCES

GATHERING (REQUIREMENT 1C.I)

- Books on paper airplanes may be available at your local library, and you might also look at websites like www.funpaperairplanes.com and www.10paperairplanes.com. Print out several patterns of models that vary from the traditional dart-like plane.
- Show the Scouts how cutting flaps into the back edges of the wings and folding the flaps upward—or just bending up the back edges—may keep the planes aloft a bit longer. Either way, the air moving over the back edges will tend to push the nose of the plane up.
- If they require an explanation, have them hold a fairly large piece of cardboard at an angle and move their arms forward quickly. They should be able to feel the lift.

ACTIVITIES

Activity 1: The Weight of Air (Requirement 1a)

- You can make a balance beam with a dowel or other narrow piece of wood. Use a screw to attach a cross member so that it can swing easily.
- The cross member should be balanced, but if not, use small weights to make it balance (tape, small coins, or paper clips should work). Or, it may be easier to start with a balloon attached to each end and then balance the beam.

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Items for activities:
 - Activity 1: a voice recorder or other device that Scouts can use to record sounds outdoors
 - Activity 2: cardboard tube; string
 - Activity 3: water; eight 20-ounce soft drink bottles; straws; measuring cup
 - Activity 4: sections of corrugated cardboard (1½ x 8 inches); straws
- Materials for craft stick harmonicas (see Meeting 2 Resources)
- If you have access to the Internet during the meeting, find some videos of Aeolian harps—instruments played solely by the motion of wind. The Scouts will likely be fascinated by these instruments. (Talk Time)

GATHERING

As Scouts arrive, have them create harmonicas.

OPENING

- Have Scouts hum “God Bless America” on the craft stick harmonicas they made during the Gathering.
- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Discuss how the previous week’s meeting on air serves as the basis for this week’s meeting in which the boys will explore how wind can make music.

ACTIVITIES

◆ Activity 1: Wind Sounds (Requirement 2a)

- Have the den go outside, and encourage the boys to listen closely for sounds that are associated with the wind. There may be many such noises (e.g., cans rolling on the pavement, wind whistling through the trees), but even gentle breezes will cause leaves to rustle or move wind chimes.
- While the Scouts are listening, record as many different sounds as you can, including some that aren’t related to wind (dogs barking, doors shutting, car radios playing, etc.). Then play the recording and have each boy identify a sound that resulted from wind.

◆ Activity 2: Speed and Sound Investigation (Requirement 2c)

Tell Scouts that in some countries, there is an instrument called a “bullroarer” that uses speed to create sound. This activity will use a similar concept to investigate how sound can be affected by speed.

Tie a string to a cardboard tube, ensuring that the knot is secure.

Have Scouts create a large circle with a single Scout in the center, and test the safety distance to ensure the circle is wide enough to keep the tube from hitting anyone.

When ready, have the Scout hold the string and swing the tube above his head in a circle. Have each Scout take a turn, and encourage boys to try speeding up or slowing down the tube to see how the change in speed affects the sound.

After each Scout has had a turn, have them share what they noticed.

◆ Activity 3: Bottle Band (Requirement 2b)

- Have each Scout remove the cap from his 20-ounce bottle and blow gently across the top to hear the tone the bottle makes. Then line up the bottles on a flat surface.
- Leave one bottle empty, but pour the following amounts of water into the other seven bottles: 1 $\frac{1}{8}$ cups, 2 cups, 2 $\frac{3}{8}$ cups, 3 cups, 3 $\frac{3}{8}$ cups, 4 cups, and 4 $\frac{3}{8}$ cups. Now have the boys experiment, blowing gently across the open tops and listening for variations in tone. The water amounts given should produce a fairly accurate musical scale, and with some practice, the “bottle band” might play a tune!
- You will find that the more water a bottle contains, the higher its tone will be. The tone can be altered by inserting a straw in the bottle, placing a finger over the end of the straw, or pouring out some water.

◆ Activity 4: Soda Straw Pipe Organ (optional)

Here’s another way to create a musical wind instrument, if the den has time:

- Cut the eight straws down to the following lengths in inches: 4 $\frac{1}{4}$, 4 $\frac{1}{2}$, 5 $\frac{1}{4}$, 6, 6 $\frac{3}{4}$, 7, 7 $\frac{3}{4}$, and 8 $\frac{1}{2}$.
- Starting about 1 $\frac{1}{2}$ inches from one end of the cardboard, push the straws between the corrugations and leave four empty corrugations between each straw.
- Flatten the top ends of the straws and cut off the corners. Blow into the instrument with your lips lightly around the straws—like a harmonica. Listen to the unique sounds that come out as you continue blowing and sliding the instrument across your lips.

CLOSING

- Tie the musical activities at this meeting to relevant points of the Scout Law. For example, the Wolf Scouts helped each other make the Bottle Band, and creating music probably made them feel cheerful.
- Review details for the upcoming outing in Meeting 3 if the kite derby will be held at a location and/or time different from the den meeting. Make sure all Scouts and their families know the plans.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 2a, 2b, and 2c.
- Work together to clean up the meeting place.
- Remind each Scout to bring materials for making a kite at the next meeting.

MEETING 2 RESOURCES

GATHERING

Wooden Harmonicas

Use the instructions for requirement 2b in the *Wolf Handbook* to create harmonicas using craft sticks.

Materials:

- Two tongue depressors or wide craft sticks
- Scissors
- Paper
- Clear tape
- Three rubber bands (one wide, two skinny)

1. Cut two strips of paper the same size as a tongue depressor.
2. Place one tongue depressor on top of the other. Wrap one paper strip around each end of the tongue depressors. Wrap tape around each loop without touching the tongue depressors.
3. Slide off one tongue depressor. Stretch the wide rubber band around the length of the tongue depressor and paper loops.
4. Place the second tongue depressor back on top. Wrap one skinny rubber band around each end outside of each paper loop.

MEETING 3 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Materials for making kites (paper, sticks, string, glue, scissors, markers) and kite reels (wood blocks, dowels, glue, and a drill if the wood is not predrilled). It may be a good idea to have a parent or other adult present to help each Scout.
- If the den will hold a kite derby as part of this meeting, be sure that the meeting location allows a safe outdoor space for flying the kites.
- Confirm that a tour and activity plan has been submitted, if required, and that transportation to and from the event is in place. Secure signed activity consent forms.
- Unit den leader should have in possession (if required by local council practices) the tour and activity plan and a copy of the *Guide to Safe Scouting*.
- Prepare simple enough ribbons or awards for each Scout to be presented with a special award at the end of the kite derby. Awards could include: Most Colorful, Highest Flying, Fastest, etc.

GATHERING

As Scouts arrive, have them decorate the paper they will use to create their kites.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- During the ceremony, you could tie the waving of the flag into the previous week's discoveries about wind.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Review the information on kite safety (requirement 3a) and the science of air (requirement 4) in the *Wolf Handbook*.

ACTIVITIES

◆ Activity 1: Making a Kite (Requirement 3b)

- Have each boy design and build his kite and assemble a kite reel. Use the directions in the *Wolf Handbook* for a newspaper kite (see the Meeting 3 Resources), or choose other design options for the den.
- If limited space is an issue, try making finger kites, which are not more than 8 to 10 inches long and can be flown by simply running.

◆ Activity 2: Kite Derby (Requirement 4)

- Have the Wolf Scouts take their new kites outdoors to hold a small-scale kite derby. As an alternative, this can be planned as a separate activity with the pack or as part of a district event.
- Allow time for Wolves and adults who are able to help to try launching and flying their kites.

CLOSING

Close the meeting with appropriate remarks about kites flying high and a comparison to Scouts "flying high" by doing their best and "soaring" to their rank advancement.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 3a, 3b, and 4.
- Work together to clean up the meeting place.

MEETING 3 RESOURCES

Activity 1: Making a Kite

Use the instructions for requirement 3b in the *Wolf Handbook* if your den will create newspaper kites.

Materials:

- Two-page spread of newspaper
- Scissors
- Cellophane tape
- String
- Long sticks, bamboo plant rods, or ¼-inch wooden dowels
- Marker

Upon completion of the Air of the Wolf adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack's tradition.

CODE OF THE WOLF

RATIONALE FOR ADVENTURE

This STEM-based adventure engages Wolves in fun math-related activities that range from counting and simple arithmetic to geometric shapes and code.

TAKEAWAYS FOR CUB SCOUTS

- Realization that math is all around us
- Starting to see math as a fun tool
- Creativity and deductive reasoning
- A Scout is cheerful, thrifty. 

ADVENTURE REQUIREMENTS

Wolf Handbook, page 158

1. Do two of the following:
 - a. With the members of your den or family, make a game with simple materials that requires math to keep score.
 - b. Play a game of “Go Fish for 10s.”
 - c. Do five activities at home, at school, or in your den that use mathematics, and then explain to your den how you used everyday math.
 - d. Make a rekenrek with two rows, and show Akela how you would represent the numbers 4, 6, 9, and 14.
 - e. Make a rain gauge or some other measuring device, and use it.
2. Do one of the following:
 - a. With other members of your den or family, identify three different types of shapes that you see in nature.
 - b. With other members of your den or family, identify two shapes you can see in the construction of bridges.
 - c. Select a single shape or figure. Observe the world around you for at least a week, and write down where you see this shape or figure and how it is used.
3. Do one of the following:
 - a. With your den, find something that comes with many small, colored items in one package. Count the number of items of each color in your package. Keep track of each color. Then:
 - i. Draw a graph showing the number of items of each color.
 - ii. Determine what the most common color is.
 - iii. Compare your results to the other boys’.
 - iv. Predict how many items of each color you will find in one more package.
 - v. Decide if your prediction was close.
 - b. With your den or family, measure the height of everyone in the group and see who takes more steps to walk 100 feet.
 - c. Have each member in your den shoot a basketball. Count the number of shots it takes to make five baskets. Graph the number of shots it takes for each boy using 5, 6–10, 11–15, 16–20, or more than 20.

4. Do one of the following:
 - a. Use a secret code using numbers to send a message to one of your den members or your den leader. Have that person send a message back to you. Be sure you both use the same code numbers.
 - b. Send a message to another member of your den or your den leader using the pig pen code or another code that changes letters into special shapes.
 - c. Practice using a block cipher to decode a message.

NOTES TO DEN LEADER

This adventure does not include plans for a den outing. If a den outing is desired, the leader may plan to hold one of the meetings at a location where Wolf Scouts could learn about geometry and bridges as part of fulfilling requirement 2. All event coordination, activity consent forms, and necessary tour and activity plans would need to be in place in advance, depending on the location selected.

See the options in the *Wolf Handbook* for requirement 1. Adjust meeting plans as needed if your den chooses different options to complete the requirement.

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- For Gathering—materials for “Bull’s Eye” (see Meeting 1 Resources)
- Materials for making a rain gauge or other measuring device (Activity 1, requirement 1e)
- Cards for playing “Go Fish for 10’s” or materials for making a game that requires math to keep score (Activity 2, requirements 1a and 1b)

GATHERING

Have the Scouts take turns at playing “Bull’s Eye” while waiting for everyone to arrive. An adult or the den chief should keep track as each boy tries to reach a score of 25.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Optional opening: Lead the den in singing “Boom Chicka Boom” (see Meeting 1 Resources).

TALK TIME

- Introduce the Code of the Wolf adventure to the den. Build interest by describing the goals of the adventure and some of the activities that are planned.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Rain Gauge (Requirement 1e)

Have each Scout build a rain gauge, using the instructions in the *Wolf Handbook*. (Note: If Scouts prefer to make something else, the *Cub Scout Leader How-To Book* offers instructions for a liquid barometer and a wind gauge, also known as an anemometer.)

◆ Activity 2: Adding Game (Requirement 1a or 1b)

Scouts may play “Go Fish for 10’s” as a second activity (see the *Wolf Handbook* for rules), or they could create a game of their own that requires math to keep score. The *Wolf Handbook* provides some suggestions, and here is one more:

Life-size board game. Use two boxes to create a large pair of dice. Then map out a gameboard on the floor, using construction paper for the spaces. Have each Scout take a turn rolling the dice and adding the numbers to see how many spaces he should move. Create simple instructions to appear on certain spaces on the board, such as “Skip two spaces,” “Trade with someone in a blue shirt,” “Lose a turn,” “Move back five spaces,” etc. The game doesn’t need to be elaborate.

CLOSING

Here’s a chance to note that the Scout Law has 12 points. Recite the words together; then have each boy say what one of the points means to him.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1a or 1b and 1e.
- Work together to clean up the meeting place.

MEETING 1 RESOURCES

GATHERING: BULL’S-EYE

The objective in this game is to reach a score of 25 by tossing small objects onto paper plates marked with different numbers.

Materials: Small objects to use as counters (e.g., pennies, beans); six paper plates (two sets of three) with the numbers 1, 5, and 10 marked on them

Instructions: Establish two throwing lines, and set three paper plates in straight succession at varying distances from the line. As each boy arrives for the meeting, give him 10 of the counters so he can attempt a score of 25—scoring one point if he hits the nearest plate, five points if he hits the next one, and 10 points if he reaches the farthest plate.

OPENING: “BOOM CHICKA BOOM”

The leader slaps his legs and snaps his fingers as lines are added one at a time. He chants the lyrics as the group repeats each line.

I said boom!
I said boom chicka-boom!
I said booma-chicka-rocka!
I said booma-chicka-rocka-chicka-rocka-chicka-boom!
Uh huh!
Oh yeah!
One more time. ...
This time higher. ...

(Repeat the above verses in different ways—in a lower voice, faster, slower, etc. Make up any variations that you think the Scouts will enjoy.)

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Materials for invisible ink investigations (Gathering)
 - White paper
 - Hair dryer
 - Baking soda
 - Cotton swabs, toothpicks, or paintbrushes
 - White crayons
 - Lemon juice
 - Watercolors
- Materials for graphing (Activity 1)
 - Graph paper for each Scout or a large sheet of poster board
 - Two packages of the same multicolored object (paper clips, marbles, colored candies, etc.)
- Paper for writing secret codes (Activity 2), and more materials if the den will be making code sticks:
 - Scissors
 - Tape
 - Unsharpened pencils (one per Scout) to wrap the paper around
 - Pens or pencils to write the code letters

GATHERING

Set the materials for the invisible ink investigations on a table and have each Scout participate when he arrives for the meeting.

- Mix baking soda with water. Then dip a cotton swab, toothpick, or paintbrush into the mixture and use it to write a message on plain white paper. Heat the message by blowing the hair dryer over it, and watch the message turn a brownish color.
- Now clean off the writing instrument, dip it into lemon juice, and perform the same experiment.
- Write another message on white paper with a white crayon. Then brush a watercolor over the message; the crayon will resist the watercolor and stay white.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Lead the Scouts in the Centipede Yell: “Ninety-nine THUMP! Ninety-nine THUMP! Ninety-nine THUMP! This wooden leg is murder!” Then add some variations for the last line, like “My feet are killing me!” and “My shoe bill is outrageous!”

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Graphing (Requirement 3a)

Graphing is an important skill because it teaches observation and deductive reasoning. The Scouts may do this activity in teams or individually, using the instructions in the *Wolf Handbook*. Including an edible treat works well because you can use things like trail mix or mixed candy to graph, and then let the Scouts eat the “materials” after they finish the activity. (If you do use food, check in advance to see if there are any allergies in the group.)

Ideally, each small package of whatever item you use will contain 20 to 30 pieces (or more), enough to give you a reasonable sampling of the item. Graph paper may be helpful in drawing charts, but it is not necessary. If you prefer to build a single chart using poster board, you could draw the graph using 1- or ½-inch scales for each item.

◆ Activity 2: Secret Codes (Requirement 4)

Have the boys do at least one of the activities for this requirement in the *Wolf Handbook*: Exchange messages via code numbers or shape codes, or create and use a code stick.

CLOSING

Lead the America Cheer. Call out, “Give me an ‘A,’ give me an ‘M,’ give me an ‘E,’” etc., until “AMERICA” is spelled out. Then shout, “What’s that spell?” Scouts respond, “America—land that I love!”

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 3 and 4.
- Work together to clean up the meeting place.

MEETING 3 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Materials for the “Bounce ‘n’ Catch” game (Gathering): eight plastic cups; basket of pingpong balls; table
- Books or magazines to identify shapes in nature (for Activity 1 if the weather does not permit doing this outside)
- Materials for making tangram puzzles: pencils, rulers, scissors, envelopes, and one cardboard square per Scout

GATHERING

Place the basket of pingpong balls on the table before the meeting. When each Scout arrives, have him take a turn at the game. He starts by holding a plastic cup in one hand and bouncing a pingpong ball off the floor and into the cup. He then stacks a new cup on top of the ball in the first cup, and bounces another ball into the empty cup. Play continues until all eight cups contain one ball and are stacked on top of each other.

OPENING

- Have the boys form a circle and pass the Cub Scout handshake from one to another until it reaches the boy who started it. Then, on the count of three, they all give a wolf howl.
- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Review the information on shapes used in the construction of bridges in the *Wolf Handbook* (requirement 2b).

ACTIVITIES

◆ Activity 1: Shapes in Nature (Requirement 2a)

- Have the Scouts take a walk outside, stopping to note the shapes of leaves, flowers, trees, rocks, clouds, and blades of grass.
- If weather conditions make this impossible, browse through the books and magazines so the Scouts can identify three different types of shapes found in nature.

◆ Activity 2: Making a Tangram

The tangram, a puzzle that originated in ancient China, is a square made of seven flat shapes that can be put together to form other shapes. For this activity, have each Scout use a pencil and ruler to mark off the seven shapes on one square of cardboard. Then Scouts will cut the shapes from the cardboard and use the pieces to make silhouettes of animals, people, geometric figures, or anything else they choose. The pieces can be stored in the envelopes for the boys to take home after the meeting.

CLOSING

Gather the den in a circle and sing "I've Got That Cub Scout Spirit" (Tune: "I've Got That Joy, Joy, Joy, Joy")

*I've got that Cub Scout spirit up in my head,
Up in my head, up in my head.
I've got that Cub Scout spirit up in my head,
Up in my head, to stay.*

(Sing three more verses, replacing "up in my head" with different words each time:
"deep in my heart," "down in my feet," "all over me.")

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirement 2.
- Work together to clean up the meeting place.

Upon completion of the Code of the Wolf adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack's tradition.

NOTES

COLLECTIONS AND HOBBIES

RATIONALE FOR ADVENTURE

Everywhere we look, we see collections. A collection of plants is a garden; a collection of cows is a herd. And any group of objects that are similar and special to you counts as a collection, too. That collection tells others what you find interesting, and as you expand the collection, you gain new skills and understanding.

TAKEAWAYS FOR CUB SCOUTS

- Enthusiasm for starting a collection
- Cooperation and showing respect for others
- Completing a task
- Listening skills
- A Scout is courteous. 

Wolf Handbook, page 178

ADVENTURE REQUIREMENTS

1. Begin a collection of at least 10 items that all have something in common. Label the items and title your collection.
2. Share your collection at a den meeting.
3. Visit a show or museum that displays different collections or models.
4. Create an autograph book, and get at least 10 autographs. Start with members of your den.
5. Pick a famous living person, and write him or her a letter. In your letter, ask the person to send you an autographed photo.
6. Play a game with your den that involves collecting.

NOTES TO DEN LEADER

Meeting 3 will be a den outing to a show or museum that displays different collections or models (requirement 3). You will need to schedule the outing in advance. Submit a tour and activity plan, if required, and work with families to plan transportation to and from the location. Make sure activity consent forms are distributed and signed.

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Materials for “Tape Web” (Gathering): painter’s tape; pom-poms
- Materials for “Autograph Books” (Activity 2): white paper; construction paper or card stock for covers; colored pencils; stapler or brads
- Materials for “Clothes Pin Collection Tag” (Activity 3): clothes pins marked with a different color for each Scout (number of pins can vary, but the minimum is six.)
- Samples of collections
- Activity consent forms for den outing

GATHERING: TAPE WEB (REQUIREMENT 6)

- Create a web that crisscrosses an open space or hallway, using painter's tape (the only type that will not stick to walls or lift paint). Make sure that there are large enough openings for Scouts to crawl through or step over.
- Attach colored pom-poms to the sticky side of the tape.
- As everyone arrives for the meeting, assign a pom-pom color to each boy and have them work their way through the web, collecting their color as they go. Warn them to be careful and not get caught in the web!
- If part of the web comes down during the activity, simply put it back up.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Briefly explain to the den that the Scout Law is a collection of values by which we live.

TALK TIME

- Introduce the Collections and Hobbies adventure to the den. Build interest and excitement by describing the goals of the adventure and some of the fun activities that are planned.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Planning a Collection

- Share with Scouts the sample collections you brought to the meeting.
- Have them share about collections that they own or want to start. These could include—but are not limited to—types of toys, models, rocks, or drawings. Each Scout should bring a small collection from home to share at the next meeting (requirement 2).
- Demonstrate ways that different types of collections may be displayed.

◆ Activity 2: Autograph Books (Requirement 4)

- Have Scouts assemble and decorate their autograph books. They can get their first signatures from fellow den members. Then have them brainstorm on ways each boy can gather other signatures.
- Assembling the books may be a simple project, or you can make it elaborate, depending on the supplies you have available. To make the simplest type:
 - Fold a sheet of card stock or construction paper in half to make a cover.
 - Fold sheets of construction or printer paper in half and fit them inside the cover.
 - To bind the book, staple the sheets along the fold, or punch holes and use brads to fasten the sheets together.

◆ Activity 3: Clothes Pin Collection Tag (Requirement 6)

- See the suggestions for this activity in the *Wolf Handbook*.
- If weather conditions prevent playing this game outside, consider having the boys use animal movements, such as duck waddles or crab walks, to chase one another.

CLOSING: DEN LEADER MOMENT

Say: “Collections are a wonderful way to look at the world around you. When collecting from nature, remember that it is always best to leave the beauty you find for others to see—especially plants and flowers—but you can draw them or take a picture. I am really looking forward to seeing the collections that you bring and learning more about the things that interest you.”

Do-at-Home Project Reminder:

Remind Wolves to begin a collection at home of at least 10 items (requirement 1). They will bring this collection, or another one, to share at the next meeting (requirement 2). They should be prepared to answer these questions: Why did you choose those items to collect? Where did you find the items? How will you add to your collection?

Also for the next meeting, each boy should think about which famous person he wants to write to and find the mailing address online—with permission and assistance from his parent or guardian (requirement 5).

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 4 and 6.
- Work together to clean up the meeting place.
- Prepare thank-you notes for the Wolves to sign at the next meeting.

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Materials for “Scout Law Scavenger Hunt” (Gathering): all 12 points of the Scout Law, written individually on slips of paper and hidden around the room; tape; a poster board with the words “A Scout is” written at the top
- Paper, pens, envelopes, and stamps for writing and sending a letter (Activity 2)
- Materials for “Sensory Scavenger Hunt” (Activity 3): a variety of objects chosen for a distinctive texture and shape; a list of all the objects (one copy per Scout); pencils; and paper bags. Hide each object—wrapped in a closed paper bag—outside or in a different room from the one where the Scout Law Scavenger Hunt will be played.

GATHERING

- Hide the Scout Law words around the room, and as each Wolf arrives for the meeting, have him find two of them—but he must not tell anyone the words he found.
- When all 12 words have been found, bring everyone together and have the boys tape their words on the poster board in the correct order of the Scout Law: A Scout is trustworthy, loyal, helpful, friendly, courteous, kind, obedient, cheerful, thrifty, brave, clean, and reverent.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.

- Lead the Scouts in singing “Trusty Tommy” (tune: “Yankee Doodle”)

*TRUSTY Tommy was a Scout,
 LOYAL to his pack,
 HELPFUL to the folks about,
 and FRIENDLY to his brother.
 COURTEOUS to the girls he knew,
 KIND to his rabbit.
 OBEDIENT to his family, too,
 and CHEERFUL in his habits.
 THRIFTY saving for a need,
 BRAVE, but not a faker.
 CLEAN in thought and word and deed,
 and REVERENT to his Maker.*

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Assign buddies for the den outing.

ACTIVITIES

◆ Activity 1: Personal Collections (Requirements 1 and 2)

Have each Scout share the collection he brought and have him tell why he chose to collect those items, where he found them, and how he plans to add to the collection.

◆ Activity 2: Writing to a Famous Person (Requirement 5)

- Hand out paper and pens for the Scouts to write their letters.
- Provide a sample letter, using the example in the Meeting 2 Resources or one you prepared yourself.
- Be sure an adult leader and the den chief are available during this activity to help the boys if they have any trouble composing their letters.
- If you have Internet access and any boy hasn’t found the address to send his letter, see if you can help him locate it.

◆ Activity 3: Sensory Scavenger Hunt

- Give each Scout a copy of the list and a pencil. When he locates one of the bags, he should close his eyes, reach inside to feel around, and put a check mark on his list beside the object he thinks he has found.
- When everyone has finished their search, display the contents of each bag so they can see if their guesses were correct.

CLOSING

- Make sure each Scout knows who his buddy will be during the den outing.
- Confirm plans for the following meeting’s den outing to a show or museum where collections are displayed. Make sure all transportation needs are covered.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1, 2, and 5.
- Work together to clean up the meeting place.
- Have Scouts sign thank-you notes for anyone who helps with the outing.

MEETING 2 RESOURCES

Dear Mr. President:

My name is Kenny Farrell. I am a Cub Scout in Den 8 from Pack 24 in Council Bluffs, Iowa. I am earning my Collections and Hobbies award. One of the requirements is to ask a famous person for their autograph. I hope you are willing to share one with me.

I think it would be exciting to be president. Besides Cub Scouts, I like to play baseball and video games. I like to build things in video games. What do your children like to do?

I have enclosed an envelope and postage to make it easy to send the autograph. Thank you for your time and help.

Sincerely,

Kenny

MEETING 3 PLAN (DEN OUTING)

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Confirm that a tour and activity plan has been submitted, if required, and that transportation to and from the event is in place. Secure activity consent forms.
- Unit den leader should have in possession (if required by local council practices) the tour and activity plan and a copy of the *Guide to Safe Scouting*.

GATHERING

- Play a game of "I Spy" while waiting for everyone to arrive.
- Remind the boys that it is important to stay together, be on their best behavior, and use the buddy system. Have Wolves share things they would like to learn during the visit.
- Review any questions the Scouts want to ask to make certain all are appropriate.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Recite the Scout Law and ask Scouts to name points of the law they will demonstrate during the outing.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Visit to Show or Museum (Requirement 3)

- Visit the facility as a group, and take a guided tour if possible.
- Engage Scouts by having them identify different types of collections.
- Have Scouts ask the questions they have prepared.
- When the tour ends, have the Wolves give their thank-you cards to anyone who helped, including tour guides. Then offer a relay clap for the guides: The first boy claps the second boy's hand, and the clap is then relayed through the group.

CLOSING

- Have the den members form a friendship circle: All arms are crossed with each person extending their right arm over their left and grasping the left hand of the person beside them. Everyone makes a silent wish and gently passes a friendship squeeze from hand to hand.
- Ask each Wolf to describe his favorite exhibit and why he thought it was best.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirement 2.
- Work together to clean up the meeting place.

Upon completion of the Collections and Hobbies adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack's tradition.

CUBS WHO CARE

RATIONALE FOR ADVENTURE

This adventure is intended to help Wolf Scouts learn about physical disabilities, which are more easily understood at their age than learning and intellectual disabilities.

TAKEAWAYS FOR CUB SCOUTS

- Empathy
- Awareness of disabilities
- A Scout is kind, helpful, friendly, cheerful. 

Wolf Handbook, page 190

ADVENTURE REQUIREMENTS

1. With the members of your den, visit with a person who has a physical disability.
2. Do four of the following:
 - a. With other members of your den, try using a wheelchair or crutches, and reflect on the process.
 - b. Learn about a sport that has been adapted so that people in wheelchairs or with some other physical disability can play, and tell your den about it.
 - c. Learn about “invisible” disabilities. Take part in an activity that helps develop an understanding of invisible disabilities.
 - d. With your den, try doing three of the following things while wearing gloves or mittens:
 - i. Tying your shoes
 - ii. Using a fork to pick up food
 - iii. Playing a card game
 - iv. Playing a video game
 - v. Playing checkers or another board game
 - vi. Blowing bubbles
 - e. Paint a picture two different ways: Paint it once the way you usually would paint it and then again by using a blindfold. Discuss with your den the ways the process was different.
 - f. Demonstrate a simple sentence or at least four points of the Scout Law using American Sign Language.
 - g. Learn about someone famous who has or had a disability, and share that person’s story with your den.
 - h. Attend an event where people with disabilities are participants or where accommodations for people with disabilities are made a part of the event.

NOTES TO DEN LEADER

Meeting 1 includes several options for activities that can be used to complete requirement 2d. Prepare materials according to the needs of the requirement option your den selects. Requirement 2d.iv can be completed at home with the permission of a Scout’s parent or guardian.

For Meeting 2, invite a guest speaker who lives with a disability and is open to sharing his or her experience with the den (requirement 1). If you need help finding someone, check with local schools or the local chapter of a group like Special Olympics or Easter Seals. Service clubs, such as the Knights of Columbus, Kiwanis, or Lions, may also have contacts. Help the Scouts prepare some questions during Meeting 1, and remind them to be courteous and respectful.

Check with your local council to see if they have access to a wheelchair, crutches, or other resources that could be borrowed for completion of requirement 2a in Meeting 2.

This adventure does not include plans for a den outing to fulfill requirement 2h. If that requirement is selected, leaders should make arrangements with the outing location, provide families with planning information, and submit all required paperwork in advance.

Scouts might choose to complete requirements 2b, 2g, or 2h independently at home. Encourage Scouts who do so to share what they learned and how the activity helped them increase their awareness of certain disabilities or people who live with them.

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Photos or illustrations of the words “loyal” and “friendly” being spoken in American Sign Language (ASL) (Gathering)
- Gloves or mittens for each Scout. Gardening gloves, dishwashing gloves, and medical examination gloves would work well—but make sure there are no latex allergies in the group if you plan on using the latter two.
- Checkers and a playing board for each pair of Scouts (If possible, set out the boards and checkers before the meeting begins, to save time.)
- Plastic forks (one per Scout)
- Dried beans (10 per Scout)
- Paper plates (two per Scout)
- Materials for playing “Go Fish”

GATHERING: AMERICAN SIGN LANGUAGE (REQUIREMENT 2F)

- Use the photos or illustrations to teach the Scouts how to say “loyal” and “friendly” in American Sign Language. Have them practice until everyone has arrived for the meeting.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance as well as the Scout Oath and Scout Law.
- Have the boys sign “loyal” and “friendly” when they get to those words in the Scout Law. (Note: This fulfills half of requirement 2f; the other half will be done at Meeting 3, when the Scouts learn “cheerful” and “clean” in ASL.)

TALK TIME

- Introduce the Cubs Who Care adventure to the den. Build interest by describing the goals of the adventure and some of the activities that are planned.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Explain that for people with certain disabilities it is difficult to do things without full use of their hands and fingers. At this meeting, Wolves will do three activities while wearing gloves, to give them an idea of the challenges that many people face and overcome.

- Tell the Scouts about the guest speaker who will join them for the next meeting. Make sure they know what behavior will be expected of them, and help them to plan some questions. Later, when they thank their guest for coming, they should mention things they appreciated learning from him or her.

ACTIVITIES

◆ Activity 1: Checkers (Requirement 2d.v)

- Divide the Scouts into pairs. Have them put on their gloves or mittens and then play a game of checkers.
- If anyone in the den isn't familiar with the game, review the rules in Meeting 1 Resources before they start. Let the boys know that after 10 minutes, they will put away the checkers and play another day.
- When time is up, ask the Wolves if they found it difficult to play with gloves on. Could they adjust if they had to wear gloves every time they played the game? Help them see how this relates to the challenges faced by people with disabilities affecting motor skills.

◆ Activity 2: Shoe Tying Relay (Requirement 2d.i)

- See Meeting 1 Resource for instructions. The Scouts will play this relay with a twist: They must wear the gloves when they tie and untie their shoes.
- Again, discuss with them how this challenge is similar to dealing with some disabilities. Ask which point of the Scout Law would be a good one to remember when they encounter people who have a disability that makes it difficult for them to use their hands and fingers.

◆ Activity 3: Fork Lift (Requirement 2d.ii)

- While they are still wearing the gloves, have the Scouts race to see who can transfer 10 beans the fastest from one paper plate to another—using a single fork.
- Talk about why we need to have patience and show courtesy and respect to individuals who have difficulty with tasks due to a disability.

◆ Activity 4: Go Fish (Requirement 2d.iii)

- Have Scouts put on their gloves or mittens and then play a game of Go Fish.
- If anyone in the den isn't familiar with the game, review the rules in Meeting 1 Resources before they start.
- After the game is finished, ask the boys how it felt to play cards while wearing the gloves. How does this help them relate to people with disabilities that affect their hands or fingers?

CLOSING

Gather for a Living Circle. All members of the den form a close circle, and everybody turns to the right while stretching their left hands into the center with palms facing downward. Each person grasps the left thumb of the person behind him, making a complete circle with the group. Then they hold their right hands straight up in the Cub Scout sign. Pumping their left hands, they say in unison the Cub Scout motto and then give a howl. (See page A-22 in the Appendix.)

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 2d.i, 2d.ii, 2d.iii, and or 2d.v.
- Work together to clean up the meeting place.
- Prepare thank-you notes for the Wolves to sign at the next meeting.

MEETING 1 RESOURCES

SCOUT LAW IN AMERICAN SIGN LANGUAGE

Scout

Law

Scout

(is)

(close hands)

(drop hands)

Trustworthy

A

Loyal

Brave

Clean

Reverent

NOTE: Some English words are not signed or do not have a one-to-one translation in American Sign Language. American Sign Language is a conceptual language, which means that not every word of spoken English is signed. Some words are also signed in a different order.

ACTIVITIES

Activity 1: Checkers

If anyone in the den isn't familiar with the game, here are the basic instructions.

- The player with the darker color pieces traditionally moves first, and then the players take turns moving a piece. Pieces are always moved diagonally; this can be done in two ways: forward (toward your opponent) to the next dark square, or by jumping one of your opponent's pieces, if it is next to your piece and there is an empty space on the other side. This removes your opponent's piece. Remember that you can do multiple jumps at once if you are moving in a straight diagonal line. If a jump is possible, you must take it.
- The row closest to the player on both sides of the board is called the king row. If you succeed in moving a piece across the board all the way to the opponent's king row, that piece becomes a king. Stack one of the pieces you have lost on to that piece, so it can now be distinguished as a king. Once a piece is "crowned" in this way, you must wait until another turn to move it out of the king row. King pieces can move either forward or backward.
- The game is over when an opponent runs out of pieces or still has pieces but can't move them. If neither player can move, the game ends in a tie.

Activity 2: Shoe Tying Relay

Again, Scouts must do this relay with their gloves on.

- Mark a start line and a line for stopping and tying shoes. This can be done before the meeting to save time.
- Divide the den into two teams. Each Scout on a team runs to the stop line, bends down to untie and retie one of his shoes, then runs back to the start line and tags the next Scout, who repeats the process. This continues until the whole team has completed the course.
- If you have a small den (three or four members), have them play as a single team and time the relay through several runs to see if their speed improves.

Activity 4: Go Fish

If anyone in the den isn't familiar with the game, here are the basic instructions.

- Deal five cards to each Scout. Set the remainder of the deck in the center of the circle.
- The denner goes first and asks a specific player for cards of a specific type. (The denner must already have one of those cards in his hand.) Example: "Ben, please give me your threes." Ben must hand over all the cards he has of that rank. If he doesn't have any, he says, "Go fish."
- The denner then draws one card from the deck. If the card is what he asked for, he gets to go again. If not, the Scout to the denner's right takes his turn.
- When a Scout collects four cards of the same rank, he has a "book." The Scout with the most books at the end of the game wins.

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- One plastic cup for each Scout
- Sandpaper with three different levels of grit, ranging from very fine to very coarse. Cut the sandpaper into small squares so each Wolf will get a sample of each type.
- 6-10 clear glasses of water and colored drink mix
- Cotton balls (one for each pair of Scouts)
- Balloons—minimum of four (Make sure there are no latex allergies in the den.)
- Invite and confirm a guest speaker who lives with a disability and is open to sharing his experience with the den.

GATHERING: COTTON BALL TOSS

As Scouts arrive, pair them into teams. The boys pass a cotton ball back and forth between them, using only a plastic cup in their nondominant hands to both catch and toss. Have them start playing about 12 inches apart and increase their distance 1 foot at a time as their skills improve.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and the Cub Scout motto: Do Your Best.

TALK TIME (REQUIREMENT 1)

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Introduce the guest speaker, and ask him or her to talk about the nature of the disability they live with, when it began, and how long they have had it. Listen with the Scouts as the speaker talks about daily life and how he or she performs the same tasks as other people—just using different tools or routines.
- When the speaker is finished, give the Scouts time to ask their questions. The boys may have many questions, but if it doesn't come up, ask the guest to tell about things people do that are helpful to him or her as well as actions that are actually more of a hindrance. Present the thank-you notes to the speaker.

ACTIVITIES

◆ Activity 1: Invisible Disabilities Stations (Requirement 2c)

- Introduce the idea of invisible disabilities to Scouts, noting that many people have disabilities that others can't see. ADHD and autism spectrum disorders are two examples of invisible disabilities that can cause people to think or feel things differently. Remind Scouts that people with invisible disabilities have many positive attributes and abilities and that getting to know people as individuals is the only true way to get to know them.
- Ask if anyone knows what the word "spectrum" means, and explain that a spectrum is a wide range. In the case of invisible disabilities, no two people will be impacted in exactly the same way. There is a wide spectrum, and each person fits in a different place on that spectrum.
- There are a number of activities you can do with Scouts to build awareness of invisible disabilities and the concept of a spectrum. The following activities were adapted from the Eagle project of Justin Krejcha for The Autism Empowerment Great Quest for Autism Acceptance.

— Autism Is a Spectrum:

1. Set up 6-10 glasses of water in a line.
2. Begin to add powdered drink mix to the cups, increasing the amount for each cup as you go down the line. The first cup should have minimal color, and the last cup should be a deeply saturated color.
3. Tell Scouts that the glasses of water represent how autism means something different to each person. There is no single type of person with autism. Some people with autism might have very few symptoms and be able to participate in the daily activities of school and life with need for only minor accommodations. Others might have significant symptoms and triggers that impact basic activities of living. And still others will be at every place along the spectrum—no two people with autism are alike.

— Tactile Station:

1. Explain that some people with autism are what is known as touch-sensitive. That means that even very soft fabrics can feel like rough sandpaper on their skin.
2. Provide each Scout with three pieces of sandpaper: one with a very fine grit, one with a medium grit, and one with a very coarse grit.

3. Have Wolves share how the sandpaper pieces feel different and how uncomfortable each piece is to touch. They can rate how uncomfortable each piece feels on a scale of 1–5, with 1 being not much and 5 being very uncomfortable.
 4. Ask: *How would that affect someone who feels that way when he or she is getting dressed in the morning? Or when he or she is asked to wear a uniform or a costume for a play?* Remind Scouts that many things people without autism or similar disabilities don't think about every day (such as how clothes feel on your skin) can be extremely important to someone with autism.
- Additional information on autism can be found at www.autismempowerment.org/.

CLOSING

- Recite the Scout Oath in unison while giving the Cub Scout sign.

NOTE TO DEN LEADER

It is important to lead a reflection at the conclusion of these activities. It is important for boys to recognize that their peers who are differently-abled are just like them, except in one small way. See the "Leading a Reflection" guidelines in the Appendix.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1, 2c, and any other requirements fulfilled by selected activities.
- Work together to clean up the meeting place.
- Remind Scouts and parents to find old T-shirts the boys can wear over their uniforms during the painting activity at the next meeting.

MEETING 3 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Photos or illustrations of the words "cheerful" and "clean" being spoken in American Sign Language (Gathering)
- Materials for painting (Activity 1):
 - Washable paints
 - Paper (enough for each Scout to paint two pictures)
 - Old T-shirts (each Scout should bring an old shirt to wear over his uniform while painting)
 - Blindfolds (one per Scout)
 - Paintbrushes (one per Scout)
 - Plastic cups with water for rinsing paintbrushes (one per Scout)
 - Plastic cover or inexpensive tablecloth
- A wheelchair or crutches and cones or other items to set up a simple obstacle course

GATHERING (REQUIREMENT 2F)

- Use the photos or illustrations to teach the Scouts how to say "cheerful" and "clean" in American Sign Language. Have them practice until everyone has arrived for the meeting.

Cheerful

Clean

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance as well as the Scout Oath and Scout Law.
- Have the boys sign “cheerful” and “clean” when they get to those words in the Scout Law. (Note: This fulfills the other half of requirement 2f.)

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Painting (Requirement 2e)

- Make sure the boys wear the old T-shirts over their uniforms to avoid stains.
- First, have each Scout paint a picture as he normally would.
- Then have him try to paint the same picture while wearing his blindfold. (As this part of the activity will probably be messier, be sure to put the plastic cover or tablecloth over the painting area.)

◆ Activity 2: Wheelchair or Crutches Obstacle Course (Requirement 2a)

- Set up a simple obstacle course on a flat paved surface for Scouts to navigate using crutches or a wheelchair.
- Have Scouts take turns going through the course, trying their best to move and maneuver using the selected device.
- After the activity is finished, ask the boys how it felt to go through the course on crutches or in a wheelchair. How does this help them relate to people with disabilities that affect their mobility?

CLOSING

Bring all the Scouts together and have them sign the words “loyal,” “friendly,” “cheerful,” and “clean.” Then close with a grand howl!

AFTER THE MEETING

- Serve refreshments, if desired.
- Work together to clean up the meeting place.
- Record completion of requirements 2a, 2e, and 2f.

Upon completion of the Cubs Who Care adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack's tradition.

DIGGING IN THE PAST

RATIONALE FOR ADVENTURE

This elective adventure will help Wolf Scouts understand the formation of fossils.

TAKEAWAYS FOR CUB SCOUTS

- Understanding that fossils are affected by the ground around them
- Learning about different types of dinosaurs
- Listening to instructions
- Making a layered dessert
- A Scout is thrifty. 

Wolf Handbook, page 204

ADVENTURE REQUIREMENTS

1. Play a game that demonstrates your knowledge of dinosaurs, such as a dinosaur match game.
2. Create an imaginary dinosaur. Share with your den its name, what it eats, and where it lives.
3. Make a fossil cast.
4. Make a dinosaur dig.
5. Make edible fossil layers. Explain how this snack is a good model for the formation of fossils.
6. Be a paleontologist, and dig through the dinosaur digs made by your den. Show and explain the ways a paleontologist works carefully during a dig.

NOTES TO DEN LEADER

This adventure does not include plans for a den outing. If a den outing is desired, the leader may plan to hold one of the meetings at a location suitable for learning about dinosaurs or paleontology, such as a natural history museum. All event coordination and necessary tour and activity plans would need to be in place in advance, depending on the location selected.

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Copies of the Dino Match game cards in Meeting 1 Resources (Gathering)
- One beanbag (Activity 1)
- Materials for building imaginary dinosaurs (Activity 2). These may include tape, glue, construction paper or felt, clay, papier-mâché, buttons, chenille stems, spools, and brads. Also, make sure to call parents in advance to have the boys bring recyclables like plastic bottles and caps, soda cans, cereal boxes, container lids, and cardboard tubes.

GATHERING

Hand out the “Dino Match” cards as Scouts arrive, and when everyone is there, play the card game.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance as well as the Scout Oath and Scout Law.
- The den members form a circle and give the Cub Scout sign. They repeat in unison, “A Scout is thrifty.” Then each Wolf Scout tells what being thrifty means to him.

TALK TIME

- Introduce the Digging in the Past adventure to the den. Build interest by describing the goals of the adventure and some of the activities that are planned.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Play “Herbivore! Carnivore!” (Requirement 1)

- The boys sit in a circle with one Wolf Scout in the center holding the beanbag. He tosses it to someone in the circle and shouts, “Herbivore!” or “Carnivore!”
- The player who receives the bag must say the name of a dinosaur in that category before the player in the center can finish counting to 10.
- Once a dinosaur has been named, it may not be called again. If a player doesn’t name one in time, he trades places with the Scout in the center.

◆ Activity 2: Imaginary Dinosaur (Requirement 2)

- Have each Scout build an imaginary dinosaur using the construction materials you gathered and the recyclables the boys brought from home. Remind them that a Scout is thrifty—that’s why they will use recycled materials.
- Wolf Scouts are very creative! Encourage them to use their Wolf imaginations to invent and name their dinosaurs.

CLOSING

Have the den members form a circle and pass the Cub Scout handshake from one to another until it reaches the boy who started it. As each Wolf Scout receives the handshake, he silently makes a wish and pledges to do his best.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1 and 2.
- Work together to clean up the meeting place.

MEETING 1 RESOURCES

GATHERING: DINO MATCH CARD GAME

- As Scouts gather for the meeting, give each of them two cards: one showing the picture of a dinosaur and the other showing the name and description of a different dinosaur.
- When everyone has arrived and all the cards are distributed, have the boys go around the room and find the matching names and pictures for their cards.
- Encourage them to share any other information that they know about the dinosaurs.

Tyrannosaurus rex

I am a carnivore with
little arms and a big bite.

Triceratops

I have three horns and a bony frill
with points on its edges.

Archaeopteryx

I am only about 12 inches long and
have three fingers with claws on each
of my wings.

Parasaurolophus

I weigh about 4 tons and
have a bony crest on my head.

Pteranodon

I am a reptile that lived alongside dinosaurs. I am able to fly because I am very light—my hollow bones are filled with air sacs.

Apatosaurus

I am one of the largest land animals. I have a long neck and eat only plants.

Velociraptor

I am small and fast. I have sharp claws on my front and hind feet.

Ankylosaurus

My protection comes in the form of spines on my body and a long heavy club tail that could be used to break the legs of enemies.

Spinosaurus

I am longer than the T. rex; I have a sail on my back, and scientists think I speared fish out of the water.

Hesperornithiformes

I use my webbed feet to dive for fish.

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Items for the “Dinosaur Eggs” game (Gathering): dried beans (12 per Scout); small paper plates (one per Scout); and toothpicks (two per Scout)
- Materials for fossil prints (Activity 1): air-dry clay; paper plates; permanent markers; leaves; sticks; rocks; small plastic dinosaurs; plastic bugs or spiders
- Materials for “Dino Dig” Part I (Activity 2): square disposable aluminum pan (one per Scout); plaster of paris; safety glasses; dust masks; various small objects (plastic dinosaurs, polished rocks, silk leaves, etc.)
- Two flashlights or battery-operated candles—one larger than the other (Closing)

GATHERING: DINOSAUR EGGS

As Scouts arrive, have them sit around a table or kneel in a circle on the floor. Give each boy two toothpicks and a small paper plate with 12 dried beans on it. On your signal, see who will be the fastest at lifting out five beans.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance as well as the Scout Oath and Scout Law.
- Have the den members make the Cub Scout sign as they recite the Scout Oath and Scout Law.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Fossil Prints (Requirement 3)

- Give each Scout a piece of the air-dry clay and a paper plate. Have him make a fossil print, following the instructions in the *Wolf Handbook*. When the clay has hardened, he should write his name on the back using a permanent marker.

◆ Activity 2: “Dino Dig” Part I (Requirement 4)

- Each boy will now make a dinosaur dig based on the instructions in the *Wolf Handbook*.
- Make sure that only adults prepare the plaster of paris, wearing safety glasses and dust masks. Allow them plenty of space, and keep the boys from getting too close until the job is done.
- When the activity is finished, set the pans aside to dry until the next meeting.

◆ Activity 3: Dinosaur’s Tail

- Everyone stands single file, each Scout placing his hands on the shoulders of the boy in front of him. The first in line is the “head” of the dinosaur, and the last is the “tail.”
- The head tries to catch the tail by maneuvering the line around so that he can tag the end player. All other players do their best to keep the head from catching the tail. The line must not break.
- When the head catches the tail, the end player becomes the head and the head player moves to the second place in line.

CLOSING: CUB SCOUT LIGHT

Place the two flashlights or battery-operated candles on a table. The den leader asks Wolf Scouts to sit on the floor in a circle. Then the leader dims the lights.

Den chief (picking up the small light): "I will light this small candle. It represents the goodwill given by one Cub Scout. See how it shines? The rays from several Cub Scouts make a brighter light. Each Scout lets his light shine by doing his best and helping other people."

Den leader: "I'll light this large candle. This represents that there is a brighter light that leads us all. Let us always think first of God, second of others, and finally of ourselves."

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 3 and 4.
- Work together to clean up the meeting place.

MEETING 3 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Items for the Musical Dino Eggs (Gathering): one beanbag, recorded music
- Materials for "Edible Fossil Layers" (Activity 1; verify with parents that there are no food allergies in the den): large clear plastic cups (one per Scout), flavored gelatin, animal crackers, crushed graham crackers, pudding.
 - Before the meeting, prepare each cup with an inch of gelatin in the bottom, and place a few animal crackers in the gelatin before it solidifies. Prepare a large bowl of pudding, and fill another large bowl with crushed graham crackers.
- Materials for "Dino Dig" Part II (Activity 2): craft sticks (one per Scout); small paintbrushes (one per Scout); dinosaur digs made at the last meeting
- Two round balloons (make sure there are no latex allergies in the den), for the Dinosaur Egg Relay (Activity 3)

GATHERING: MUSICAL DINO EGGS

Have the arriving Wolf Scouts sit in a circle and pass around a "dinosaur egg" (the beanbag). Play the recorded music and, similar to "Hot Potato," when the music stops the player holding the egg is out. Continue until only one Scout remains.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance as well as the Scout Oath and Scout Law.
- The denner calls roll, and each boy responds by naming a point of the Scout Law when his name is called.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Edible Fossil Layers

- Have Wolf Scouts make a snack, using the ingredients you prepared and following the directions in the *Wolf Handbook*.
- When finished, they should set the snacks aside until after the meeting.

◆ Activity 2: “Dino Dig” Part II

- Tell the Scouts: Paleontologists use many different tools to dig out bones and fossils. Because they do not want to damage anything, they typically use small tools like chisels and paintbrushes. We’ll be digging through plaster of paris instead of rock, so you will use craft sticks and paintbrushes.
- Now have the boys dig their objects out of the plaster of paris. Note: If time is limited, this activity may need to be completed at home.

◆ Activity 3: Dinosaur Egg Relay

- Divide Wolf Scouts into two teams. Tell them that you have “dinosaur eggs” (two inflated balloons) that must be moved before they hatch.
- The boys must move the balloons only with their fingertips. That’s because the “eggs” might hatch early from the warmth of a whole hand.
- Give each team one balloon. The object of the relay is for a pair of players to hold the balloon between them, each Scout using only one fingertip. They transport the “egg” across the jungle and back, and then pass it on to the next pair on their team—again, using only single fingertips.
- The first team to finish the relay sits down and raises the Cub Scout sign so the game warden can report success to the base camp!

CLOSING

Form a circle and recite the Outdoor Code in unison.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 5 and 6.
- Work together to clean up the meeting place.

Upon completion of the Digging in the Past adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack’s tradition.

NOTES

FINDING YOUR WAY

RATIONALE FOR ADVENTURE

Learning to read and use a map and a compass is a valuable skill. In this adventure, Scouts will receive an introduction to maps, symbols, and the cardinal directions of north, south, east, and west. They will also learn the basic functions of a compass.

TAKEAWAYS FOR CUB SCOUTS

- Following and giving directions
- Observing and reading a map
- Cardinal directions—north, south, east, and west
- Navigating with a compass
- Working with others
- The buddy system

ADVENTURE REQUIREMENTS

Wolf Handbook, page 220

1. Do the following:
 - a. Using a map of your city or town, locate where you live.
 - b. Draw a map for a friend so he or she can locate your home, a park, a school, or other locations in your neighborhood. Use symbols to show parks, buildings, trees, and water. You can invent your own symbols. Be sure to include a key so your symbols can be identified.
2. Pick a nutritious snack, and find where it came from. Locate that area on a map.
3. Do the following:
 - a. Identify what a compass rose is and where it is on the map.
 - b. Use a compass to identify which direction is north. Show how to determine which way is south, east, and west.
4. Go on a scavenger hunt using a compass, and locate an object with a compass.
5. Using a map and compass, go on a hike with your den or family.

NOTES TO DEN LEADER

Meeting 3 will take place at an outdoor location for a hike. In advance of the outing, the leader will need to make arrangements with the outing location and confirm the outing plan with families, including transportation and any additional items they need to bring. Make sure a tour and activity plan has been submitted and activity consent forms are distributed and signed.

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Flag for folding ceremony (Closing)
- Words to the “Happy Wanderer” song, either on a poster or as a handout for the Scouts (Gathering; see Meeting 1 Resources)
- Various maps, including your town or city (one copy per Scout if possible), the United States, and the earth. Other types to consider are globes, nautical maps, GPS displays, and the map for a local amusement park.
- Small, removable stickers (stars or dots)
- Compass with a needle, direction-of-travel arrow, and baseplate (one per Scout or one for each pair of buddies)
- Hand-sketched map
- Paper (plain or graph for sketching maps)
- Crayons or colored pencils

GATHERING

- Display a compass and the various maps you collected. Give Wolf Scouts time to view the items before the den discusses them during Talk Time.
- Help each boy, as he arrives, to locate his home on a city map.
- Have the den chief teach the Scouts the “Happy Wanderer” song (see Meeting 1 Resources).

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance as well as the Scout Oath and Scout Law.
- When the den chief calls each Wolf Scout’s name, the boy steps forward and puts a sticker on the city map where his home is located (requirement 1a).
- After roll call, everyone recites the Cub Scout motto.

TALK TIME

- Introduce the Finding Your Way adventure to the den. Introduce the topic of maps by talking about how many different types there are and how those maps help us. Maps can be found everywhere: a GPS display or printed maps in a car, maps in a classroom, maps in a shopping mall, etc. Ask the boys what maps they have used.
- Show a hand-sketched map and explain how it can be used to help someone reach a destination if they are lost or haven’t been there before.
- Show how the legend on a map can help us find local parks, buildings, bodies of water, etc.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Drawing Maps (Requirement 1b)

- Hand out the paper and colored pencils or crayons, so each Scout can draw a map that shows the location of his home, a park, a school, and other important places in the community.
- Make sure each boy saves space on his map to draw a basic legend with symbols for water, trees, parks, and large buildings. Also, have him place those symbols where they should go around the map.

◆ Activity 2: Using a Compass (Requirement 3b)

- If weather permits, move the den outside so Wolves can have fun learning to use their compasses in natural surroundings. Show them how to use a compass to see which way is north.

CLOSING

Flag Folding Ceremony. Have three Scouts fold the flag while the other boys stand respectfully in a semicircle.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1a, 1b, and 3b.
- Work together to clean up the meeting place.

MEETING 1 RESOURCES

Using a Compass

Tell Scouts that north, south, east, and west are the points of a compass. A compass can help them figure out what direction is north. Once they know that, they can decide which direction to go to move toward their destination. Scouts can also use a map and compass to figure out how to get from one place to another. Wherever they happen to be on earth, the compass needle will always point north.

- Have a Scout hold a compass flat in his hand.
- Tell him to look down at the needle to see where it is pointing, then turn his body slowly. He should keep turning until the compass needle lines up with the north line or “N” on the grid.
- Remind Scouts that the floating needle is magnetized and the red end will always point to magnetic north. You can always figure out the other points of the compass when you stand facing north.
- When Scouts are facing north using a compass, east will be on their right, south will be directly behind them, and west will be to their left. If they forget, teach Scouts the phrase “Never Eat Soggy Waffles” and they’ll get right back on track.

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Pieces for the “Sign Match” Game (Gathering; see Meeting 2 Resources)
- Den cheer written on a poster board in large letters (Opening)
- Items for the “Scavenger Hunt” (Activity 1)
 - One compass per Scout (or one for each buddy pair) with a needle, direction-of-travel arrow, and a baseplate
 - Items to hide before the meeting
- Healthy snacks—raisins, apples, sunflower seeds, oranges, fruit cups, etc. (These may also serve as scavenger hunt items. If so, make sure each snack has a label that tells what part of the country or world in which it was produced, made, or grown. Note: Please check for food allergies among den members before selecting snacks.)
- World map or globe (Activity 2)
- Small, removable stickers (stars or dots)
- Paper or cards for Scouts to write thank-you notes for anyone helping with the den hike during Meeting 3

GATHERING

As Wolf Scouts arrive, have them play the “Sign Match” game. Give one set of cards to each boy as he arrives, and pair boys up to play together. Have boys combine and mix up their cards in a pile on the floor, with all cards facing down. When the cards have been mixed up, organize them into a grid. Scouts may flip over two cards in each turn, trying to create a pair. If the cards do not display a pair, they should be flipped back over and the turn changes to the other boy. If a Wolf gets a pair, he keeps the cards and takes another turn. The goal is to have the most pairs when the cards are all gone.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Lead the den in an opening cheer: “Today we’ll face north, south, east, and west. But whatever way and whatever day, we will always do our best! We’re Wolf Scouts! Howl!”

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Talk about the Gathering game. Ask the Scouts if they recognized any of the signs. Discuss how different types of signs are useful in helping people find their way.

ACTIVITIES

◆ Activity 1: Scavenger Hunt (Requirement 4)

- Review what the boys learned at the last meeting about how to use a compass.
- Then give them directions on how to find each hidden item using their compasses.

◆ Activity 2: Snacks Around the World (Requirement 2)

- Distribute the snacks and have the Scouts check the label on each one to find its place of origin. Which snack traveled the farthest to get to where it is now?
- Help the Scouts find those areas on the map or globe, and have each boy put a sticker on the location for his snack.

CLOSING

- Have Wolf Scouts form a circle and pass the Cub Scout handshake from one to another around the group until it reaches the boy who started it. As each one receives the handshake, he silently makes a wish and pledges to do his best.
- Review details for the upcoming outing in Meeting 3. Make sure all Scouts and their families know the plans.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 2 and 4.
- Work together to clean up the meeting place.
- Have the Scouts write thank-you notes for those who will help with the outing.

MEETING 2 RESOURCES

GATHERING: SIGN MATCH GAME

Print as many copies of these signs as you need for Scouts to play the game.

Interstate Highway

Red Light Camera

Stop Sign

Workers Ahead

Pedestrian Crossing

Nuclear Zone

Road Slippery When Wet

School Zone

No U-turn

Hurricane Evacuation Route

Railroad Crossing

Dead End

Deer Crossing

No Left Turn

Flagger Ahead

No Right Turn

One-Way Traffic

Hospital Ahead

Yield Right of Way

Traffic Light Ahead

Winding Road

Lane Ends, Merge Left

MEETING 3 PLAN (DEN OUTING)

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- A map of the trail or area you will use for your hike
- Cub Scout Six Essentials for each boy
- Water to fill bottles as needed
- One compass per Scout (or one for each buddy pair)
- Printed example of a compass rose
- Thank you notes
- Confirm that a tour and activity plan has been submitted, if required, and that transportation to and from the event is in place. Secure signed activity consent forms.
- Unit den leader should have in possession (if required by local council practices) the tour and activity plan and a copy of the *Guide to Safe Scouting*.

GATHERING

- Conduct a gear check as Scouts arrive, fill water bottles, distribute trail food, tie shoes, etc.
- Play the “Changing Winds” game
 - Use a compass to establish the four main directions in the room.
 - Have all boys stand facing one player who is the “wind.” The wind tells the direction he is blowing by saying, “The wind blows . . . south.” All players must face south. If a player is already facing that direction and moves, he is out.
 - The “wind” may confuse the other players by facing any direction he chooses. Players turning the wrong direction are out. The winner is the last player still in the game.

OPENING

- Say the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law. If the den does not have a United States flag on the outing, ask one Scout to display the flag on his uniform for the group.
- As a group, lead Scouts as they recite the Outdoor Code and Leave No Trace Principles for Kids.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Discuss the buddy system and what a Scout should do if he becomes separated from the group during the hike. Review the STOP (Stay calm, Think, Observe, Plan) procedure from the Paws on the Path adventure in the *Wolf Handbook*.

ACTIVITIES

◆ Activity 1: Compass Rose (Requirement 3a)

- Identify what a compass rose is and where it is on the map.
- Introduce walking between the four points of the compass rose. Discuss the difference between the four cardinal directions—north, south, east, and west—and the ordinal directions between them: northeast, southeast, southwest, and northwest. Demonstrate that if a Scout is walking between north and west, he is going northwest, and so on.

◆ Activity 2: Den Hike (Requirement 5)

- Using the map, make sure everyone understands the path the den will be taking before the hike begins.
- During the hike, each time the den arrives at a point that is marked on the map, have them stop and use the map to orient themselves.

CLOSING

Gather everyone together after the hike for an inspirational closing message. It can be a brief story about the Scout Oath, the Scout Law, the Cub Scout motto, or something patriotic. Consider reflecting on ideals such as being kind to animals and people, showing sportsmanlike behavior, or participating in school activities.

AFTER THE MEETING

- Have Scouts give their thank-you notes to those who helped.
- Record completion of requirements 3a and 5.

Upon completion of the Finding Your Way adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack's tradition.

NOTES

GERMS ALIVE!

RATIONALE FOR ADVENTURE

This adventure teaches Wolf Scouts about the importance of keeping a clean room, proper hand washing, and covering their sneezes—through fun, hands-on (and gross!) science experiments.

TAKEAWAYS FOR CUB SCOUTS

- Knowing the proper way to wash hands
- Why we cover a sneeze
- What mucus does for our bodies
- The importance of cleaning our rooms
- Bacteria are present even if we can't see them.
- A Scout is clean, courteous. 

ADVENTURE REQUIREMENTS

Wolf Handbook, page 230

1. Wash your hands while singing the “germ song.”
2. Play Germ Magnet with your den. Wash your hands again afterward.
3. Conduct the sneeze demonstration.
4. Conduct the mucus demonstration with your den.
5. Grow a mold culture. Show what formed at a den or pack meeting.
6. Make a clean room chart, and do your chores for at least one week.

NOTES TO DEN LEADER

This adventure does not include plans for a Meeting 3 den outing. If an outing is desired, all outing and transportation information would need to be planned in advance.

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Soap, water, and sink for washing hands. (If a sink is not readily available, use a bucket and a pitcher of water.)
- Items for the “Sink the Germs” game (Gathering)
 - Six beanbags
 - Removable tape
 - One large, open box with a picture of a sink drawn or taped to the front
 - One large printed copy of the “When to Wash Your Hands” chart (Meeting 1 Resources)
- Words for the Germ Song (“No Dirty Paws for Me”) displayed on a poster board (Activity 1; see lyrics in the *Wolf Handbook*)

- Brightly colored glitter or washable paint for the “Germ Magnet” game (Activity 2)
- Items for the sneeze demonstration (Activity 3)
 - One blanket, old sheet, or tarp with concentric bull’s-eye rings drawn on it in washable ink. Each inner ring should be about 12 inches narrower than the one that surrounds it.
 - One balloon (check for latex allergies in the den)
 - Paper confetti
 - One sheet of paper to roll into a funnel
 - Tape
 - Tape measure

GATHERING: SINK THE GERMS

- Set the large open box on the floor to represent a sink.
- Use tape to mark a throwing line on the floor. Then tape the large copy of the “When to Wash Your Hands” chart (see Meeting 1 Resources) behind the line and place one beanbag over each of the six squares.
- As each Wolf Scout arrives, have him take a turn throwing the six beanbags, one by one, into the box. If time allows, after all the boys have had a turn, have them try again.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance as well as the Scout Oath and Scout Law.
- Lead the den in singing the Germ Song to the tune of “Happy Birthday.”

*No dirty paws for me,
No dirty paws for me,
A Wolf Scout is clean ...
No dirty paws for me.*

*Clean paws keep me strong,
Clean paws keep me strong,
A Wolf Scout is smart ...
Clean paws keep me strong!*

TALK TIME

- Introduce the Germs Alive! adventure to the den. Tell the boys: Our hands are valuable tools. We use them every day. Because of this, hands become “germ magnets,” and when we touch other people, those germs move from hand to hand! So you need to remember to wash your hands often every day to make sure your “Wolf paws” are as clean as can be!
- Ask the boys to name the six times that it is very important to wash their hands. (Note: The answers were presented during the Gathering game.)
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Soap and a Song (Requirement 1)

- Have each Wolf Scout wash his hands while singing the Germ Song again.
- If he works soap and warm water into a lather on both hands and then sings both verses of the song as he washes, that will be long enough to wash away all the germs.

◆ Activity 2: Germ Magnet (Requirement 2)

- Have Scouts play the “Germ Magnet” game, using the directions in the *Wolf Handbook*.
- The game is likely to be messy, so you may want to move the den outside for this activity or use washable paint rather than glitter. Also, make sure that none of the Scouts rub their eyes while they still have glitter or paint on their hands.

◆ Activity 3: Sneeze Demonstration (Requirement 3)

- Tell the boys that when they played “Germ Magnet,” they were practicing the “A Scout is clean” part of the Scout Law. They learned that germs can spread and that we wash our hands to remove germs.
- Do the sneeze demonstration, using the materials you collected and involving the Scouts in every step as presented in the *Wolf Handbook*—except for popping the balloon, which should be done by an adult. The bull’s-eye represents each individual’s personal space, the popping balloon is like a sneeze, and the confetti represents the germs that are spread.
- In this activity, they see the importance of “A Scout is courteous.” Just as popping the balloon spreads the confetti, sneezing causes germs to spread quickly and powerfully. A Scout protects those around him and is courteous by sneezing into his elbow.

CLOSING

Gather the den in a circle. Starting with the denner, each boy will step into the center and shake hands with each of his fellow Wolf Scouts, moving counterclockwise and using the Cub Scout handshake. This continues until every Scout has his turn at initiating the handshakes.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1, 2, and 3.
- Work together to clean up the meeting place.

MEETING 1 RESOURCES

GATHERING: SINK THE GERMS

Make a copy of this chart that is large enough to place each of the six beanbags over one of the reasons why we would need to wash our hands throughout the day.

When to Wash Your Hands

<p>After playing with a pet</p> 	<p>After using the bathroom</p> 
<p>After sneezing, blowing your nose, or coughing</p> 	<p>Before touching a cut or open sore</p> 
<p>After playing outside</p> 	<p>Before eating</p> 

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Paper and colored pencils or crayons for “Design a Germ” drawings (Gathering)
- Paper, pencils, and rulers for making chore charts (Activity 1)
- Materials for the Sweeping the Germs Away relay (Activity 3)
 - One broom for each team of three Scouts
 - Empty 1- or 2-liter bottles with caps (one per team)
 - One permanent marker
 - Food coloring (one color per team)
 - Removable tape or chalk

GATHERING: DESIGN A GERM

- As Scouts arrive, have each of them design and name his own “germ,” using the drawing materials you collected.
- These drawings may be saved and displayed at the next pack meeting.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance as well as the Scout Oath and Scout Law.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Ask the boys if they have ever thought about growing mold. Explain: *Bacteria are very small and can live and grow on many surfaces. We cannot see bacteria unless we look at them through a microscope. There are different types of mold that can grow in and outside of our homes.*
- Each Wolf Scout will create a mold “culture” (experiment) at home with the help of an adult (requirement 5). They will follow the directions in the *Wolf Handbook* and take photos each day of the results. These photos will be brought to the next meeting to share with the den.

ACTIVITIES

◆ Activity 1: Chore Charts (Requirement 6)

- Have each Scout draw a “clean room” chore chart based on the one in the *Wolf Handbook*, using a pencil, paper, and ruler. Each boy should adapt the chart to fit his own situation; for example, he may have a cat instead of a dog, and he probably already has some assigned chores to add to the chart.
- Scouts will keep a record of the chores they complete during the week, and bring the charts to the next meeting.

◆ Activity 2: Germ Tag

- To start this game, one Scout will be a “germ.” At the word “Go,” the germ tries to touch the other players on the arm. Once a player is touched, he becomes a germ as well and tries to catch the others. The game ends when everyone is a germ.
- Remind the boys that this is not a tackling, hitting, or grabbing game.

◆ Activity 3: Sweeping the Germs Away

- Give a bottle to each team of three Wolf Scouts. Have the teams pour a half cup of water into their bottles and give each team a different color food dye to mix with the water. Place the cap on the bottle. Now they can draw faces on the bottles with the permanent marker, and each bottle becomes that team's "germ."
- Using the tape or chalk, mark separate start and finish lines for each team, making sure the lines are the same distance apart.
- On the word "Go," the relay begins. Members on each team take turns pushing the germ with their broom to the finish line and back, then hand off the broom to the next boy. The first team to finish sweeping their germ back and forth wins.
- If you have a small den, the Scouts can play as a single team, trying to beat their own time in two or three rounds. If you don't have an even number of Scouts, put the den chief on one of the teams.

CLOSING

All the Wolves gather in a circle and make the Cub Scout sign. Then they recite in unison, "A Scout is courteous," and each Scout says something that being "courteous" means to him.

Do-at-Home Project Reminder:

Remind Wolves to make their mold cultures at home, following the directions in the *Wolf Handbook*. For materials, each boy will need a banana, a slice of bread, a piece of cheese, three paper plates, labels to put on the plates (so no one mistakenly eats the molds), and a pair of rubber gloves (check for latex allergies). They should take photos to compare at the next meeting, but each Scout or his parent should dispose of the mold cultures at home, wearing the gloves for safety. The molds will not be brought to the next meeting—only the photos.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirement 6.
- Work together to clean up the meeting place.

MEETING 3 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Dried pinto beans (20 to 30 per Scout) in plastic bags (Gathering)
- Photos of each Scout's mold culture from the Do-at-Home Project (Talk Time)
- Items for "mucus" demonstration (Activity 2)
 - Borax
 - Warm water
 - White school glue
 - Dirt, flour, glitter, or cocoa
 - Food coloring
 - Small bowls or plastic containers (two per Scout)
 - Quart-size resealable storage bags (one per Scout)
 - Paper plates (one per Scout)
- Words for the Germ Song ("No Dirty Paws for Me") displayed on a poster board (Closing; see lyrics in the *Wolf Handbook*)

GATHERING: BACKHAND BEANS

- Give each Wolf Scout, as he arrives, a small bag filled with 20 to 30 dried pinto beans.
- He should dump the beans in a small pile on the floor or table. He then picks up one bean with the thumb and forefinger of one hand, transfers it to the thumb and forefinger of his other hand, and places it on the back of the first hand.
- Have him continue this pattern, adding more beans to the back of his hand and trying not to drop them. If the beans do fall off, have him start over.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance as well as the Scout Oath and Scout Law.
- All the Wolves make the Cub Scout sign. Then they recite in unison, “A Scout is clean,” and each Scout says something that being “clean” means to him.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Have each boy tell about the chores he did during the week to fill out his “clean room” chart.
- Have the Scouts display and compare their photos of the mold cultures they grew at home. Ask them: *Which of the three types of molds—banana, bread, or cheese—grew the fastest?*

ACTIVITIES

◆ Activity 1: Mucus Demonstration (Requirement 4)

- Have the Scouts conduct their “mucus” demonstrations, using the materials you collected and following the directions in the *Wolf Handbook*.
- This activity will help Wolves understand the role of mucus in protecting us from germs. Each boy should have the chance to mix his own bag, so he can see firsthand evidence of the chemical change when the Borax and glue interact.
- Let them play with their slimy creations for a few minutes. Ask: *What does it feel like? How do you think something so slimy could protect your body?*
- Now have each boy do a filtering test by putting his fake mucus on a paper plate and gently blowing a pinch of dirt, glitter, flour, or cocoa onto it. Ask: *Does this help you see how the mucus in the membranes inside your nose might keep you from breathing in germs, bacteria, and viruses?*

◆ Activity 2: Wolf! Wolf!

- All the Scouts sit in a circle around the boy who is “It,” or “the wolf.” The boys in the circle say, “Wolf! Wolf! What are you doing?”
- The wolf can respond by saying a one-sentence action that protects a person from germs, like “brushing my teeth,” “washing my hands,” or “cleaning my room.” But if the wolf says “Chasing you,” the other boys must scatter to keep from being tagged by him—just like a germ floating through the air.

CLOSING

- The whole den forms a friendship circle. Everyone crosses one arm over the other and grasps the hand of the person on either side.
- Close by singing the “Germ Song” (“No Dirty Paws for Me”) that the Scouts learned at Meeting 1. Display the words of the song (sung to the tune of “Happy Birthday”) in case the boys have forgotten them.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 4 and 5.
- Work together to clean up the meeting place.

Upon completion of the Germs Alive! adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack's tradition.

GROW SOMETHING

RATIONALE FOR ADVENTURE

In this adventure, Wolves will come to understand how plants grow and the importance of taking care of our natural resources and the environment. They will also learn about the tools needed to plant and tend a garden.

TAKEAWAYS FOR CUB SCOUTS

- Learning important life skills
- Learning how to observe and listen carefully
- Taking care of plants and the environment
- Working in teams

Wolf Handbook, page 244

ADVENTURE REQUIREMENTS

1. Select a seed, and plant it in a small container. Care for it for 30 days. Take a picture or make a drawing of your plant once each week to share with your den.
2. Find out the growing zone for your area, and share the types of plants that will grow best in your zone.
3. Visit or research a botanical or community garden in your area, and learn about two of the plants that grow there. Share what you have learned with your den.
4. Make a terrarium.
5. Do one of the following:
 - a. Using a seed tray, grow a garden inside your home. Keep a journal of its progress for 30 days. Share the results with your den.
 - b. Grow a sweet potato plant in water. Keep a journal of its growth for two weeks. Share it with your den.

NOTES TO DEN LEADER

Meeting 3 will be a den outing to a botanical or community garden in your area, or—if those choices are not available—a plant nursery or garden club (requirement 3). In advance of the outing, the leader will need to make arrangements with the outing location and confirm the outing plan with families, including transportation and any additional items they need to bring. Make sure a tour and activity plan has been submitted and activity consent forms are distributed and signed.

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Materials for Nature's Layer Cake (Gathering)
 - Rinsed-out jars with tight-fitting lids (one per Scout)
 - 1 scoop of soil for each Scout
 - Water

- Map that shows the growing zones in the United States, downloaded from the Internet and printed out (Talk Time)
- Materials for making Grass Buddies (Activity 1)
 - Potting soil
 - Plant seeds or grass seeds (any type of grass would serve, but rye seed grows very quickly)
 - Clear plastic cup or container (one per Scout)
 - Items for decorating (e.g., pom-poms, chenille stems, googly eyes, craft foam, glue, and permanent markers)

GATHERING: NATURE'S LAYER CAKE

- Soil is made up of many layers as well as particles of various sizes. As Scouts gather for the meeting, have them do this activity so they can distinguish one layer from another.
- Fill half of a jar with soil and add water to the top. Screw the lid on tightly, shake the jar well, and give the contents time to settle. Before long, the Scouts should see leaf litter floating on the top, and sand and clay that give structure to the soil. Stones that settle on the bottom will help the water drain away, which keeps the soil from becoming waterlogged.
- Have each boy take samples from different areas of his “layer cake,” so they can see how the layers differ.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Lead Wolves in the Seed Cheer: First they curl themselves tightly in a ball. Then they slowly “grow” upward. Once the boys are standing up, on the count of three, have them stretch out their arms like flower petals and shout, “Grow!”

TALK TIME (REQUIREMENT 2)

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Review requirements 5a and 5b, and help Wolves decide which Do-at-Home Project they will complete this month: growing a small garden in a seed tray or growing a sweet potato plant in water. They will keep journals of their progress to share at the next two meetings.
- Talk about the science of soil, seeds, and plants, and the difference between planting seeds versus transplanting a plant from a pot to the ground. Explain to the boys that good soil is a very important part of growing plants and vegetables. As they could see in the Gathering activity, there are many things that make up our soil. That is why it is important to prepare the soil before we plant.
- Discuss other elements needed for plants to grow, including water and different balances of sun, shade, heat, and cold—depending on what a particular plant requires for it to thrive.
- Use the map you printed to introduce the topic of “growing zones,” and how to find out if a plant can grow well in a specific part of the country. This information is often provided on the back of seed packets, along with instructions on watering and the type of light a plant needs. Focus the conversation on the best plants to grow in your area.

ACTIVITIES

◆ Activity 1: Grass Buddies (Requirement 1)

- Give each Wolf Scout one of the small containers, and have him fill it halfway with potting soil.
- Now have each of them add one plant seed, or a heaping teaspoon of grass seed, to their containers. Then they should add more soil until the containers are three-quarters full.
- Pass out the materials for decorating the containers, encouraging everyone to get creative with this project.

- Finally, have each boy gently water his Grass Buddy. After the meeting, he will take his new friend home to grow throughout the next 30 days.

◆ Activity 2: “The Green Grass Grew All Around”

- Teach the Scouts a new song that they can add words to. The song is a traditional children’s song based on the song “And the Green Grass Grew All Around,” written in 1912 (music by Harry Von Tilzer, lyrics by William Jerome). This is a “repeat after me” song.
- Get the song started with the verses below, and then have the boys create new verses.

*There was a hole in the middle of the ground,
the prettiest hole that you ever did see.
Well, the hole in the ground,
And the green grass grew all around and around,
And the green grass grew all around.*

*And in that hole there was a root,
the prettiest root that you ever did see.
Well, the hole in the ground, and the root in the hole,
And the green grass grew all around and around,
And the green grass grew all around.*

CLOSING

Have the den members form a friendship circle: All arms are crossed with each person extending their right arm over their left and grasping the left hand of the person beside them. Everyone makes a silent wish and gently passes a friendship squeeze from hand to hand.

Do-at-Home Project Reminder:

Tell Scouts to start working on requirement 5a or requirement 5b at home, so they can share their journals during the next few weeks. They will also be caring for the Grass Buddies they made at this meeting, and taking a photo or drawing a picture each week to show its progress to the rest of the den.

AFTER THE MEETING

- Serve refreshments, if desired. Fresh vegetables would be a great snack for this adventure.
- Record completion of requirement 2.
- Work together to clean up the meeting place.
- Prepare thank-you notes for the Wolves to sign at the next meeting.

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Materials for Scene Rubbings (Gathering)
 - Artificial or real leaves
 - Large sheets of white paper (two per Scout)
 - Crayons or colored pencils
- Photos or drawings of the growing Grass Buddies, brought by the Scouts (Talk Time)

- Materials for making terrariums (Activity 1)
 - 1 clear glass container for each Scout (e.g., aquarium of any size, goldfish bowl, cookie jar, pickle jar, vase with a broad bottom)
 - Enough small rocks to fill the bottom of each container
 - Activated charcoal bits (one bag per Scout)
 - Sterilized potting soil
 - Miniature plants of different colors, shapes, and textures
 - Optional decorations: moss, pebbles, shells, ceramic figures
- Materials for the Seed Relay Game (Activity 2)
 - Chalk
 - 2 small cups filled with dried beans
 - Open, rinsed-out jars or juice bottles (enough to place a pair of them at 3-foot distances along the playing area)
- Thank you cards for the den outing

GATHERING: SCENE RUBBINGS

- When each Scout arrives, give him a large sheet of paper and enough real or artificial leaves to create the figure of his choice (e.g., a car, person, or animal) on the paper.
- Then give him another sheet of paper to lay over the first one, and one or more colored pencils or crayons to rub and recreate the picture—with the textures of the leaves—on the new sheet.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance as well as the Scout Oath and Scout Law.
- Lead the den in singing “The More We Get Together” to the tune of “Ach Du Lieber Augustine.”

*The more we get together, together, together,
The more we get together, the happier we'll be.
For your friends are my friends, and my friends are your friends,
The more we get together, the happier we'll be.*

*The more we get together, together, together,
The more we get together, the happier we'll be.
For you know that I know, and I know that you know,
The more we get together, the happier we'll be.*

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Have the boys compare the photos or drawings they brought to show the progress of their Grass Buddies. Each boy should also give an update on how his seed tray garden or sweet potato plant is coming along.

ACTIVITIES

◆ Activity 1: Making a Terrarium (Requirement 4)

- A terrarium is a miniature garden that is planted in a clear glass or plastic container. In order to make the garden a mini-greenhouse, the container either is completely covered with a removable lid or has just a small opening. This allows sunlight to enter through the glass or plastic and warm the plants, soil, and air—the same way that the sun warms our planet as it comes through the atmosphere. The glass or plastic holds in the moisture and warmth, allowing the plants to grow with little or no water added.
- Have the Wolf Scouts build their terrariums with the materials you collected, using the illustration and directions in the *Wolf Handbook* as a guide.

◆ Activity 2: Seed Relay Game

- Using the chalk, draw a straight line lengthwise through the playing area. Put a mark on the line at every 3 feet (or less, depending on how much space is available). Parallel to those marks, set the pairs of jars or juice bottles—with one jar on either side about 1½ feet away from the line.
- Divide the den into two teams. Each team should line up behind one of the rows of jars, and both teams will start at the same end of the playing area.
- Have one boy on each team go first, both of them carrying a cup of dried beans. They will follow the line drawn on the floor by placing the heel of one foot against the toe of the other. Every 3 feet, they must stop and place a bean in their team's jar.
- When a boy reaches the end, he runs back and hands the cup of beans to the next person on his team, who “plants” his beans in the same manner. The first team to finish wins.
- Try several variations to make the game fun and challenging. The players can try tossing the beans in, or you can use larger or smaller jars.

CLOSING

- Tell the Scouts: *Today we sowed plants that will grow strong during the next few weeks if they are given water, sunlight, and fresh air. We, too, will grow and thrive like our plants if we take care of our bodies by keeping them nourished, always getting a good night's sleep, and playing in the fresh air and sunlight.*
- Review details for the upcoming outing in Meeting 3. Make sure all Scouts and their families know the plans.

AFTER THE MEETING

- Serve refreshments, if desired.
- Work together to clean up the meeting place.
- Record completion of requirement 4.
- Have Scouts sign thank-you notes for anyone who helps with the outing.

MEETING 3 PLAN (Den Outing)

PREPARATION AND MATERIALS NEEDED

- Confirm that a tour and activity plan has been submitted, if required, and that transportation to and from the event is in place. Secure activity consent forms.
- The unit den leader should have in possession (if required by local council practices) the tour and activity plan and a copy of the *Guide to Safe Scouting*.
- Contact the outing location to confirm plans. Find out if a representative will be assigned to guide your group.

GATHERING: MONKEY IN A TREE

- While waiting for everyone to arrive, have the boys play Monkey in a Tree:
 - Form two small circles with three or four players linking their arms to make a “tree.” Have one boy stand in the middle of each circle. This represents a monkey in the tree.
 - Have one player be “It,” standing outside all the circles and pretending to be a monkey without a tree.
 - On a signal, the other monkeys leave their trees. Then all of the monkeys, including “It,” scramble to get into another tree before time is called. The one left out becomes “It” for the next round.

OPENING

- Say the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law. If the den does not have a United States flag on the outing, ask one Scout to display the flag on his uniform for the group.
- Ask Scouts to name points of the Scout Law that they will demonstrate during the outing.
- Remind the boys that it is important to stay together, be on their best behavior, and use the buddy system.

TALK TIME

- Carry out business items for the den.
- Have Wolves share things they would like to learn about during the visit.
- Review any questions the Scouts want to ask to make certain all are appropriate. (See the *Wolf Handbook* for suggestions, if needed.)
- Before starting the tour, give the Wolves time for a final comparison of their Grass Buddy photos or drawings and an update on how their seed trays or sweet potatoes are progressing.

ACTIVITIES

◆ Activity 1: Visit to Botanical or Community Garden (Requirement 3)

- Visit the location as a group, and take a guided tour if this is possible.
- Engage Scouts by having them identify different types of plants. Be sure the den has time to learn in detail about at least two of the plants or flowers they see.
- Have Scouts ask the questions they prepared.
- When the visit ends, have the Wolves give their signed thank you cards to anyone who helped, including tour guides.

CLOSING

- Gather everyone together for a “round of applause” cheer for the tour guides: While clapping, move your hands around in a circle in front of you.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1, 3, and 5a or 5b.

Upon completion of the Grow Something adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack's tradition.

HOMETOWN HEROES

RATIONALE FOR ADVENTURE

In this adventure, Wolf Scouts will learn about the heroes within their community. By getting to know some real-life heroes and honoring their service, the Wolves will see the importance of living the Scout Oath and Scout Law, and gain an understanding of what makes a hero.

TAKEAWAYS FOR CUB SCOUTS

- Observation skills
- Listening skills
- Following instructions
- Teamwork
- Helping others
- Living the Scout Oath and Scout Law
- A Scout is brave.

Wolf Handbook, page 256

ADVENTURE REQUIREMENTS

1. Talk with your family and den about what it means to you to be a hero. Share the name of someone you believe is a hero. Explain what it is that makes that person a hero.
2. Visit a community agency where you will find many heroes. While there, find out what they do. Share what you learned with your den.
3. With the help of a family member, interview one of your heroes, and share what you learn with your den. Tell why you think this person is a hero.
4. As a den or family, honor a hometown serviceman or servicewoman by sending a care package along with a note thanking them for their service.
5. With your family or den, find out about animals that are trained to help others in your community.
6. Participate in or create an event that celebrates your hometown hero(es).

NOTES TO DEN LEADER

In Meeting 1, the den will learn about animals trained to help people. One option for fulfilling this requirement is to include a visit from a person who works with service animals or other animals who assist people. Before the meeting, work with your local council to locate resources in the community, and make arrangements for the visit. Prepare a thank-you note in advance for the visitor.

In Meeting 2, the den will create a care package for a hometown serviceman or servicewoman (requirement 4). A local military recruiting office or military base might be able to help in identifying a recipient. Your local council might also be able to help provide suggestions. Select a recipient in advance so you can guide the den in choosing appropriate items for the package that the person might like. Scouts will need to bring assigned items to Meeting 2.

Meeting 3 will be a den outing to the local police or fire department, or another service agency, to learn about heroes in the community (requirement 2). In advance of the outing, the leader will need to make arrangements with the outing location and confirm the outing plan with families, including transportation and any additional items they need to bring. Make sure a tour and activity plan has been submitted and activity consent forms are distributed and signed.

The den leader will need to select an appropriate local event to complete requirement 6 and coordinate details of participation with families. The adventure could be coordinated around a pack event or a special day when events are often held, such as Veterans Day, Memorial Day, National Police Day, International Firefighters' Day, or other similar days.

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Items for the Rescue Game (Gathering)
 - 1 large bowl
 - Drinking straws (one per Scout)
 - Paper circles or cutouts (20 to 50 of these, 2 inches in diameter)
- Dry-erase whiteboard or poster board for listing heroes (Talk Time)
- Items for Fireman Relay Game (Activity 2)
 - 2 sets of dad-sized clothes (shirt or jacket, pants with suspenders, boots, and hat, plus a backpack)
 - 2 buckets
 - Blue and white paper streamers to fill the buckets, representing water
 - Cardboard boxes
- Words of the Scout Law, written on a poster board
- Printed list (one copy per Scout) of items needed for sending a military care package (e.g., toothbrushes, deodorant, chewing gum, books or magazines, writing paper, DVDs, CDs)
- If the den will have a visit from a person who works with animals trained to help people, confirm plans with the visitor and prepare thank-you notes.

GATHERING: RESCUE GAME

- Put the paper circles on a table and give each Wolf Scout a drinking straw when he arrives for the meeting.
- Have the boys stand single file beside the table. On the signal word, “rescue,” the boy in front picks up a paper circle by sucking it against the end of his straw. Then he hurries to the large bowl and drops the circle in—delivering the “rescued person” to safety. See how many can be saved by this very fine rescue brigade!

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Lead the den in singing the “Hometown Heroes” song, to the tune of “My Bonnie Lies Over the Ocean.”

*The firemen, they put out the fires.
The doctors, they make you feel swell.
Our teachers, they give us all knowledge.
Scout leaders teach us to do well!*

Chorus:

*Hometown heroes, thank you for all that you do. Thank you!
Hometown heroes, thank you for all that you do.*

*Cub Scouting will help us be leaders,
To help any person in need.
And someday we all could be heroes,
Just like our moms and dads—indeed!*

Repeat chorus.

TALK TIME (REQUIREMENT 1)

- Introduce the Hometown Heroes adventure to the den. Ask the boys what they think it means to be a hero, and list their responses on the whiteboard or poster board. Have each Scout name someone he considers a hero, and ask him to explain why.
- Help the Wolves decide on a military serviceman or servicewoman who is deployed overseas whom they will adopt as a den. Then hand out the list of items the den will need to send a care package at the next meeting. These should be things that remind people of home, encourage or entertain them, and help them pass the time. Make sure each boy is assigned to bring one or more items; they could also ask friends or neighbors for donations.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Animal Helpers

- Have Scouts sit in a location where they will be able to listen, and introduce the visitor. If the visitor has brought a service animal, remind Scouts that there are special guidelines for interacting with a service animal. Tell them that they should think of questions they might like to ask when the visitor has finished speaking. After the visitor completes his or her talk, allow time for Scouts to ask questions. Give the prepared thank-you note to the visitor and have Scouts thank him or her.

◆ Activity 2: Fireman Relay Game

- Divide the Scouts into two teams, lined up single file behind a starting line. Put one set of dad-sized clothes and a backpack on the floor in front of each team.
- At the other end of the room (15 to 20 feet away), stack a pile of cardboard boxes that will serve as a “house on fire.” Then give each team a bucket filled with a string of blue and white streamers—taped together to serve as “water.”
- At your signal, the first player on each team puts on the clothes and the backpack over his Cub Scout uniform, carries the bucket to the house, and pours out the streamers to douse the fire.
- Then the player puts the streamers back in the bucket, returns to the starting line, removes the fireman clothes, and hands the bucket to the next boy on his team. This continues until everyone has run the course; the first team to finish wins.

CLOSING

- Recite the Scout Law in unison. Have Scouts name a point of the Scout Law that heroes often demonstrate.

Do-at-Home Project Reminder:

Make sure all the Scouts remember to purchase items for the military care package and bring them to the next meeting. Also, each boy should get help from a family member to interview one of his heroes. This person might be a veteran, a police officer, a firefighter, or a schoolteacher—anyone who is open to telling his or her story. Each Scout will share what he learned with the den.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1 and 5.
- Work together to clean up the meeting place.
- Prepare thank-you notes for the Wolves to sign at the next meeting for anyone who will be helping with the den outing.

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Cards with names of famous heroes (Gathering)
- Words for the “Hometown Heroes” song on a poster board (Opening)
- Materials for the military care package
 - Box large enough to hold all the items
 - Packing supplies (tape, scissors, newspaper or other packaging material, marking pen)
 - Name and mailing address for package
 - Paper or a card to enclose a message signed by the Scouts
- Thank you cards for the den outing

GATHERING: NAME THE HERO

While waiting for everyone to arrive, give each Scout a card with the name of a famous real-life hero. He is not to show it to anyone. Then have the boys ask each other questions that can be answered only with “yes” or “no” (e.g., “Is your hero alive?” “Is your hero American?”) to help them guess who is who.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- If desired, lead the den in singing the “Hometown Heroes” song from Meeting 1.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Ask the boys if they have interviewed a hero (requirement 3) since the last meeting. Give each boy time to share what he learned from the interview.

ACTIVITIES

◆ Activity 1: Military Care Package (Requirement 4)

- Have Scouts prepare their care package for mailing. Before sealing it, they should sign a card with a special message to the recipient, thanking them for their service.
- Decide who will take the package to the post office, making sure a parent or other adult guardian will be there to assist. For help in addressing the package, visit www.usps.com/ship/apo-fpo-dpo.htm.

◆ Activity 2: Do This, Do That

- Have Wolf Scouts stand side by side in a line several feet behind a goal line. The den chief or den leader stands in front of the den and performs certain movements, saying “Do this” or “Do that” before each movement.
- If the instruction is “Do this,” all the players should immediately copy the action. However, if the leader says, “Do that,” they must NOT do it. A player who makes a mistake moves back one step.
- The first player to reach the goal line wins.

CLOSING

- Gather everyone together and ask each Scout to name one new thing that he learned at this meeting.
- Ask which point of the Scout Law the Wolves think of first when they are helping others. Why? Talk about how they felt when they finished preparing the military care package.
- Review details for the upcoming outing in Meeting 3. Make sure all Scouts and their families know the plans.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 3 and 4.
- Work together to clean up the meeting place.
- Have Scouts sign thank-you notes for anyone who helps with the outing.

MEETING 3 PLAN (Den Outing)

PREPARATION AND MATERIALS NEEDED

- Cards with names of famous heroes (Gathering)
- Confirm that a tour and activity plan has been submitted, if required, and that transportation to and from the event is in place. Secure activity consent forms.
- Unit den leader should have in possession (if required by local council practices) the tour and activity plan and a copy of the *Guide to Safe Scouting*.

GATHERING

- Have the Wolves play another round of Name the Hero (the Gathering game from the last meeting) until everyone has arrived for the outing.

OPENING

- Recite the Scout Law and ask Scouts to name points of the law they will demonstrate during the outing.
- Remind the boys that it is important to stay together, be on their best behavior, and use the buddy system.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- Have Wolves share things they would like to learn about during the visit.
- Review any questions the Scouts want to ask to make certain all are appropriate.

ACTIVITIES

◆ Activity 1: Visit a Community Agency (Requirement 2)

- Visit the location as a group, and take a guided tour if this is possible.
- Have Scouts ask the questions they prepared.
- When the visit ends, have the Wolves give their signed thank you cards to anyone who helped, including tour guides.

CLOSING

Gather the den in a Living Circle and have the Scouts say a special thank you to their hosts for being hometown heroes.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirement 2.

Upon completion of the Hometown Heroes adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack's tradition.

MOTOR AWAY

RATIONALE FOR ADVENTURE

We live in an electronic world. This adventure gives Wolf Scouts the chance to rely on the power in their own bodies by blowing air, throwing planes, or using rubber bands. They will have the chance to explore propulsion in its most basic form. Motor Away, Wolves!

TAKEAWAYS FOR CUB SCOUTS

- Learning to follow instructions
- Exploring how the tension in a rubber band affects propulsion
- Seeing if shape matters in a sail
- The value of cooperation
- Deductive reasoning
- A Scout is courteous. 

ADVENTURE REQUIREMENTS

Wolf Handbook, page 266

1. Do the following:
 - a. Create and fly three different types of paper airplanes. Before launching them, record which one you believe will travel the farthest and what property of the plane leads you to make that prediction.
 - b. Make a paper airplane catapult. Before launching a plane, record how far you believe it will travel and explain what information you used to make this prediction. After you make your prediction, launch the plane and measure how far it flies.
2. Make two different boats and sail them.
3. Create a car that moves under its own power.

NOTES TO DEN LEADER

In Den Meeting 2, Scouts will create boats made from recycled materials. Collect a variety of recycled materials in advance of Meeting 2, and request that Scouts also plan to collect and bring materials for the boats to ensure a good variety.

This adventure does not include plans for a den outing. If desired, an outing could be planned to an appropriate location where Scouts could explore movement in planes, boats, or cars. In advance of the outing, the leader will need to make arrangements with the outing location and confirm the outing plan with families, including transportation and any additional items they need to bring. Make sure a tour and activity plan has been submitted and activity consent forms are distributed and signed.

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Items for paper airplane investigations (Gathering, Activities 1 and 2)
 - Paper (enough for building at least five planes per Scout)
 - Directions printed from the *Wolf Handbook* for making a rubber band catapult and three types of paper planes: arrow, delta, and classic dart
 - Roll of masking tape
 - 6-foot table or 6' x 2.5' area marked off on the floor with the tape
 - Tape measure
 - Pencil
 - Scissors
- Items for the “On Base” game (Activity 3)
 - 2 placemats or squares of cardboard for each Scout
 - Chalk

GATHERING: THE RESCUE GAME

- As Scouts arrive for the meeting, have them use the table or marked-off area as an “aircraft carrier” for landing paper airplanes. Put pieces of tape through the middle of the simulated carrier to form a straight dashed line.
- Have the den chief teach the Scouts how to fold a paper airplane. Then each boy, in turn, creates and throws a plane across the room and in for a landing, without it falling into the “ocean.”

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Optional: Read the following quote from Orville Wright: *“We were lucky enough to grow up in an environment where there was always much encouragement to children to pursue intellectual interests; to investigate what ever aroused curiosity.” Orville Wright was one of the inventors of the airplane. In this adventure, we will follow his example and explore how things work. Who knows what you will discover next? Please join in the Pledge of Allegiance to our flag.*

TALK TIME (REQUIREMENT 1)

- Introduce the Motor Away adventure to the den. Build interest by describing the goals of the adventure and some of the activities that are planned. Ask Scouts to share different ways that people have the power to make things move.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Up and Away (Requirement 1a)

- First, have each Scout build all three of the paper airplane models described in the *Wolf Handbook*: arrow, delta, and classic dart.
- Before the flight tests begin, have each Scout estimate and record his prediction on which model he thinks will fly the farthest. Have the boys base their decisions on various factors including the length, weight, and wing design of each plane.
- When all the planes have been tested, give the Scouts time to compare their results.

◆ Activity 2: Catapults (Requirement 1b)

- Now, instead of using their arms to thrust the planes forward, it's time for each Scout to build a rubber band catapult, following the directions in the *Wolf Handbook*.
- Again, after everyone has launched, have the Wolves compare their results.

◆ Activity 3: "On Base" Game

- Give each boy a pair of bases (placemats or cardboard squares), and draw start and finish lines using the chalk. Have the Scouts line up side by side behind the start line.
- Each player begins by standing on base #1 and holding base #2 in his hands. He throws or places base #2 on the ground ahead of him, and moves forward by stepping or jumping onto it. Then he picks up base #1, throws or places it ahead of him, and continues the pattern until he reaches the finish line. The first player to get there wins.
- Most will be tempted to play the game quickly—but remind them that, sometimes, slow and steady wins the race.

CLOSING

- Have the Wolves form a friendship circle: All arms are crossed with each person extending their right arm over their left and grasping the left hand of the person beside them.
- Each Scout, starting with the denner and moving right, says one thing he learned from this meeting about how to fly a paper airplane.
- Remind Scouts to collect and bring recycled materials for making boats during Meeting 2.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1a and 1b.
- Work together to clean up the meeting place.

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Items for Sponge Boats (Activity 1)
 - Craft foam (enough for everyone to make a sail)
 - Cardboard stencil (right-angle triangle, 3 inches high with a 2-inch base; two copies for the den to share)
 - Kitchen sponges (one per Scout)
 - Pencils (one per Scout)
 - Straws cut into 4-inch pieces (one piece per Scout)
 - Children's scissors (one pair per Scout)
 - Hole punch
 - Hot glue gun with glue stick (for adult use only)
- Items for Recyclable Boats (Activity 2):
 - 1 straw and 1 large paper clip for each Scout
 - Recyclable materials (e.g., cardboard, milk or juice cartons, poster board, foam scraps, spools, corks, Styrofoam pieces, craft sticks, small plastic containers)
- 1 large container for floating boats—such as a tub or child's pool (Activity 3)

GATHERING: RUNAWAY TRAIN CARS

- Once three or four Scouts have arrived for the meeting, designate one of them to be “It,” or the train’s locomotive; the rest will be runaway cars. The locomotive must catch the runaway cars by tagging them. Whenever a car is tagged, that player hooks up behind the locomotive and the game continues.
- As each new Scout arrives, he joins the game as another runaway car. Keep the game going until the train is completed or it is time to start the meeting.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES (REQUIREMENT 2)

◆ Activity 1: Sponge Boats

- Each Scout traces a sail on his craft foam—using one of the stencils—and cuts it out with the scissors. He then punches two holes in his sail, one in the corner of the right angle and one at the top, and pokes the straw through the two holes to make a mast.
- Stick the bottom of the straw into the sponge. (A dab of hot glue will help to keep it in place. Make sure only adults use the glue gun.) This completes the boat.

◆ Activity 2: Recyclable Boats

- Place the recyclables on a table and have the Scouts choose any pieces they want to build their second sailboat. Remind them that the resources are limited: “A Scout is courteous,” and they can practice this point of the Scout Law by sharing with others in the den.
- To make a mast for each boat, twist a large paper clip into a right angle with the two ends folded into loops. The small section of the paper clip can fit into the center of a straw, and the large side can be hot-glued to a hard surface to finish the mast.

◆ Activity 3: Sailing

- Have each Scout float the two boats he made in the pool or tub of water.
- Then ask: *How did the boats move in the water? Which type of boat worked best? Was one design better than the other to propel the boat forward?*

CLOSING

- Again, end the meeting by bringing the den together in a friendship circle. Starting with the denner and moving right, have each Scout say one thing he learned about how sailboats operate.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirement 2.
- Work together to clean up the meeting place.

MEETING 3 PLAN

PREPARATION AND MATERIALS NEEDED

- Items for the “Stacking Logs” game (Gathering)
 - Toothpicks (10 per Scout)
 - 2 small-mouthed bottles
- Items for making “self-powered” cars (Activity 1):
 - Balloon option: 1 balloon, 2 straws, 4 spools, 4 straight pins, and 1 clean, dry half-gallon milk carton with the top cut off and cut in half lengthwise
 - Spool car option: 2 spools, 1 pencil, 2 rubber bands, 2 washers, 4 paper clips, tape
- 3-foot sections of rope (Closing, one per Scout)

GATHERING: “STACKING LOGS” GAME

- Give each Wolf Scout 10 toothpicks, or “logs,” when he arrives for the meeting. Once you have a group of three or four Scouts, hand them one of the bottles. (When the other half of the den arrives, give them the other bottle.)
- The first player balances a log across the open neck of the bottle. The next boy puts another log alongside or on top of it. The third player adds one of his, and so on until someone causes his own log or any of the others to fall; that boy must pick up and keep the logs that dropped to the floor. The game continues until one of the players is left without any logs and wins.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance.
- As the den chief calls roll, each Scout responds by naming a point of the Scout Law. Then the entire den recites the remainder of the 12 points in unison.

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Self-Powered Cars (Requirement 3)

- Using the directions in the *Wolf Handbook*, have each Scout create a spool car or a balloon car. (Note: Check to be aware of any latex allergies in the den.)
- When all the Scouts have built their cars, use masking tape to mark start and finish lines on the floor, and hold several races.

◆ Activity 2: Tunnel Relay

- Divide the den into two parallel teams, standing single file with their legs spread apart. The back player on both teams crawls between the legs all the way to the front, then stands with his feet apart and yells, “All clear!” The other players follow in succession; the first team to finish the cycle wins.
- If you don’t have an even number of Wolves, put the den chief on one of the teams. If the den is small, play with just one team and go through several rounds. Clock the Scouts on the first round and see if they can beat their time when they go again.

CLOSING

- Give each Scout a 3-foot section of rope. Each boy ties his rope to the rope on his right, using a square knot, until all the ropes are tied in a big circle. Then everyone carefully leans back to make a taut circle. Say: *You are part of a group of close friends, held together by the square knot—a symbol of friendship.*
- Starting with the denner and moving right, have each Scout say something he learned about propulsion and momentum from making and racing his car.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirement 3.
- Work together to clean up the meeting place.

Upon completion of the Motor Away adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack's tradition.

PAWS OF SKILL

RATIONALE FOR ADVENTURE

In this adventure, Wolf Scouts will learn the importance of teamwork and good sportsmanship, as well as keeping themselves healthy and fit.

TAKEAWAYS FOR CUB SCOUTS

- Observation and listening skills
- Learning to follow instructions
- Helping each other as a team
- Being fair and respectful in competition
- Living the Scout Oath and Scout Law
- A Scout is helpful. 

Wolf Handbook, page 282

ADVENTURE REQUIREMENTS

1. Talk with your family and den about what it means to be physically fit. Share ideas of what you can do to stay in shape.
2. With your den, talk about why it is important to stretch before and after exercising. Demonstrate proper warm-up movements and stretches before and after each activity you do that involves action.
3. Select at least two physical fitness skills and practice them daily. See if you can improve over a two-week period.
4. With your family or your den, talk about what it means to be a member of a team. Working together, make a list of team sports, and talk about how the team works together to be successful. Choose one and play for 30 minutes.
5. With your den, talk about sportsmanship and what it means to be a good sport while playing a game or a sport. Share with your den how you were a good sport or demonstrated good sportsmanship in requirement 4.
6. Visit a sporting event with your family or your den. Look for ways the team works together. Share your visit with your den.
7. With your den, develop an obstacle course that involves five different movements. Run the course two times and see if your time improves.

NOTES TO DEN LEADER

Meeting 2 will include a game of kickball or a similar team sport to be selected by the den and den leader. If your regular meeting location does not have access to an appropriate and safe space for the selected sport, you will need to make arrangements in advance for an alternative meeting location.

Meeting 3 will be an outing to a sporting event. You will need to identify a sports event in your community and contact the team at least a month in advance to arrange a visit with one of the team's players or an expert on the sport before the event starts. In advance of the outing, confirm the outing plan with families, including transportation and any additional items they need to bring. Make sure a tour and activity plan has been submitted and activity consent forms are distributed and signed.

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Poster board or whiteboard and marker (Talk Time)
- Jump ropes—one to three, depending on the size of the den (Activity 2)
- A copy of the *Wolf Handbook* for each Scout. Provide extra printed copies of the fitness log in the *Wolf Handbook* for requirement 3 in case some Scouts do not have their handbooks.
- Obstacle Course materials for Activity 2, such as: a table or bench; 6-foot-long 2x4 board for a balance beam; small balls or beanbags and a bucket; 1 pool noodle and 2 cinderblocks; a tunnel made from a long, wide box; several hula hoops; a sprinkler; plastic cones; playground balls or balloons (check for latex allergies)

GATHERING: STRETCHES

Have the Wolf Scouts do some stretching exercises until everyone has arrived for the meeting. (See suggestions in Meeting 1 Resources.)

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.
- Optional opening: Stand in a circle, allowing a small circle of space around each Scout. Recite the Scout Oath, and tell Wolf Scouts that when they say the phrase “To keep myself physically strong,” they should each silently take a still pose (like a statue) that shows an activity that could keep them physically strong. For example, if a Scout likes baseball, he could show a pose depicting a batter swinging or a pitcher throwing. Have Scouts pause for a moment in their poses before continuing with the Scout Oath.

TALK TIME (REQUIREMENT 1)

- Introduce the Paws of Skill adventure to the den. Lead a conversation about ways to maintain physical fitness. Emphasize the importance of regular exercise and a nutritious diet, and give each boy an opportunity to name some healthy foods and activities.
- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- As a lead-in to Activity 1, talk about the importance of warm-up stretches before an exercise workout, sports game, or other physical activity.

ACTIVITIES

◆ Activity 1: Warm-Up and Exercise Stations (Requirement 2)

- Have the Scouts perform warm-up stretches for several minutes before starting this workout to get their hearts ready for activity and to loosen their muscles so they can avoid injury. (See the *Wolf Handbook* for examples of these exercises.)
- Set up exercise stations so the Scouts can practice the following with the den chief's assistance and supervision: jumping jacks, sit-ups, push-ups, and jumping rope.
- To finish, the Scouts should spend a few minutes cooling down with the same slow stretches they practiced before the workout.
- Have Scouts look at the requirement 3 exercise log in the *Wolf Handbook*. Each Scout should decide on two exercises to do daily at home during the next two weeks. He will keep his log updated and bring it to share at Meeting 3 (the den outing).

◆ Activity 2: Obstacle Course (Requirement 7)

- Have the den develop and run an obstacle course that involves five challenging movements. Use the suggestions in the *Wolf Handbook*, or try a few of these:
 - Forward rolls or long jumps
 - Crawling through a box tunnel
 - Walking along a balance beam
 - The boys jump like kangaroos with a ball or balloon between their knees.
 - Tie five hula hoops together and lay them on the ground. Have everyone run through, putting one foot in each hoop.
 - Hurdle jump: Loop a pool noodle over the ground by sticking the two ends in cinderblocks.
 - Crab walk: Each Scout sits on the ground, then rises with his back parallel to the surface and moves backward on his hands and feet.

CLOSING

- Have the Wolves form a friendship circle: All arms are crossed with each person extending their right arm over their left and grasping the left hand of the person beside them.
- Starting with the denner and moving right, have each Wolf Scout say which exercises he plans to do at home.

Do-at-Home Project Reminder:

Scouts will need to practice the two selected fitness skills every day for two weeks. Remind Scouts that they should always start and finish their home workout sessions with the warm-up/cool-down exercises.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1, 2, and 7.
- Work together to clean up the meeting place.
- Prepare thank-you notes for the Wolves to sign at the next meeting for anyone who will be helping with the den outing.

MEETING 1 RESOURCES

GATHERING: STRETCHES

Feel free to substitute with other stretching exercises if you wish, but here are a few suggestions.

Reach for the Sky

1. Stand straight and tall.
2. Stretch your right hand with your fingers spread open toward the sky.
3. Bend to your left side and let your right hand stretch over your head, reaching and stretching to your left side.
4. Count to 10 while slowly breathing in and out.
5. Repeat with your left hand while leaning to the right.

Picking Cherries

1. Stand with your feet spread apart.
2. Bend over and touch the floor in front of you.
3. Touch the floor immediately between your legs.
4. Touch the floor behind your legs.
5. Stand up and clap your hands.
6. Repeat.

Reach Out

1. Sit on the floor with your legs spread apart.
2. Reach with both hands and try to touch your right foot.
3. Stretch as far as you can, straight between your legs. (Can you touch your chest to the floor?)
4. Reach with both hands and try to touch your left foot.
5. Repeat.

The Lean Back

1. Get on your knees, keeping your thighs in a vertical position.
2. Put your arms out straight in front of you.
3. Lean back as far as you can and hold the position for 5 seconds.
4. Relax for 5 seconds.
5. Repeat.

MEETING 2 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- 1 kickball and 4 bases or other equipment needed for other sport options to be selected by the den (Activity 1)
- Thank you cards for the den outing
- Confirm that the meeting location has an appropriate space for the selected sport and that the den has permission to use that space.

GATHERING

- As Scouts arrive, have them do the stretching exercises they learned at the last meeting as preparation for their game of kickball.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and, as appropriate, the Scout Oath and Scout Law.

TALK TIME (REQUIREMENT 5)

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts. Focus part of the time on how each boy's daily exercise routine is going.
- Have the den work together to make a list of team sports and talk about specific ways that various sports teams work. Discuss good sportsmanship, doing your best, and how it feels to be part of a successful team. Have the team select a sport to play, such as kickball, for which the leader has appropriate space and equipment.

ACTIVITIES

◆ Activity 1: Kickball (Requirement 4)

- Divide the den into two teams and have them play a game of kickball for half an hour (see Meeting 1 Resources for directions). This will complete requirement 4.
- Make sure the Scouts follow these tips to ensure good sportsmanship:
 - Play by the rules.
 - Be courteous to everyone.
 - Cheer for good plays.
 - Try your best.
 - Play to have fun.
 - Shake hands after the game.

CLOSING

- Have the Wolves form a friendship circle. Remind them of how they practiced good sportsmanship during their game of kickball.
- Starting with the denner and moving right, have each Wolf mention one way that he and the others played like good sports.
- Confirm plans for the following meeting's den outing to a sporting event. Make sure all transportation needs are covered and that all Scouts and parents know the plans.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 4 and 5.
- Work together to clean up the meeting place.
- Have Scouts sign thank-you notes for anyone who helps with the outing.

MEETING 2 RESOURCES

ACTIVITIES

◆ Activity 1: Kickball (Requirement 4)

- Similar to baseball, the object is to kick the ball and run around the bases without being tagged out.
- Arrange the four bases like a baseball diamond. Divide the Scouts into two teams, and toss a coin to decide which team kicks first. The other team (the fielding team) selects a pitcher, and his teammates go to the field and stand ready to play.
- The pitcher rolls the ball to a kicker on the offensive team, who kicks it into the outfield and tries to run the bases. If the ball is caught before the kicker reaches first base, he is out. If the ball is caught and thrown to a field player near first base who catches it while touching the base, the kicker is forced out.
- A kicker can also be tagged out if a field player holding the ball tags him or if a player throws the ball and hits him while he isn't touching a base. If a thrown ball misses him, he may only run to the next base.
- After three outs, the teams switch places. A team gets one point for having a runner make it all the way around the bases and back to home base.

MEETING 3 PLAN (Den Outing)

PREPARATION AND MATERIALS NEEDED

- Confirm that all have the date and time, meeting place, and directions for the outing. Make sure you carry a list of contact numbers for the Scouts and all adults going to the facility. Make sure everyone has their tickets, if required, and collect their signed activity consent forms.
- Unit den leader should have in possession (if required by local council practices) the tour and activity plan and a copy of the *Guide to Safe Scouting*.
- Bring the thank-you notes the Scouts signed.

GATHERING

While waiting for everyone to arrive for the sporting event, have the Scouts sit in a circle and play “My Cubmaster Cooks.”

- One Scout starts the game by saying, “My Cubmaster cooks apples (or some other food that starts with an A) on his campfire.”
- The Scout to his right repeats this and adds something that starts with B, such as “beets” or any other silly thing like “bats” or “bears.”
- As the game goes around the circle, each boy in turn must repeat everything that has been named before and add a word that starts with the next letter of the alphabet.
- Continue passing the sentence around the circle until the game has gone through the entire alphabet. Eventually it will sound like: “My Cubmaster cooks apples, bugs, crickets, donkeys, elephants, . . . and zebras on his campfire.”

OPENING

- Assemble the group, and review any conduct rules and the buddy system.
- Say the Pledge of Allegiance. If the den does not have a United States flag on the outing, ask one Scout to display the flag on his uniform for the group.
- Ask the boys to name points of the Scout Law they will demonstrate during the outing (friendly, courteous, etc.).

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.
- If one or more of the team players or another expert on the sport will be speaking to the den, review the Scouts' questions to make sure all are appropriate.
- Collect the activity logs the boys recorded at home and give them time to share about exercises they did.

ACTIVITIES

◆ Activity 1: Visit to a Sporting Event (Requirement 6)

- Invite the speaker(s) to introduce the Wolf Scouts to the facility, the team, or anything else they want to share (e.g., interesting facts or a demonstration by the team).
- When all questions have been answered or after the outing, make sure the Wolves give their thank you cards to the speakers and anyone else who helped out.
- During the event, tell the Scouts to observe how the athletes warm up and how they cool down after their activities. If the boys are watching a game, make sure they observe how the players work together on both teams.

CLOSING

Have the Wolves form a friendship circle. Starting with the denner and moving right, each Scout will share one way that he saw teamwork in action during the event.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 3 and 6.

Upon completion of the Paws of Skill adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack's tradition.

NOTES

SPIRIT OF THE WATER

RATIONALE FOR ADVENTURE

Water, water everywhere—water to drink, water to cook our food, water to clean our bodies and our teeth, and water to play in! In this adventure, Wolf Scouts will learn how to conserve water and keep it clean in their homes and neighborhoods. Then they'll have a chance to swim together, having fun and practicing aquatics safety.

TAKEAWAYS FOR CUB SCOUTS

- Water conservation
- Aquatics safety
- Skill development
- Physical fitness
- A Scout is loyal, obedient, brave. 

Wolf Handbook, page 294

ADVENTURE REQUIREMENTS

1. Demonstrate how the water in your community can become polluted.
2. Explain one way that you can help conserve water in your home.
3. Explain to your den leader why swimming is good exercise.
4. Explain the safety rules that you need to follow before participating in swimming or boating.
5. Show how to do a reaching rescue.
6. Visit a local pool or public swimming area with your family or Wolf den. With qualified supervision, jump into water that is at least chest-high, and swim 25 feet or more.

NOTES TO DEN LEADER

An overview of BSA swimming and water activities is included in the Appendix. In preparation for any in-water activity, you should complete the BSA online training for Safe Swim Defense. This training outlines how to help lead a safe swimming activity with a Cub Scout pack, Boy Scout troop, or Venturing crew. The training is available at www.myscouting.org.

Meeting 2 will be an outing to a local pool or other swimming area for completion of requirements 3, 4, 5, and 6. Many councils have an aquatics committee able to provide guidance, personnel, pool access, and other resources. Parts of the adventure, including the den outing, may be easier to complete at a Cub Scout day camp or resident camp that offers access to qualified swimming instruction.

Identify the location well in advance of the outing and make arrangements with the staff member in charge. Review in advance the BSA Safe Swim Defense and Safety Afloat procedures. Confirm that all necessary supervision and safety measures will be in place for the outing. Also confirm plans with families, including place, time, and transportation. Secure activity consent forms and submit a tour and activity plan, which the BSA requires for all unit trips that involve swimming. (See the Meeting 2 Plan for more information.)

See the Appendix for optional den meeting activities, including openings, gatherings, and closings.

MEETING 1 PLAN

PREPARATION AND MATERIALS NEEDED

- U.S. and den flags
- Bubble solution and wands for blowing bubbles (Gathering)
- Words for the Water Conservation Song written in large print on a poster board (Opening)
- Materials for the Water Pollution Demonstration (Activity 1): glass baking pan; powdered drink mix; sand; book or small block of wood; spray bottle filled with water
- Materials for the Pollution Obstacle Course (Activity 2): eight plastic cones or buckets; signs; chalk or tape

GATHERING

- Provide bubble solution for Wolf Scouts to blow bubbles while they wait for everyone to arrive.
- If possible, make a variety of wands available so the bubbles will be in different shapes.

OPENING

- Conduct a flag ceremony of your choosing that includes the Pledge of Allegiance and the Scout Law.
- Lead the den in singing the Water Conservation Song (to the tune of "Row, Row, Row Your Boat"):

*Turn, turn, turn off the tap,
Be sure to fix those leaks.
You'll be saving drops of water
Each and every week.*

*Wash your dishes, cars, and bikes,
But don't let water run.
Saving water is our game
So we can have more fun!*

TALK TIME

- Carry out business items for the den.
- Allow time for sharing among Cub Scouts.

ACTIVITIES

◆ Activity 1: Water Pollution Demonstration (Requirement 1)

- Have the Scouts perform this demonstration, following the directions in the *Wolf Handbook*.
- As a group, reflect on the demonstration and some of the causes of water pollution they might have witnessed. What can they do to help at home and in the community?

◆ Activity 2: Pollution Obstacle Course

- If possible, the den should play this activity outside with these materials: 8 plastic cones or small buckets; signs on sticks; and tape or chalk for marking start and finish lines.
- First, the Scouts use the cones or buckets to set the obstacles over an area of 10 to 15 feet.
- Then they place one sign at each obstacle, each with a label:
 - Candy wrappers
 - Fertilizer
 - Grass clippings
 - Leaves
 - Litter
 - Pesticide
 - Pet waste
 - Plastic bags

- Together, the Scouts pretend to be a stream of water that must remain clean so it can fill a swimming pool or serve as drinking water. They stand single file at the starting line, each boy putting his hands on the shoulders of the boy in front of him. On signal, they move as quickly as possible through the course without anyone letting go or touching any of the obstacles.
- If the den is large, divide the Scouts into two teams. They can take turns running the course while the den chief clocks their time.

◆ **Activity 3: Conservation Quiz (Requirement 2)**

- Quiz the Scouts on how to save water in five different activities listed below. Guide them toward the answers presented here.
 1. **Brushing your teeth:** Turn off the tap while you brush, then turn it back on when you are ready to rinse your mouth. This may save up to eight gallons of water a day in one household—more than 200 gallons a month!
 2. **Bathing:** Take a shower instead of a bath, and limit it to five minutes. A shower with a low-flow head uses less water than filling a bathtub.
 3. **Washing your hands:** Turn the faucet off completely when you are finished, and make sure to fix all faucet leaks. A tiny drip can waste up to 10 gallons a day.
 4. **Watering the lawn:** Do this early in the morning or late in the evening so the water won't evaporate in the heat of the day.
 5. **Washing your bike:** Do this with a bucket that you can refill instead of running a hose the whole time. If you need to wash a car, look for car washes that recycle their water.

CLOSING

- Gather the den together and say: *We have learned a lot about water conservation today. In the next meeting, we will learn about having fun in the water and keeping ourselves and others safe.*
- Recite the Scout Oath.
- Review details for the upcoming outing in Meeting 2. Make sure all Scouts and their families know the plans.

AFTER THE MEETING

- Serve refreshments, if desired.
- Record completion of requirements 1 and 2.
- Work together to clean up the meeting space.
- Prepare thank-you notes for Wolves to sign at the next meeting. The notes should be given to anyone who helps with the outing, including lifeguards at the pool or swimming area.

MEETING 2 PLAN (Den Outing)

PREPARATION AND MATERIALS NEEDED

- Pool noodles or towels to use for the reaching rescue
- One buddy tag for each Scout
- This meeting, a den outing to a local pool or other swimming area, may necessitate more than one visit for all the Scouts to meet requirements 3, 4, 5, and 6. The size of your den may determine how you wish to proceed.
- A Cub Scout day camp or resident camp may be a good site for the outing if qualified swimming instruction and boating resources are available there. Consult with your local council.
- You might also consider local schools, colleges, YMCAs, Boys & Girls Clubs, or the local Red Cross chapter. Your council aquatics committee may be able to help arrange facilities and personnel.
- Swimming activities must be supervised by an adult with current Safe Swim Defense training. All leaders for this adventure should consider taking or renewing such training. You may also want to invite a BSA Lifeguard. ONLY experienced, trained individuals should conduct swimming instruction.
- Confirm that a tour and activity plan has been submitted, if required, and that transportation to and from the event is in place. Secure signed activity consent forms.
- Unit den leader should have in possession (if required by local council practices) the tour and activity plan and a copy of the *Guide to Safe Scouting*.

GATHERING

While waiting for everyone to arrive at the site, remind the boys of appropriate behavior including safety considerations. Point out any rules at the swimming area beyond the basic safety rules of the BSA.

OPENING (REQUIREMENT 4)

- Say the Pledge of Allegiance.
- Ask Scouts to name points of the Scout Law they will demonstrate during the outing (obedient, courteous, etc.).
- Review the buddy system: A buddy is someone to help if you get into trouble, and you can help him if he needs it.
- Have the Scouts repeat the safety rules you reviewed in the Gathering. As a den, recite the SCOUT water safety chant in the *Wolf Handbook*.

TALK TIME (REQUIREMENT 3)

- Carry out business items for the den.
- Have the Scouts tell why swimming is a great exercise. (Exercise strengthens the heart, muscles, and joints. Swimming is one of the best exercises, as it uses most of the body's muscles without putting much stress on the joints.)
- Introduce the response personnel and lifeguards who will assist with the outing. It is their job to oversee the swimming area and respond if someone gets into trouble. Always be very obedient to them; someone's life may depend on it. Make sure the Scouts know where the qualified adult supervisors will be located. Ask Wolves why response personnel and lifeguards are important to everyone there.
- Remind the boys that "A Scout is obedient" in observing safety rules when he is in or near the water. "A Scout is brave" in attempting things that make him uncomfortable. Some people are uncomfortable flying or being up high; others are uncomfortable jumping into water. Everyone is brave when they try to deal with those feelings, whether or not they conquer them.

ACTIVITIES

◆ Activity 1: Reaching Rescue (Requirement 5)

- Do a buddy check before allowing the Scouts to enter the water, and every 10 minutes throughout the session. You may want to assign this task exclusively to one adult.
- Before the boys enter the water, have them do simple warm-up activities, including stretching the torso, arms, and legs. Remind Wolves they must stay in the designated area during the activities—no more than chest-deep.
- Divide Scouts into buddy pairs, and have one pretend to be in trouble in the water while his buddy outside the pool will be the rescuer. First, the boy in the water calls out “Pineapple!” as a “safe word” (he should only call “Help!” in an actual emergency).
- Remind the Scouts that not every person in need will be able to call out for help, even though they are able to briefly struggle at the surface.
- The rescuer then lies down at the side of the pool and extends one arm to his buddy. Next, have the rescuer extend one leg while holding on to the side of the pool. Finally, have him attempt the rescue with a pool noodle or a towel. Then let the buddies switch places and repeat the process.

◆ Activity 2: Jumping In and Swimming (Requirement 6)

Leaders should be cautioned that those without experience in deep water should not jump into it without coaching, practice, and guidance. Scouts who do not have swimming experience should have special attention and guidance from an experienced, trained instructor in order to work on this requirement. Before each Scout enters the water, ask first if he has ever jumped into chest-deep water. It is very important that you understand his comfort level; if he seems nervous, allow him to first slide into the water or step into it using the ladder.

To teach a simple jump entry, the instructor will have the participant stand at the pool or dock edge where the water will be chest-deep but less than chin-deep. (Chest-deep is the limit for nonswimmers.) The Scout should bend slightly at the knees and hop forward as if trying to land with both feet together on the surface of the water. Arms should be extended forward with the body leaning slightly forward from the waist. The participant should jump away from the side, rather than try to land close enough to grab hold.

The Scout’s feet should gently touch the bottom when he jumps in. He should then use the bottom to push off to get started in his attempt to swim 25 feet. Have him lean forward and begin swimming as he comes up. Any surface stroke the Scout is comfortable using is acceptable for fulfilling requirement 6.

Upon completion of the Spirit of the Water adventure, your Wolves will have earned the adventure loop shown here. Make sure they are recognized for their completion by presenting the adventure loops, to be worn on their belts, as soon as possible according to your pack’s tradition.

MEETING 2 RESOURCES

BSA SAFE SWIM DEFENSE

BSA groups shall use Safe Swim Defense for all swimming activities. Go to www.scouting.org/HealthandSafety/GSS/toc.aspx for detailed information about the eight principles.

1. Qualified supervision
2. Personal health review
3. Safe area
4. Response personnel (lifeguards)
5. Lookout
6. Ability groups
7. Buddy system
8. Discipline

Home Swimming Pool Safety for Unit Events

All elements of Safe Swim Defense apply at backyard pools even though they may be small, shallow, and familiar. The biggest danger is probably complacency. Adult supervision must be continuous while the pool is in use. A Cub Scout who can't swim can drown silently within 20 seconds of entering water over his head.

Aquatics Supervision contains safety information specific to both in-ground and above-ground backyard pools. That includes the following:

- Most such pools are too shallow for diving. Diving prohibition should be discussed at a tailgate review for all participants prior to the activity.
- Beginner and swimmer areas may be combined in small, relatively shallow pools.
- Make sure to control access. Many backyard pools are too small to accommodate an entire pack at once. If other activities are also taking place, it may be best to allow only one den into the water at a time rather than allowing Scouts to move at will in and out of the water.
- Many states require pool fencing, which may help with supervision.
- If the uniform depth of an in-ground pool is too deep for short nonswimmers, they may need properly fitted life jackets.
- Rescues, if needed, should be simple. Provide reaching and throwing devices for active victims. A wading assist may be feasible for passive victims.
- For above-ground pools without decks, have a plan to remove large unresponsive adults who suffer a heart attack or other debilitating condition.

Guarded Public Pools With Lifeguards on Duty

Aquatics Supervision also covers swimming at public pools, waterparks, and guarded beaches.

Important items include the following:

- Dens and packs do not need to assign and equip rescue personnel. Professionally trained lifeguards provided by the venue satisfy that need.
- Unit leaders are still responsible for medical screening, ability groups, the buddy system, discipline, and supervision.
- Many public pools will have a safety line at the five-foot mark separating shallow and deep water that can be used to help designate appropriate areas for the different ability groups.
- Otherwise, appoint adult lookouts to make sure nonswimmers and beginners stay in their assigned areas.

Studies show that more than half of victims at public pools are spotted first by others rather than lifeguards. The buddy system is still very important for safety as well as instilling responsibility. It is likely awkward to conduct frequent buddy checks. Therefore, arrange a time for everyone to leave the water and meet at a given location. Then do a head count. Otherwise rely on unit lookouts, buddies, and lifeguards to maintain vigilance. At large waterparks, leaders should accompany dens moving from one feature to another after everyone in the group is accounted for.

SAFETY AFLOAT (Boating Safety)

BSA groups shall use Safety Afloat for all boating activities. Go to www.scouting.org/HealthandSafety/GSS/toc.aspx for more information on the nine principles.

1. Qualified supervision
2. Personal health review
3. Swimming ability
4. Life jackets
5. Buddy system
6. Skill proficiency
7. Planning
8. Equipment
9. Discipline

Water Rescue

Water rescue training for the lay rescuer often uses a reach, throw, row, go mnemonic to establish a safe, effective sequence for responding to water emergencies. That sequence is important to Cub Scout leaders for two distinct reasons. First it establishes the procedure that response personnel under Safe Swim Defense should follow. If professionally trained lifeguards are not available at a swimming location, then the qualified supervisor has to provide personnel and equipment suitable for likely emergencies. Fortunately, that is often not as difficult as it might first appear. For that reason, a review of the reach, throw, row, and go sequence is appropriate. Important detail can be found in *Aquatics Supervision*.

The other reason for reviewing the sequence is for age-appropriate training of youth. Drowning is the second-leading cause of accidental death for those of Cub Scout age. Therefore, there is a chance that Cub Scouts will be faced with seeing someone in trouble. That possibility is further supported by the Scouts in Action reports in *Boys' Life* magazine. Cub Scouts do save people from drowning.

However, there are also double drownings that occur yearly in the United States when well-meaning people of all ages attempt to save drowning victims. Those are often frantic friends and relatives whose swimming skills are no better than those of the person in trouble. Since Cub Scouts often lack swimming skills and the maturity to realize their limitations, it is important to modify the rescue sequence for Cub Scout training to reach, throw, row, and go for help.

Reach: This technique is appropriate to teach Cub Scouts, parents who are nonswimmers, and rescue personnel who are skilled in the water. People who can't swim often begin to struggle immediately after they step into or fall into water over their heads. That is likely to be very close to safety. If so, the rescuer should lie down, reach out, and grab the person. Laying down is necessary since the person in the water will likely stop all effort to remain afloat, and that sudden increase in weight can topple an unprepared rescuer into the water. If the victim is a bit further out, an extension device such as a pole, paddle, or noodle can be used. Those should be swept to the person from the side, not used like a spear. Victims often cannot reach for an extended item, even if it is just a foot away. Rescuers should therefore be told to place the item under the person's arm or within his grasp. Rescuers should also be told to provide loud, clear, simple instructions to the victim, for example "GRAB THIS!"

Throw: The second procedure in the sequence, used when the person is too far out to reach, is to throw the person an aid. A throwing rescue is also appropriate to teach to rescuers of any age and swimming ability. A float with a line attached is best, but any light floating item or a rope by itself may be used. An accurate first toss is required if a line is not attached, but throwing a line takes practice. Ring buoys are often found at hotel and apartment pools and are good devices for Cub Scout practice. Leaders may also fashion throwing devices from light floating line and a plastic jug with just a bit of water in it for weight. A throwing rescue is best suited to poor swimmers in trouble. Drowning nonswimmers will not be able to reach for the object unless it lands within their grasp, nor will passive victims floating face down or on the bottom.

Row: A boat can be used to provide a mobile platform from which to do reaching or throwing assists. Since Cub Scouts often do not have the skills needed for a safe rowing rescue, this procedure is not emphasized for that age group. A boat rescue is also not a common part of an emergency action plan for a unit swim since the swimming area is typically small and within easy reach of shore-based response personnel.

Go: For Cub Scout training, this item should be interpreted as "go for help." That is, they should first shout for help, and if no one responds, seek out a responsible person such as a parent, lifeguard, or park ranger. Poor swimmers should not enter the water to attempt a rescue. On the other hand, a unit swim cannot rely on reaching or throwing rescues for emergency planning. An in-water assist will be needed for a parent suffering cardiac arrest in the water. At guarded swims, GO also means going with equipment since lifeguards or response personnel should never be without appropriate rescue aids.

NOTES

APPENDIX

The appendix gathers information that you may find helpful for leading any of the adventures.

Appendix 1: Parts of Your Meeting

◆ Gathering ActivitiesA-7

Baden-Powell Says.....	A-7
Concentration	A-7
Craft Stick Puzzles.....	A-7
Hot or Cold	A-7

APPENDIX 1

PARTS OF YOUR MEETING

GATHERING ACTIVITIES

◆ BADEN-POWELL SAYS

This game is played like Simon Says. The leader is at the front and gives a command to perform an action (i.e. "Stand on your left foot."). If the leader begins the command with "Baden-Powell says," then everyone does the action. If the action is done incorrectly, the boy is out. If the command does not begin with "Baden-Powell says," and the action is performed, the boy is out.

◆ CONCENTRATION

Select pairs from a deck of cards depending on the size of the den. Lay the cards out on the top of the table face down. Each player turns over two cards. If they match, he keeps the pair and wins a point. If they do not match, he turns the cards he selected face down in the same place, and the game continues to the next player. The Scouts can make their own sets of cards by selecting pictures from magazines to cut in half and mount on card stock.

◆ CRAFT STICK PUZZLES

Give each Scout the same number of craft sticks, laying them side by side to form a square. Each Scout draws a picture covering all the sticks. Once drawn, they trade pieces with another Scout, and try to put the puzzle back together.

◆ HOT OR COLD

Select a player to leave the room while an object is hidden. Select an item to hide in the meeting room. Once the player leaves the room and the item is hidden, the player comes back in and tries to locate the object. The player is given clues to the location by getting directions from the den such as "You're getting hotter" as they move closer, or "You're getting colder" as they move away from it. Signals can also be given by beating on the bottom of an aluminum pie plate with a spoon. As the player nears the item, the drum beats faster and louder; as the player moves farther away, the drum beats slower and softer.

◆ MARBLE GOLF

Create a three-hole marble "golf" course using items such as coins or buttons as the tee boxes and cups as the holes. Place each cup on its side several feet away from its tee box. Each Scout shoots his marble from the tee box toward the hole. The Scout should count his number of shots to get to the hole. Once the first hole has been conquered, he moves on to the next hole. The Scout with the lowest score wins. You can make the course harder by putting obstacles in the way.

◆ MILK JUG TOSS

Gather enough milk jugs for each member of the den to have one. Cut the bottom of the milk jug out so that it is large enough to catch a bean bag, ping pong ball, rolled up sock, or wiffle ball. Make sure to toss an item that will not hurt if it strikes the player and is soft enough not to break whatever it strikes.

◆ ODD OR EVEN

Every player starts with five pennies. They select a number between 0 and 5, and put that number of pennies in one fist. Go to different players and ask, "Odd or even?" If the players guess right, they win a penny. If they guess wrong, they lose a penny. Continue circulating among the players until time is up. (It is acceptable to ask the same player multiple times.)

◆ PONG

Create pairs of players, and seat them across from each other with table space between them. Each player has a straw, and each pair of players has a ping pong ball or cotton ball. Put the ball between the two players and say "Go!" The object is to blow the item off the table on your opponent's side.

◆ PUZZLE MANIA

Provide one small puzzle for each Scout. Place each puzzle in a plastic bag; however, put some of the pieces in different bags so that each Scout will have to go to the other Scouts to hunt for the pieces that match his puzzle. To make this more challenging, do not show them the completed puzzle pictures.

◆ STOPLIGHT (SIMILAR TO RED LIGHT, GREEN LIGHT)

The caller stands at the front of the room with one green bandanna, one red bandanna, and one yellow bandanna. The other boys should be lined up away from the leader. With his back to the players, the leader will hold up one bandanna at a time. The leader should keep the bandannas as hidden as possible to keep the next action a surprise. Red means stop, green means go, and yellow means go slow. The first boy to reach the leader becomes the leader and the game begins again.

OPENING CEREMONIES AND IDEAS

The following guidelines will help the den participate in ceremonies that are well prepared and well received:

- An opening ceremony signals the beginning of the den meeting. It also sets the tone for the meeting. Most opening ceremonies include a flag ceremony, which provides an opportunity to teach boys how to handle and present the U.S. flag in a respectful way. A closing ceremony brings the meeting to a close for the Scouts.
- Know your audience. Keep your openings and closings appropriate for boys of Cub Scout age. Simple ones are more effective than long, elaborate ones because boys this age have short attention spans.
- Rotate responsibilities among the boys in your den for the opening, flag, and even closing ceremonies at your den meeting. When boys are involved, it is easier to hold their attention during the meeting.
- Use a variety of ceremonies to hold the boys' and adults' interest. Keep track of which ones you use and avoid repeating them meeting after meeting. Variety is as important as length. Den openings and closings should be kept short. Openings should be no longer than two or three minutes. Closings may be a little longer but still should be age-appropriate.
- You may adapt any ceremony to meet your needs. Dens come in many different sizes, and boys come with different skill levels. Younger boys may need to have someone read their lines while they perform an action or hold a sign. No ceremony is written in stone. Feel free to make changes to work for you!
- **NOTE:** A prayer can also be added to each opening or closing.

CUB SCOUT/WEBELOS SCOUT LIGHT

The den leader asks den members to sit on the floor in a circle and dims the lights. Have a small candle and larger candle, plus matches, on a table. Flashlights or battery-operated candles may be used instead of regular candles and matches.

DEN CHIEF: I will light this small candle. It represents the goodwill given by one Cub Scout. See how it shines? The rays from several Cub Scouts make a brighter light. Each Scout lets his light shine by doing his best and helping other people.

DEN LEADER: I'll light this large candle. This represents that there is a brighter light that leads us all. Let us always think first of God, second of others, and finally of ourselves.

◆ DEN FLAG OPENING

The den forms a tight circle with the den flag in the center. Each boy grasps the flagpole with his left hand, makes the Cub Scout sign with his right hand, and says the Scout Oath.

◆ DEN YELL OPENING

Give your den yell.

◆ HANDSHAKE OPENING

The denner calls the roll, and each member of the den comes forward and gives him the Scout handshake.

◆ OPENING/CLOSING SONG CEREMONY

Select a song from the *Cub Scout Songbook* to sing as your opening or closing. You might also select a song related to the adventure to sing as the opening or closing ceremony.

◆ OUTDOOR CODE OPENING

Preparation: Five boys walk in with the U.S. flag.

CUB SCOUT 1: *As an American, I will do my best to be clean in my outdoor manners.*

NARRATOR: I will treat the outdoors as a heritage. I will take care of it for myself and others. I will keep my trash and garbage out of lakes, streams, fields, woods, and roadways.

CUB SCOUT 2: *As an American, I will be careful with fire.*

NARRATOR: I will prevent wildfire. I will build my fires only where they are appropriate. When I have finished using fire, I will make sure it is cold-out. I will leave a clean fire ring or remove all evidence of my fire.

CUB SCOUT 3: *As an American, I will be considerate in the outdoors.*

NARRATOR: I will treat public and private property with respect. I will use low-impact methods of hiking and camping.

CUB SCOUT 4: *As an American, I will be conservation minded.*

NARRATOR: I will learn how to practice good conservation of soil, waters, forests, minerals, grasslands, wildlife, and energy. I will urge others to do the same.

CUB SCOUT 5: *Let us think about these responsibilities as we stand and sing "America the Beautiful."*

◆ PLEDGE OF ALLEGIANCE OPENING

The den gathers in a semicircle or horseshoe formation. One boy presents the colors (the U.S. flag) at the open end of the horseshoe. In turn, each boy steps forward, gives the Cub Scout salute, and steps back. Follow with the Pledge of Allegiance.

◆ ROLL CALL OPENING

The denner calls roll, and the boys respond by naming an item related to the adventure.

◆ SCOUT LAW OPENING

The den forms a circle, gives the Cub Scout salute, and says the Scout Law. (Webelos Scouts may give the Boy Scout salute.)

◆ SCOUT OATH OPENING

The Cub Scouts form a large circle. Their adult partners, parents, or guardians (if present) form an outer circle by standing behind their Scouts. All say the Scout Oath in unison.

◆ SCOUT OATH OR SCOUT LAW MEANING OPENING

Select a phrase from the Boy Scout Oath or Scout Law, and talk about its meaning.

◆ ROLL CALL OPENING

(Can be adapted for Wolf or Bear Scouts)

As the den meeting host calls roll, each Tiger team responds with a loud tiger growl.

◆ T-I-G-E-R OPENING CEREMONY

Each Tiger holds a poster with a letter on it. After he shouts his letter, his adult partner reads the statement matching the letter. (Tigers only)

ADULT 1: *T is for TEAM, the Tiger team, a boy and his adult partner having fun together.*

ADULT 2: *I is for INTRODUCTION, showing us what Cub Scouting is all about.*

ADULT 3: *G is for GOOD TIMES, having fun together as a den and with your family.*

ADULT 4: *E is for EXPLORING, searching out new things to see and do.*

ADULT 5: *R is for READY, ready for new adventures together as a team.*

ADULT 6: *S is for SHARING, taking time to talk to each other about the fun things we get to do.*

◆ TIGER OPENING (OR CLOSING)

The Tigers and their adult partners stand in a circle and hold hands. In turn, each adult partner tells one thing the Tiger did since the last meeting to show that he did his best. End with everyone reciting the Cub Scout motto. (Tigers only)

FLAG CEREMONIES TO OPEN AND CLOSE DEN MEETINGS

Most den meetings will include the Pledge of Allegiance to the U.S. flag. It is appropriate to have a presentation of the colors and the Pledge of Allegiance at the beginning of the den meeting, with the retirement of the colors at the conclusion. On occasion, you can vary the opening ceremony and not use the flag. Patriotic ceremonies should be meaningful and inspirational for boys.

◆ FLAG CEREMONY PLANNING

When you take the time to plan ahead, the Cub Scouts will be prepared for a successful experience.

- When younger Cub Scouts are responsible for a flag ceremony, make sure the flags are not too heavy for the boys to carry.
- Check the ceiling height beforehand to determine whether the flags will clear it. If they won't, post the colors before the meeting.
- Rehearse the ceremony. Make sure everyone knows his part and walking route.

◆ CREATE YOUR OWN OPENING CEREMONY WITH THE U.S. FLAG

Use the following suggestions to make your ceremony effective:

- Have the color guard post the colors and retreat.
- Post the flag, and then create a slight breeze with an electric fan.
- Shine a flashlight or spotlight on the flag.
- Follow the flag with a flashlight or spotlight while the color guard walks in.
- Use background music.
- Prerecord music and play it, making it louder or softer as your ceremony progresses.
- Use songs that are appropriate for the occasion, such as "The Star-Spangled Banner," "America, the Beautiful," "You're a Grand Old Flag," "God Bless America," seasonal songs, marching songs, or spiritual songs.

◆ FLAG CEREMONY COMMENTS

Keep in mind the following guidelines:

- When in uniform, stand at attention and salute with your right hand.
- When not in uniform, stand at attention and place your right hand over your heart. You should remove your non-uniform hat.
- When in uniform, with your head covered or uncovered and either indoors or outdoors, stand at attention and salute with your right hand when the U.S. national anthem is played, the colors are raised or lowered, the Pledge of Allegiance is recited, or the U.S. flag passes by in a parade.
- The color guards do not participate in saluting, singing, or saying the Pledge of Allegiance with the group because their job is to guard the flag at all times. They should salute after the U.S. flag is posted.
- The U.S. flag is posted on the left, as you look toward the front.
- Any person can write to his or her U.S. senator or U.S. representative and, for a reasonable fee, receive a flag that was flown over the U.S. Capitol in Washington, D.C.
- For more information regarding the U.S. flag, refer to the BSA booklet *Your Flag*.
- You can find additional information on the U.S. flag from government websites and from veterans' groups.
- Make sure that you include all boys in your flag ceremonies at different times of the year. Boys with physical disabilities can proudly act as narrator or even flag bearers when adults see these events as possibilities instead of barriers.
- Sometimes we hear people say the phrase "one nation (pause) under God." When this phrase was added by House Joint Resolution 243 and approved by President Dwight D. Eisenhower on June 14, 1954, it was added without a comma or pause after the word "nation." The correct phrasing is "one nation under God."

◆ STANDARD INDOOR FLAG CEREMONY USING FLAG STANDS

Preparation: Put flag stands in place at the front of the room. Looking to the front, the U.S. flag stand is on the left. Flag guards are in the back of the room holding the flags. They have already checked to make sure that the flags fit in the flag holders and that the flags clear the ceiling.

Personnel: Narrator and color guard

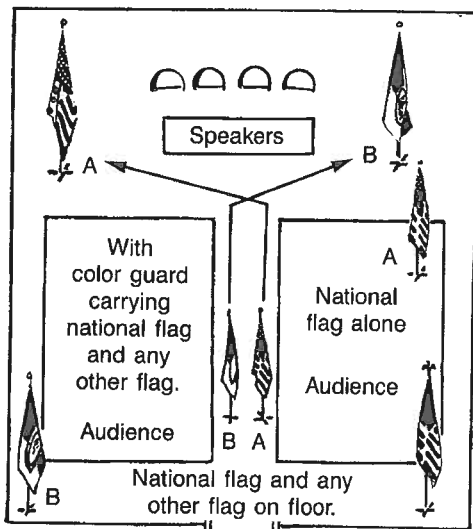

Materials: U.S. flag and a den flag if available

NARRATOR WILL CALL:	ACTIONS
<i>Attention. Will Scouts please rise.</i>	(Pause.) The color guard waits in the back of the room for the Scouts to stand and become quiet.
<i>Color guard, advance.</i>	The den flag guards and bearer are on the left, and the U.S. flag guards and bearer are on the right. With the U.S. flag in the lead, they walk in and cross so that the U.S. flag will be on the left side of the room when you look toward the front. The bearers and guards take their positions near the flag stands, facing the audience and holding the flags vertically.
<i>Hand salute.</i>	Everyone, with the exception of the flag bearers and guards, salutes.
<i>Please say with me the Pledge of Allegiance.</i>	All join in. The bearers and guards stand at attention and continue to hold the flags. The den flag is lowered slightly so that the U.S. flag stands taller. The U.S. flag guards and bearer and den flag guards and bearer do not salute or say the Pledge of Allegiance.
<i>Two.</i>	The den drops its salute. The den flag is raised to its vertical position again.
<i>Color guard, post the colors.</i>	The den flag is placed in its stand. Its guards and bearer step back into place. The U.S. flag is then posted. Its guards and bearer step back into place. The U.S. flag is then posted.
<i>Color guard, dismissed.</i>	The U.S. flag guard leads the procession to the back of the room with the narrator following last.

Note: A stands for the national flag, B stands for any other flag.

Diagrams 1-2-3-4 apply to lecture halls, classrooms, club rooms, churches, auditoriums, etc.

◆ RETRIEVAL OF COLORS INDOORS

NARRATOR WILL CALL:	ACTIONS
<i>Attention. Will Scouts please rise.</i>	(Pause.) The color guard waits in the back of the room for the audience to rise and become quiet.
<i>Color guard, advance.</i>	The U.S. flag guard and bearer and pack flag guard and bearer walk down the aisle and to the flags. They stand behind the flags, facing the audience.
<i>Color guard, salute.</i>	The guards and bearers salute.
<i>Color guard, retrieve the colors.</i>	The U.S. flag is removed first (just slightly ahead of the den flag).
<i>Hand salute.</i>	Everyone, with the exception of the guards and bearers, salutes. The U.S. flag stays on its "marching right" as the guards and bearers proceed down the aisle to the rear of the room.
<i>Two.</i>	Everyone drops the salute.

◆ STANDARD OUTDOOR FLAG CEREMONY USING A FLAGPOLE

Preparation: Check the flag against the rope to make sure the attachments line up before the flag ceremony. It helps to lower the loops to the base of the flagpole so it is ready for the ceremony. Rewind the cord to hold in place.

Personnel: Narrator and color guard

Materials: U.S. flag and a pack flag

Remember that the outdoor program runs like a thread through the Scouting program. When dens and packs are outdoors, ceremonies are appropriate—and important!

- Outside noises from wind and water can make it difficult to hear voices. Keep the group close together and have the speaker face the crowd.
- Plan your flag ceremony carefully. If you do not have a secure flag holder, have the boys present the flag and continue to hold it during your flag ceremony. Then have them retreat with the flag. Whether you are inside or outside, give the U.S. flag the same respect and handle it properly.
- Use nature as a backdrop. Look around and choose a location that showcases your event.
- Sweep the area and walkways, looking for loose rocks and tree roots that might trip a boy or adult.

NARRATOR WILL CALL:	ACTIONS
<i>Attention. Will the audience please rise.</i>	(Pause while everyone stands and remains quiet.) The color guard waits in the rear for the audience to become quiet.
<i>Color guard, advance.</i>	The U.S. flag guards and bearer walk in and take their positions near the flagpole, facing the audience.
<i>Color guard, prepare to raise the colors.</i>	The line is unwound. The flag is unfolded and attached to the rope.
<i>Hand salute.</i>	Everyone, with the exception of the U.S. flag guards and bearer, salutes.
<i>Color guard, raise the colors.</i>	Then the flag is raised quickly to the top of the pole, and the cord is wound back in place.
<i>Please say with me the Pledge of Allegiance.</i>	The U.S. flag guards and bearer stand at attention. (All join in.) The U.S. flag guards and bearer do not salute or say the Pledge of Allegiance.
<i>Two.</i>	The den drops its salute.
<i>Color guard, salute.</i>	The U.S. flag guards and bearer salute.
<i>Color guard, dismissed.</i>	The color guard retreats to the back of the group.

◆ RETRIEVAL OF COLORS—FLAGPOLE

NARRATOR WILL CALL:	ACTIONS
<i>Attention. Will the audience please rise.</i>	(Pause.) The color guard waits in the rear for the audience to become quiet.
<i>Color guard, advance.</i>	The U.S. flag guards and bearer walk to the flagpole. They stand behind the flag, facing the audience.
<i>Color guard, salute.</i>	The U.S. flag guards and bearer salute.
<i>Color guard, prepare to retrieve the colors.</i>	They unwind the cord and wait.
<i>Hand salute.</i>	Everyone, with the exception of the U.S. flag guards and bearer, salutes. The U.S. flag is quickly lowered.
<i>Two.</i>	As soon as the flag touches the hands of the guard, this command is given. Everyone drops the salute. The U.S. flag guard and bearer remove the flag from the rope and fold it correctly.
<i>Color guard, retreat.</i>	They return to the back of the group.

TALK TIME SUGGESTIONS

This section of the meeting is set aside to cover the “business items” that need to be covered for den and pack activities in the near future. Some of these items will be covered every meeting, some may only be covered once a year.

It may be handy to have a prepared handout to send home with the Scouts or hand to their parents, especially if it involves logistics—such as meeting somewhere different for a tour or items the Scouts need to bring from home for the next meeting, etc.

◆ DUES

If your pack uses the dues you collected to fund your den operations, then you will need to come up with a system to collect them regularly and record who has paid and who has not. This is a perfect job for an assistant den leader, if you have one, or it could be taken care of by a parent who is willing to help. There are various ways to record the payments: a wall chart, a special colored bead on a “den doodle,” a den record book, or another method that works for you. Make it easy and simple so anyone willing to help can handle it. You may want to collect something every week or on a monthly basis. Some parents prefer to pay for the entire year so their Scout is taken care of. Decide how much (usually around \$1 a month), when you want to collect it, and how it will be recognized; then tell the Scouts’ parents so they are aware of your process.

Obviously, it will be important for you to keep good records of your den purchases and dues collections in case there are any questions. Some packs do not use individual den dues, but instead cover den expenses from the pack budget or sponsoring organization. You will need to find out how your pack handles this.

It may be convenient to collect dues as part of your gathering activity time.

◆ ADVANCEMENT

Your Scouts may work on advancement with their parents as well as in your den activities. You may also assign them “Do-at-Home Projects” from time to time—items to finish at home and bring back to show the rest of the den. It may be convenient to record this information during this part of the meeting. An assistant den leader will work well for this duty as well.

You will need to have a method to record this advancement. The BSA sells colorful wall advancement charts that can be used to keep track of each of your Scouts’ adventures. Using colored pencils or a signature to designate a requirement as completed can work well with this type of chart. If your pack uses a computer-based tracker and you or an assistant are proficient in entering information on a laptop or other device, then it may work well for you to track advancement digitally. You can learn more about digital tracking with MyScouting on Scouting.org. There are also paper pages available from BSA and other sources to assemble a binder and mark off individual requirements.

However you decide to track advancement, it is an important part of your den leader job. Figure out a method that works for you, and go for it!

If a Cub Scout has completed an advancement item with his family or at school, have him give a short report to the rest of the den, so they can see that all advancement does not have to happen in the den meetings.

This may also work well in the gathering activity time if you have help and the activity will not be interrupted.

◆ OUTINGS OR TOURS

Traveling with Cub Scouts and their families can be a lot of fun! It can also create opportunities for confusion and misdirection. It's very important that everyone involved has the information they need to have a great time.

Preparing a printed or electronic handout, flier, or brochure to give to the families with *ALL* the information needed will save you a lot of headaches. Depending on the trip, you may have a few items to pass along or a couple of pages. Here are some samples:

Den 1 TV Station Tour!

Den 1 and their families will be touring TV station KCUB next Wednesday, May 14. We will be meeting at Tamkin School at our regular meeting time, 6:30 p.m., and then carpooling to the station together. The tour is free, but we will be stopping for ice cream at Dairy Village on the way home. Cones can be purchased for \$2, and of course, their full menu will also be available.

The station needs to know an approximate head count, so please contact me by Friday, May 9 with the number of family members attending. You can reach me by email at dljanet@email.com, or call 702-555-0111.

This should be a very interesting trip, and the Scouts will be completing our current adventure with this trip. Hope to see you all there!

DL Janet

Flaming Arrow Den Spring Campout

ALOHA! The Flaming Arrow Webelos den will be holding our Spring Campout next month at the Rocky Willows Scout Camp near Random Lakes on June 10-12. The theme this year is "Hawaiian Luau"!

Cost for this event is \$15 per person, which will include all meals, supplies, and a cool patch! Webelos Scouts and their parents are invited to attend (no siblings on this trip). The fee is due on June 6 at the pack meeting.

We will meet at the camp. Attached is a map. The trip is about 20 miles and will take about 30 minutes.

Attached to this sheet is a gear list that each person will need. We have access to camping gear if you need to borrow sleeping bags or tents for your group. The weather is always a little cooler at the camp, so be sure to pack warm clothes.

We will be holding a planning meeting at 6:30 p.m. on May 20 at Spohn Elementary. Everyone planning on attending should be there. All of your questions will be answered!

The Webelos Scouts had a great time on this event in the fall, and are looking forward to another exciting weekend!

Any questions? Email camperbob@email.com, or call 702-555-0112.

Always be sure to provide all the important information you can, including:

- Dates
- Location
- Cost
- Transportation method
- Items needed
- A contact person

Try to put yourself in the place of new parents, and give them all the information they need to feel welcome and ready!

Here is a good extended version of a trip planner from the BALOO (Basic Adult Leader Outdoor Orientation) training. While you may not need to fill in all the blanks, it may help you uncover some holes in your planning.

Rainy day activities planned

◆ COMMUNICATING THE PACK AND DEN CALENDAR TO PARENTS

Your pack will be holding some special events that may require additional help or more time to prepare than normal meetings. Some of these events might be:

Blue & Gold Dinner: Inviting other family members

Pinewood Derby/Raingutter Regatta: Distributing kits, holding workshops to help build the racers, running the race

Pack Campouts: Providing important information, gear needed, who can attend, what events will be happening, etc.

Bridging Ceremonies: Possible change in location, special guests invited, special ceremonies and inspiration

Holiday Parties or other Celebrations: Preparing decorations, songs, skits, treats

Additional events provide by the council or district such as:

- District pinewood derby
- Fun days at the park/ballgame/zoo/trail or other special “Scout only” events
- Day camp/resident camp/overnighters

These all need to be promoted at the den level so your Scouts can take advantage of the opportunities. You should be able to find out about them at roundtable or by talking to your unit commissioner.

◆ CUB SHARING TIME

Periodically, it is a good idea to let the Scouts share what’s happening in their lives—something fun they did with their families, a good thing that happened at school, a fun game they’ve learned, or a new toy or Scout gear they have acquired. Set up some ground rules, such as:

- Time limit per Scout, perhaps only one Scout per meeting
- Only positive, fun things—nothing derogatory or hurtful
- Props—do you want it to turn into “show and tell”?
- Topic—defined by you (favorite pet, favorite game, etc.), or let them decide
- Related to the Scout Oath or Scout Law—how they helped other people or did their best that week.

It may be helpful to screen the first couple you do for the year, just to make sure they get off on the right track. This can be a lot of fun for you and the Scouts, and provide some insight for you into their lives.

◆ DENNER INVESTITURE

A denner is a member of your den who has been given special responsibilities for your group for a fixed period of time, usually a month. He will be given some jobs to do at the meeting, such as:

- Setting up games for the Gathering activity and then picking them up afterwards
- Preparing a simple snack for the group, if you use one as part of your plan
- Setting up craft or activity items for the activity portion of the meeting
- General cleanup after the meeting
- Leading Opening and Closing ceremonies
- Keeping track of attendance records
- Other duties as the occasion arises

Talk Time is a great time to award the denner cord to your denner. The denner wears a denner cord over his left shoulder. The cord is removed at the end of the month, and presented to the new denner for his period of service. This responsibility mirrors leadership tasks the Scout will need for rank advancement in Boy Scouts. You should have specific tasks designated for the denner to do, and make sure he performs them.

◆ MEETING INFORMATION

Use a small portion of this time to tell the den what is going to happen tonight. Are you:

- Starting work on a new adventure?
- Finishing up one you've already started?
- Working on skills and projects for an upcoming pack event?
- Playing a new game?
- Learning a new skill?
- Preparing thank-you notes for people who have helped them out recently?

Set the stage for another exciting meeting! This will let them know what they're doing tonight AND it will show their parents that you have a plan and are working it! Be sure to include the reason for the activities in that night's meeting.

◆ GROUNDWORK FOR FUTURE ADVANCEMENT

If part of next month's adventure requires some homework that might take a little time to complete, let them know a few weeks early and keep reminding them—and their parents! This is probably a good time to send a flier or other announcement home so the parents have all the details on what is needed.

CLOSING CEREMONIES

◆ BROTHERHOOD CIRCLE CLOSING

Form the den in a brotherhood circle. Each boy places his left arm around the shoulder of the boy on his left and his right arm around the shoulder of the boy on his right.

Den leader or den chief: *Now may the Great Master of all Scouts be with us until we meet again.*

◆ FLAG FOLDING CLOSING

Have three Scouts fold the flag while the other boys stand respectfully in a semicircle.

◆ FRIENDSHIP CIRCLE CLOSING

Den leaders and members form a friendship circle. Cross arms with right arm over left and grasp the hands of people on each side. They then sing a closing song.

◆ HANDSHAKE CLOSING

Have the boys form a circle and pass the Scout handshake from one to another around the circle until it reaches the boy who started it. As each boy receives the handshake, he silently makes a wish and pledges to do his best.

◆ LEADER'S MINUTE CLOSING

This is a closing inspirational thought. It can be a brief story about the Scout Oath, the Scout Law, the motto, or something patriotic. It could reflect ideals such as being kind to animals and people, showing sportsmanlike behavior, or participating in school activities. It is told without moralizing.

◆ LIVING CIRCLE CLOSING

Based on an American Indian custom, the living circle may be used alone or as a part of another ceremony. It reminds a Cub Scout of the fine friendships he is making in Cub Scouting.

Den leaders and den members form a close circle and turn to their right, each placing his left hand into the center of the circle, palm facing downward. Each person grasps the thumb of the person behind him, making a complete circle with the group. Everyone's right hand is held straight up in the Cub Scout sign. One version is to pump joined hands up and down seven times as all say, "Akela! We'll—do—our—best!" You can also use the Scout Oath, the Cub Scout motto, or your own personal words in place of this chant.

◆ MOUNTAIN CLIMBING CLOSING THOUGHT

Ask the boys to sit in a circle.

Den leader: *Picture a very high mountain. It is beautiful but very dangerous. It has slippery glaciers and high rocky places you can climb only with special equipment and with help from other people. Mountain climbers depend on each other. They must be able to trust their friends at the other end of the rope. When you pick your friends, think about whether this is a person you could trust at the end of that rope. Let's have a moment of silence as we think about the good friends we have chosen.*

◆ MY FLAG CLOSING

Right before the ending, the den leader asks each boy to write a sentence about what the U.S. flag means to him. For the closing ceremony, read the statements.

◆ PATRIOTIC SONG CLOSING

Den members form a circle around the U.S. flag. Everyone salutes and sings “America,” “God Bless America,” or another patriotic song. (See the *Cub Scout Songbook* for ideas.)

◆ SQUARE KNOT CLOSING

Give each boy a 3-foot section of rope. The boys tie their ropes together with square knots to form a complete circle. They all lean back carefully to form a taut circle.

Den leader: *You are part of a group of close friends, held together by the square knot—a symbol of friendship.*

◆ TIGER CLOSING SONG

Divide the singers into two groups. The first group sings the first verse. The second group responds with the second verse. Repeat, singing faster each time. This song could be adapted for other ranks. (Tune: “The Muffin Man”)

*Can you find a Tiger,
A Tiger, a Tiger?
Can you find a Tiger
With black and orange bold stripes?*

*Yes, we found a Tiger,
A Tiger, a Tiger.
Yes, we found a Tiger
With black and orange bold stripes.*

◆ WE MEET AS CUB SCOUTS CLOSING

Have the boys form a circle.

Den leader: *We meet as Cub Scouts [Tigers, Wolves, Bears, Webelos Scouts], we part as friends, as now we leave, our meeting ends. Let this circle be a token of friendship, as Akela guides us home.*

DEN OUTINGS

Excursions and field trips provide some of the most exciting parts of Scouting. Cub Scouts enjoy many outdoor experiences as they participate in the variety of activities that can be held outside, such as field trips, hikes, nature and conservation experiences, and outdoor games.

◆ OUTINGS

Boys enjoy visiting museums, business establishments, parks, and other attractions. Here are some suggestions:

How Things Are Made: Visit manufacturing plants such as aircraft, automotive, appliance, or electronic manufacturers; chemical, paper, plastic, paint, furniture, or toy plants; and handicrafts or other small-craft industries.

How Your Community Runs: Visit power, water, and sewage plants; a gas company; police and fire stations; city hall; municipal buildings; the county jail; a telephone company; the post office; the Red Cross; hospitals; newspaper plants; and radio, television, and weather stations.

How Your Community Is Fed: Visit truck and dairy farms, flour mills, and bakeries; food processing, canning, or bottling plants; stockyards and meat or poultry packing houses; a fish hatchery; beverage, candy, and ice-cream companies; markets; and food distributors.

Learn About Your Culture and Heritage: Visit art galleries, museums, and memorials; celebrated old homes, monuments, and other historic sites; places of worship; civic centers; important local buildings; summer theaters and band concerts; and local historical celebrations.

When these field trips are coordinated with the Cub Scouting adventures, they can help bring learning to life by allowing boys to experience firsthand the things they have been learning about.

◆ HIKES

A hike is a journey on foot, usually with a purpose, a route, and a destination. All ranks in Cub Scouting will have several opportunities for taking hikes related to specific adventure requirements. See the Outdoor Appendix for more information on hikes.

◆ PLANNING DEN OUTINGS AND EXCURSIONS

When planning a trip or excursion for your den or pack, keep the following guidelines in mind:

- Make sure that all activities are age-appropriate. Especially for pack excursions, which include boys of various ages, make sure there's something that appeals to everyone.
- While it's OK to include some activities just for the fun of it, make sure the featured event of an excursion relates to the monthly theme or activity badge.
- Refer to the *Guide to Safe Scouting* (BSA No. 34416) to ensure that all activities are conducted in a safe manner. The online version, which will always be the most current, can be found at www.scouting.org/HealthandSafety/GSS/toc.aspx.
- Be sure to file the proper forms and permits. A tour and activity plan (No. 680-014) is recommended whenever the den travels to a place other than its regular meeting place (even for short in-town trips) and an activity consent form (permission slip) should be signed by the parent or guardian of every boy. The tour and activity plan and the activity consent form can be accessed at www.scouting.org/HealthandSafety/TourPlanFAQ.aspx

APPENDIX 2

WORKING WITH BOYS

BOY BEHAVIOR

Positive behavior is a great responsibility and, sometimes, challenge for the den leader. It isn't easy—but it isn't impossible, either. Remember that each boy (just like all of us) has emotional needs that need to be fulfilled. These needs include being accepted, getting noticed, belonging, receiving praise and encouragement, feeling safe and sound, letting off steam, expressing himself, experimenting (and making some mistakes in the process), and having fun.

How each boy tries to fulfill these needs is what makes him unique. One boy may be timid and quiet, and another, loud and rowdy; but both are afraid they won't be accepted. Den leaders must plan ahead and be prepared to make Cub Scouting a positive experience for every boy and his family.

HOW TO ACHIEVE POSITIVE BEHAVIOR

The den meeting is a time when the den leader and Cub Scouts socialize, practice what they've learned at home, and plan for future activities. For the den meeting to be productive for everyone, it must run smoothly. A good atmosphere is essential to managing boys' behavior. Many times, that simply means recognizing and rewarding good behavior. Here are some suggestions for encouraging good behavior.

◆ EXPECTATIONS

Be sure that every boy and his parent or guardian understand the purposes of Cub Scouting, the advancement system, the structure of the den and pack, and the expectations of both boy and parent in the program. A letter to parents and guardians with a follow-up face-to-face meeting within a couple of days of their son joining Cub Scouts will ensure this.

Den leaders should be sure to wear their uniforms to strengthen a visual connection between the leader and the boy. The uniform serves as a reminder for boys to be on their best behavior.

◆ CODE OF CONDUCT

A code of conduct is a list of behavioral expectations and consequences if the code is broken. Boys, with the den leader's guidance, usually create it themselves. Three or four points will be sufficient, and they should be positive; the words *no* or *don't* have no place in a code of conduct. Include a final rule such as "Have fun!" Also consider including the 3 R's: Respect for others, Responsibility for yourself and your things, and Reasonable behavior. Boys should sign the code of conduct, and it should be displayed at every den meeting. Using the 12 points of the Scout Law can serve as a strong foundation for a code of conduct, and also reinforce the values of Scouting.

◆ TWO-DEEP LEADERSHIP

A minimum of two registered adult leaders, a registered leader and an adult parent or guardian of a participating Cub Scout—one of whom must be at least 21 years old or older—is required for all trips and outings. Two-deep leadership can also be invaluable in managing boys and their activities during den meetings. With two leaders, an energetic den can be divided into two groups, or one leader can work with a boy who is having difficulty keeping up or managing his behavior. Furthermore, a second adult provides another pair of hands when projects require adult help.

◆ THE DEN CHIEF

The den chief is a wonderful resource for the success of a den. Although the den chief is not part of the two-deep leadership because he is not an adult, he can help manage the den by being prepared with a game, story, stunt, song, or other brief activity that provides some variety in the den program. See the *Cub Scout Leader Book* and *Den Chief Handbook* for more information on den chiefs.

◆ DEN MEETING STRUCTURE

Following the den meeting structure as outlined in this den leader guide will go a long way to making a meeting run smoothly. Every part of the den meeting structure plays a vital role in the success of the meeting.

◆ LEADER/SCOUT RELATIONSHIP

The relationship between a leader and the Scouts is central to managing the boys' behavior. For instance, if the den leader enjoys the den meeting, the boys will, too. The boys model what they see, so be a good model by having a positive attitude.

- **Be consistent and fair** in all your dealings with boys. Treat them the same when they break any rules. But do this in a manner that allows a boy to keep his dignity. Give him a chance to tell his side of the story. Allow him the opportunity to apologize. He will be aware of and remember your kindness and caring. Your example of fairness will carry over into other aspects of the boys' lives.
- **Be a good listener.** When a boy wants your attention, look him in the eye. If you are busy, look him in the eye and ask him to wait a minute. Honor his patient waiting by turning to him with your full attention as soon as possible.
- **Give each boy a chance to participate in discussions.** To encourage boys to speak one at a time and to listen carefully, you might try a "talking stick," an American Indian tradition. Only the person holding the talking stick is allowed to speak, and everyone else must listen respectfully without interrupting. A talking stick can be a dead branch from a tree, a dowel rod, or even a shortened broomstick handle. Let the den members decorate the talking stick so that it represents them and they value it. Use markers, paints, or stickers to enhance the stick. Boys may want to hang feathers, beads, or shells on leather strips from their talking stick.
- **When you notice a boy's good behavior, comment on it!** Let him and the others in the den know exactly what you liked. Soon, you'll have all the den members copying that behavior. Comments such as "I like the way you kept trying," or "Good thinking," or "Now you have the hang of it" encourage and build self-esteem. The more specific you are, the more likely the communication has been effective and the activity will be repeated.

TRACKING BEHAVIOR

Keeping track of behavior helps a boy and his leader know how he is doing. Here are some suggestions.

◆ CONDUCT CANDLE

Use the same candle each week. The denner lights the candle at the beginning of the den meeting, and the candle is allowed to burn as long as all den members show good behavior. But if a boy misbehaves or breaks the code of conduct, the candle must be blown out for the rest of the meeting. As soon as the candle burns down, the den is entitled to a special outing or special treat.

◆ TICKETS

Buy tickets at teacher or party supply stores, or make them yourself by hand or with the use of a computer. Give boys a ticket when they do something good. (Try to give each boy an opportunity to receive a ticket during a meeting.) They write their names on the back of their tickets. The tickets are placed in a jar, and a drawing is held at the end of the den meeting for a small treat (gum, candy, stickers, small toy, etc.). At the end of the month, hold a drawing for a “big” winner.

◆ MARBLE JAR

Use a glass jar so it makes lots of noise when you put a marble in. Draw a line on the jar high enough so that it will take the boys six weeks or so to earn enough marbles to fill it to that point. Explain that when marbles reach the line, the den will get a treat. Drop a marble in the jar when someone in the den does something good. Make a production out of it. Celebrate with the den when they reach their goal.

◆ STICKERS AND CERTIFICATES

Give big flashy stickers to boys for good behavior. Use them only occasionally, or they lose their appeal. Make certificates by hand or with a computer. Use gold seals or other decorative stickers. You can also purchase certificates at teacher supply stores.

◆ SUPER STAR PINS

Decorate clothespins, one for each boy, with stars. As you notice a boy’s good behavior, pin one on him. At the end of the meeting, boys with pins on can pick something from a “treat bag” filled with food items (candy, granola bars, popcorn, bags of chips or cookies, etc.) or inexpensive items that appeal to boys (baseball cards, small toys, pencils). Vary the items in the treat bag often.

◆ SUPER STAR NOTES

These notes to parents and guardians are good for praising the boy when he gets back home. You can make your own by hand or with a computer or buy them at a teacher supply store. The boy will know you really appreciate it if you tell his family how well he did.

◆ COUP STICK

Some American Indian tribes used coup sticks (“coo sticks”) as a way to display accomplishments. Items such as beads, feathers, bear claws, or eagle claws were awarded at tribal meetings for deeds of note (not unlike badges Cub Scouts earn!). These were attached to the coup stick for display, bringing honor to the coup stick owner.

Make a den coup stick by drilling a hole through a wooden dowel at the top and bottom. Loop a long piece of heavy-duty string or leather cord through the holes so it runs the length of the dowel. Award small items at den meetings for good behavior. Use beads, feathers, stamped leather pieces, stamps on poster board pieces, etc., and attach them to the string on the coup stick. Take the coup stick to pack meetings to bring honor to your den!

DEN DOODLES AND DEN FLAGS

◆ DEN DOODLES

A den doodle is a clever way to record advancement progress and other accomplishments of the boys as well as a colorful decoration for the den meeting place. It can be something as simple as a chart, much like the den advancement chart, or it can be a simple structure consisting of a cutout mounted on a stand. No two den doodles are alike.

With the boys' help, choose a design that "fits" the den. Den doodles can be made from wood, cardboard, foam board, or other materials; they can be a tabletop or floor design; or they can hang on the wall or from the ceiling. Include the den's number and a place for each boy's name and advancement record or accomplishment.

Add something to the den doodle at each meeting, recognizing attendance, proper uniforming, and behavior as well as completed achievements toward rank. Colored beads and shells slipped onto leather lacing are common items for symbols of progress. Identify each symbol with an achievement or elective number or activity badge name.

Dens may earn simple awards (sometimes called dingle dangles) for a variety of things, such as perfect attendance, good behavior, participation in service projects, or responsibilities at the pack meeting. For example, the den leading the flag ceremony at the pack meeting or at school might earn a small flag to hang on their den doodle; the den that leads a song might earn a musical note made of felt. You can find more examples of den doodles in *Cub Scout Ceremonies for Dens and Packs*.

◆ DEN FLAGS

Den flags are simple flags that represent each den and give den members a sense of camaraderie and identification. The flag is blue and yellow with the den number on it. Den flags are available from the BSA Supply Division. The flag may go home with a different boy after each meeting or may be the responsibility of the denner for the month. The flag should be brought to each pack meeting and mark the place where the den sits.

◆ BASES FOR DEN DOODLE OR DEN FLAG

Make bases from wood or from a 2-pound coffee can filled with plaster, as shown. Cover the end of the flagpole with aluminum foil and grease with a thick layer of petroleum jelly so it will slip out easily after the plaster hardens. Or use a piece of PVC pipe that has an opening slightly larger than the diameter of the flagpole. Cover the bottom end of the PVC with foil and set it into the wet plaster. It should stick several inches out of the plaster. When dry, the pole will slip easily into the PVC pipe.

DEN LEADER “SURVIVAL” KIT

At times, even the best plans go awry. A bag packed as a leader “survival” kit comes in handy when chaos has erupted, all your planned activities for the meeting have been exhausted, or the den just needs a change of pace. Your survival kit will grow as you and your den work together and discover the things the boys like best—you will base your survival kit on those activities. The goal is to pack your bag with lightweight, multiple-use objects—and take it to every den meeting.

Here are some suggestions for your leader survival kit. Remember that each item should have multiple uses. Newspapers, for example, can be rolled and taped to become bats or batons to pass during a relay; left flat, they can become a “base” for use during a game; opened, they can act as a drop cloth for messy projects; folded, they can become hats. Newspapers can also be torn and taped and shaped into instant costumes. Your imagination is the only limit.

- Balls—a couple of tennis balls and at least one soccer ball
- Blindfolds—at least two
- Safety pins
- Duct tape
- Newspapers
- Markers, pens, pencils, chalk
- Blank paper, various colors
- Lightweight rope
- Scissors
- Balloons
- Empty 16-ounce drink bottles with caps—at least six
- Magic tricks
- Puzzles

GUIDELINES FOR SPECIFIC TYPES OF SPECIAL NEEDS AND DISABILITIES

Every boy has needs. Three important ones are to feel accepted by a group, to feel a sense of competence as he approaches a task, and to feel a sense of self-satisfaction at its completion.

For some boys, these needs are easily met. For others, it takes a little more thought and planning on the part of leaders to help the boys. The parents or guardians of a boy with special needs will be the best resource for information about their son’s abilities, limits, and goals. Other resources include the boy’s teachers and the *Cub Scout Leader Book*.

Many people wonder how a boy who is different from other members of the den will be accepted. You will find that with proper preparation of the den, these boys are accepted into the fellowship of the den easily.

If a Cub Scout has any of the following disabilities, these ideas might be helpful. Always ask if he needs, or wants, help. Ask *how* you can help.

◆ MOBILITY IMPAIRMENTS

- Remember that people who use adaptive equipment (wheelchairs, crutches, etc.) often consider their equipment an extension of their bodies.
- Never move equipment out of the person’s reach.
- Before you go out with someone who has a mobility impairment, make sure facilities at the destination are accessible.
- Never pat a person in a wheelchair on the head. This is a sign of disrespect for adults.
- When helping, ask how equipment works if you are unfamiliar with it.
- Prevent strained necks by standing a few feet away when talking to someone in a wheelchair.
- Find a place to sit down for long talks.

◆ HEARING LOSS

- Make sure the person is looking at you before you begin to talk.
- Speak slowly and enunciate clearly.
- Use gestures to help make your points.
- Ask for directions to be repeated, or watch to make sure directions are understood correctly.
- Use visual demonstration to assist verbal direction.
- In a large group, remember that it's important for only one person to speak at a time.
- Speakers should never stand with their backs to the sun or light when addressing people with hearing loss.
- Shouting at a person who is deaf very seldom helps. It distorts your speech and makes lipreading difficult.

◆ VISION IMPAIRMENTS

- Identify yourself to people with vision impairments by speaking up.
- Offer your arm, but don't try to lead the person.
- Volunteer information by reading aloud signs, news, changing street lights, or warnings about street construction.
- When you stop helping, announce your departure.
- If you meet someone who has a guide dog, never distract the dog by petting or feeding it; keep other pets away.
- If you meet someone who is using a white cane, don't touch the cane. If the cane should touch you, step out of the way and allow the person to pass.

◆ SPEECH/LANGUAGE DISORDERS

- Stay calm. The person with the speech disorder has been in this situation before.
- Don't shout. People with speech disorders often have perfect hearing.
- Be patient. People with speech disorders want to be understood as badly as you want to understand.
- Don't interrupt by finishing sentences or supplying words.
- Give your full attention.
- Ask short questions that can be answered by a simple yes or no.
- Ask people with speech disorders to repeat themselves if you don't understand.
- Avoid noisy situations. Background noise makes communication hard for everyone.
- Model slow speech with short phrases.

◆ COGNITIVE DISABILITIES

People whose cognitive performance is affected may learn slowly and have a hard time using their knowledge.

- Be clear and concise.
- Don't use complex sentences or difficult words.
- Don't talk down to the person. "Baby talk" won't make you easier to understand.
- Don't take advantage. Never ask the person to do anything you wouldn't do yourself.
- Be understanding. People with below-average cognitive performance are often aware of their limitations, but they have the same needs and desires as those without the disability.

◆ SOCIAL/EMOTIONAL IMPAIRMENTS

People with social/emotional impairments have disorders of the mind that can make daily life difficult. If someone is obviously upset,

- Stay calm. People with mental illness are rarely violent.
- Offer to get help. Offer to contact a family member, friend, or counselor.

◆ AUTISM SPECTRUM DISORDER

Here are some tips for leaders.

- Provide consistent, predictable structure. Be patient. Allow extra time for activities.
- Provide a visual schedule with words and pictures. All Scouts will find this useful. Don't put times in the schedule because a Scout with autism may expect you to follow it to the minute!
- Let the Scout know about transitions early by saying, "In five minutes we'll be ending this activity and starting another."
- Give the Scout information about new activities ahead of time.
- Break up tasks into smaller steps.
- Alert the Scout's parents if there is going to be an activity that may cause sensory difficulties for their son. Consider moving noisy activities outside where the noise can dissipate. If the Scout has issues with food taste and texture, carefully plan the menus around these issues so the Scout can eat the same things as other members of the unit as much as possible.

◆ ATTENTION DEFICIT DISORDER

Leaders can have a positive effect on children with attention deficit disorder (ADD). Here are some ways leaders can help.

- Structure Scout meeting time, activities, and rules so that the Scout with ADD knows what to expect. Post a calendar of events.
- Be positive. Praise appropriate behavior and completion of tasks to help build the Scout's self-esteem.
- Be realistic about behavior and assignments. Many children with ADD simply can't sit for long periods or follow detailed instructions. Make learning interesting with plenty of hands-on activities.
- Monitor behavior through charts and explain expectations for behavior and rewards for reaching goals. This system of positive reinforcement can help the Scout stay focused.
- Begin a formal achievement program. Weekly reports to parents could increase their involvement.
- Work closely with parents and members of the education team. People working together can make a big difference.
- Be sensitive to the Scout about taking his medication. Avoid statements such as, "Johnny, go take a pill."
- Simplify complex directions. Give one or two steps at a time.

◆ LEARNING DISABILITIES

Learning disabilities (including minimal brain damage, perceptual abilities, communication disorders, and others) are usually disorders of the central nervous system that interfere with basic learning functions.

- Listen and observe carefully to find clues as to how this Scout approaches problems and what his difficulties are.
- Remember that praise and encouragement can help build self-esteem.
- Let other den members use their friendship and support to show the Scout that he belongs.
- Use short, direct instructions that help the Scout know what is expected of him.
- As much as possible, stay with a regular den schedule, allowing the Scout to help with assigned duties.
- Give the Scout extra time when needed. Don't rush his answers. Reword instructions if necessary.
- Introduce and recite new materials (such as new songs or the Scout Oath and Scout Law) together as a group. Provide repeated opportunities for Scouts to practice and learn them.

APPENDIX 3

CRAFTS

WHY WE USE CRAFTS

As Cub Scouts work on craft projects, they not only learn to make useful items but also get valuable experience in using and caring for basic tools and materials, learning to follow directions, using their imaginations, and developing coordination and dexterity. Craft projects can be used for advancement requirements or just for fun.

Making his own craft project calls for creativity in each boy. As he embarks on his project, he may need to measure, trace a pattern, cut or saw, sand, and assemble a project with nails, screws, or glue. Crafts develop boys' ability to understand and satisfy their urge to experiment. Furthermore, physical development and mental growth are by-products of the craft program. Muscle coordination comes from lifting, moving, sawing, drilling, hammering, and pounding. Painting helps improve arm and hand control. Folding, cutting, shaping, filing, and sanding craft materials help develop eye and hand coordination.

As boys work with crafts, they learn to shape materials into useful articles. While decorating them, they also learn that useful things can be beautiful art. They gain confidence to experiment with materials and tools and learn new ways to do things. A completed craft project enables each boy to shout out "I did my best!"

TEACHING CRAFTS TO CUB SCOUTS

The leader's job is to stimulate each boy's interest and curiosity and to encourage him to try. It is important to allow the boy to create and be proud of his creation. He is making more than just "things"; he is building his mind, body, and future.

All Cub Scout leaders have different backgrounds and experiences, so their knowledge of craft techniques and tools will vary. Those with limited experience may enlist parents and other adults to teach specific techniques or to provide materials and tools.

The *Cub Scout Leader Book* provides some excellent tips for leaders working with boys on craft projects. In addition, the following steps will help leaders teach crafts:

1. Choose a project with the help of the boys. Make sure the project is something that has a purpose and that they will enjoy making.
2. Make a pattern, if needed. Have enough pattern pieces available so that boys don't have to wait to trace them.
3. Make a sample to show the boys, but remember: These are age-appropriate crafts for boys, so don't go overboard and make your sample too elaborate.
4. Gather enough materials and tools so everyone can work at the same time.
5. Teach the craft step by step:
 - Cut out parts, as required.
 - Put them together.
 - Finish it (sand, polish, paint, etc.).
 - Clean up.
6. Whenever possible, start a craft in a den meeting that boys can finish at home with family help. Be sure, however, that the family is aware of the responsibility and has any instructions and materials necessary.
7. Display the craft projects at a pack meeting.

Leaders should guard against crafts that are simply “busywork” of the “cut-and-paste” type that are below the boys’ abilities and interests. Crafts should be more than mere handwork: They should be a creative outlet and a form of expression, as well as a way to learn skills. By relating crafts to the monthly theme, you give each boy a chance to live a new dream each month and to create the costumes, props, and other items to help make that dream a reality. Sometimes, leaders think they need to have a craft project at every den meeting. But remember that crafts are only one of many activities used to accomplish the purposes of Cub Scouting. Overemphasizing crafts may discourage boys whose interests and abilities lean in other directions.

HELPING THE BOY WITH CRAFTS

- Encourage the natural creative urge in each boy. If you don’t, the urge may disappear and be replaced by lack of confidence in his own abilities.
- Through praise, you can help the boy build self-confidence in his abilities.
- Learning by doing is important.
- Show enthusiasm for the boy’s progress. Don’t be overly critical.
- Show him how—but don’t lose patience and take a tool away from him because you can do it better or faster. This will discourage him and destroy his self-confidence.
- Be patient. Remember: Boys may have to be shown over and over how to use a tool.
- Be tactful. Offer your help during difficult parts of a job by saying, “Let’s work on this part together.”

RESOURCES FOR CRAFT MATERIALS

Materials for crafts should be simple and inexpensive. In most cases, you can find scrap materials for crafts around the home. Most communities have many resources for craft materials. Although you may have to purchase some specialized items at craft and hobby stores, you can acquire most through salvage and surplus or donation.

Check telephone directories and begin looking for places where you might be able to obtain aluminum foil, burlap, canvas, clay, cord, floor covering, leather and vinyl scraps, nails, paper bags, plastic rope, sandpaper, spools, etc.

Here’s a “starter” list of possible resources for craft materials. Most of the sources listed have scrap that is available for the asking, or at minimal cost. Keep your eyes and ears open for the endless list of “beautiful junk” available for recycling into Cub Scout crafts.

- **Lumber Company:** Wood scraps, sawdust, and curls of planed wood may be given away by the boxload. Make your contact and request, and then leave a marked box to return and pick up later.
- **Grocery Stores:** Check grocery stores for boxes of all sizes and shapes. Discarded soft drink cartons are excellent for holding paint cans.
- **Telephone Company:** Empty cable spools make great tables; use old telephones as props for skits; use colorful telephone wire for many different projects.
- **Soft Drink Company:** Plastic soft drink crates may be available at a minimal charge. Use them for storage or for projects. Also, use plastic six-pack rings for various projects.
- **Ice Cream Stores:** Use empty 3-gallon cardboard containers for wastebaskets and storage.
- **Medical Laboratories:** Ask for clean paraffin and tongue depressors.
- **Gas Stations and Garages:** Tires and bike tubes are great for games and obstacle courses.
- **Wallpaper Stores:** You’ll find wallpaper sample books of discontinued patterns.
- **Carpet Stores or Outlets:** Discontinued rug samples and soft foam under-padding can add to craft projects.
- **Tile Stores:** Use broken mosaic tiles for many craft projects.
- **Appliance Stores and Furniture Stores:** Large packing crates are handy for skit props and puppet theaters.

- **Newspaper Companies:** Ask about end rolls of newsprint.
- **Printing Companies:** You can never have too much scrap paper and cardstock.
- **Pizza Restaurants:** Cardboard circles are good for making shields and other craft projects.
- **Upholstery Shops and Drapery Shops:** You'll find a wide variety of fabric and vinyl scraps.
- **Picture Framing Shops:** Leftover mat boards make great awards or bases for other projects.

◆ USING SALVAGE

Many items that are destined for the trash can be used for Cub Scout craft projects. Ask families to be on the lookout for scrap materials. If you live in a community that has a manufacturing company nearby, you may be surprised at the scrap wood, plywood cutoffs, and odd pieces of metal, cardboard, leather, and plastics that you can get just by asking. Ask families to save things such as tin cans; the cardboard rolls inside paper towels, toilet paper, and wrapping paper; boxes; tree branches; plastic bottles; buttons; cloth; pinecones; and wire hangers.

Here's a partial list of useable scrap materials:

- Bottle caps—for Christmas tree ornaments, foot scrapers, wheels, construction projects, markers for games
- Bottles—for musical instruments, containers
- Broom handles—as dowels for projects
- Cardboard cartons—for construction projects, stage props, puppet stages, storage
- Catalogs—for decorations, designs, cutouts
- Clothespins—for human figures, fastening items together, games
- Coat hangers—for wires for mobiles and other constructions, skeletons for papier-mâché work
- Coffee/juice cans—for storage, planters, games
- Coloring books—for patterns for nametags, etc. Patterns can be enlarged for craft projects.
- Corrugated cardboard—for stage props and scenery, bulletin board, shields, swords
- Ice cream cartons (3-gallon)—for trash cans, drums, masks
- Ice cream spoons—for mixing paint, spreading paste, figures
- Jars—for containers for paint, paste, and brushes; decorate them for gifts.
- Juice-can lids—for tin punch projects, awards
- Leather or vinyl scraps—for key chains, bookmarks, neckerchief slides, coin purses
- Macaroni—for stringing for jewelry, pictures, and frames
- Margarine tubs—for storing small objects (lids can be used like flying saucers in games)
- Newsprint—for covering tables, papier-mâché, flip chart, growth charts, large backgrounds and scenery
- Old shirts or pajama tops—for paint smocks (cut off the sleeves), costumes
- Paper bags and old socks—for hand puppets
- Paper plates—for plaques, masks, games
- Paper towels—for papier-mâché, cleanup
- Pipe cleaners—for simple sculptures
- Plastic water bottles and milk jugs—for planters, games, costumes
- Shelf paper—for finger painting
- Soap bars—for carving
- Sponges—for painting, printing, cleanup
- Straws—for holiday decorations, party favors, games
- Tin cans—for metal work, storage containers, planters

- Tongue depressors and craft sticks—for mixing paint, modeling tools
- Wallpaper—for book covers, paper for painting
- Wrapping paper—for murals, painting
- Yarn—for hair for wigs and puppets, holiday ornaments

◆ TIPS FOR PAINTING

Acrylics: Jar acrylic is more economical, but acrylic paint is also available in tubes. It can be thinned with water. Brushes clean easily with water. Acrylics are nontoxic, good for painting almost anything, and don't need a finishing coat.

Tempera: Water-based paints such as tempera are great for Cub Scouts. Powdered paint is more economical but messier. Mix powdered tempera with water and add a little liquid starch, which helps the paint go further and not run.

Cleaning Brushes: Different paints need different cleaners. For tempera, poster paint, or acrylics, use water. The boys can clean up after using these paints; adults should supervise cleanup for other media. To clean varnishes, oils, or enamels, use turpentine, mineral spirits, or kerosene. For shellac, use shellac thinner. For model paint, use the recommended thinner. For lacquer, use lacquer thinner. These solvents are flammable and should be used outside and well away from sparks and flames. Adequate ventilation is required when working with any of these paints or solvents.

Finishing Coats: Objects painted with tempera or poster paint will have a dull finish and will not resist moisture. For a shiny finish and for protection, spray with clear plastic or clear varnish, or finish with a coat of diluted white glue. Acrylic paint does not need a finishing coat.

Paintbrush Substitutes: For large items such as scenery, use a sponge dipped in tempera. For small objects, use cotton swabs.

Painting Plastics: For painting plastic milk containers or bottles, mix powdered tempera with liquid detergent instead of water or starch. The paint will adhere better.

Painting Plastic Foam: Some types of paint will dissolve plastic foam, so only use one that is recommended. Test it first on a scrap.

Painting Wood: It is best to give raw wood a coat of wood sealer or thin shellac before painting to prevent the paint from soaking into the wood.

Spray Painting: A spray bottle works well for spray painting large items. Use diluted tempera or poster paint. If using commercial spray paints, be sure to read the label and follow any instructions.

◆ TIPS FOR ADHESIVES

- To save money, buy white glue in quart sizes and pour into small glue containers for the boys.
- To make heavy-duty glue, mix cornstarch with white glue until the mixture is as thick as desired.
- For small glue jobs, put glue in bottle caps and let boys use toothpicks or cotton swabs.
- Clear silicone is the best glue for plastic bottles and milk containers. It is available at hardware stores and requires adult supervision.
- Egg white is a good adhesive for gluing kite paper. It is strong and weightless.
- Tacky white glue is the best adhesive for plastic foam. A little goes a long way.
- Wheat paste (wallpaper paste) is a good paste for papier-mâché. Flour and water make a good paste too.
- Masking tape and cellophane tape can be used successfully in many projects.

APPENDIX 4

GAMES

WHY WE USE GAMES

Games are part of all the fun of Cub Scouting. Skills and interests boys develop now teach self-confidence, independence, and the ability to get along with others. Children learn through play.

For these reasons, games are an important part of Cub Scouting. Games not only help to accomplish Cub Scouting's overall objectives of citizenship training, physical fitness, and character development, they have educational benefits, too. Games teach a boy to follow rules, to take turns, to respect the rights of others, to give and take, and to play fair. Some games help boys to develop skills, body control, and coordination. Some teach self-confidence and consideration for others. Games stimulate both mental and physical growth, as well as providing an outlet for excess "boy energy."

HOW TO CHOOSE GAMES

When choosing a game, you should consider three things: the physical aspects, mental values, and educational values of the games as they relate to Cub Scouting.

Consider first the physical aspect: the release of surplus energy. An active game should be satisfying to the strongest boy and yet not overtax the weakest. It should stimulate the growth and development of muscles. Most outdoor games meet this test.

Boys of Cub Scout age are growing rapidly. They like to run, jump, climb, lift, balance, crawl, bend, yell, chase, and hide. Generally, long walks or runs and other exercise involving endurance are not as suitable for boys of this age. (Also, boys who have had recent severe illness should not take part in active games.)

Some games are selected for their mental values because they have an element of excitement or accomplishment. Games can help boys develop quick thinking, alertness, and strategy. Many games offer boys opportunities to express their feelings and emotions, which is healthy.

Boys need to learn to play fair and to follow the rules. They also need to learn that they can't always be winners. Many boys of Cub Scout age have not yet learned to lose gracefully. Your task as leader is to make it clear that losing a game is not the end of the world and that a loss should be an incentive for the boy to try to improve his skills.

Some games are selected for their educational value. Boys' minds are more receptive to learning when learning is fun. Their interest and concentration are probably never higher than during play. Games are a way to help boys learn that rules and self-discipline are necessary and that doing one's best is important. Most Cub Scout games help in character development because they require teamwork, fair play, and consideration for others.

Consider these factors when choosing games:

- Purpose (physical, mental, educational)
- Space available
- Number of players
- Equipment available
- Skills and abilities of players

Whether the game involves group competition with team winners or individual competition or is just for fun, the results should be positive and lead to building character and helping boys grow and develop.

SUGGESTIONS FOR LEADING GAMES

Boys will like most games if leaders have fun leading them. Anyone can be a successful games leader by following these simple suggestions:

- Know the rules of the game and have the necessary equipment on hand. Plan not only what you are going to do, but how you are going to do it.
- Start with your best game—one that is easy to explain and enjoyable to play. In addition to bolstering your own confidence, a successful game can enhance the morale of the players.
- Make sure the space available is large enough so everyone can play. Mark off boundaries for active outdoor games with brightly colored cones.
- Remove potential hazards from the play area. Follow health and safety rules.
- Get the full attention of the group and then explain the rules of the game simply, briefly, and in proper order. Be enthusiastic.
- For team games and relay races, you must have equal numbers of players on each team. If the teams are unequal, one or more boys on the smaller team must compete or race twice.
- As a rule, Webelos Scouts are larger and stronger than first-grade Tigers and second- and third-grade Cub Scouts. For some pack competitions, have boys in the same grade compete against each other, but not against older or younger boys. With this method, several winners can be recognized.
- An alternative is to mix the groups so that each team has boys from each age or grade.
- Remember to adapt your game to meet the needs of any Scouts with special needs.
- Teach the game by steps or through demonstration.
- Ask for questions after explaining and demonstrating the game.
- Be sure boys follow the rules. Insist on good sportsmanship and fair play.
- If the game is not going right, stop it and explain the rules again.
- Don't wear a game out. Quit while the boys are still having fun.
- Have enough leaders to handle the group.
- Keep It Simple; Make It Fun (KISMIF).

Teach games to boys with the hope that they will be able to play and lead these same games independently in other settings, such as at school or in the neighborhood.

Coach your den chief in leading games. This will enhance his leadership role. Find creative ways to develop leadership skills among the boys so that they may soon be able to play on their own without the assistance of a den leader or den chief.

CHOOSING “IT” AND TEAMS

There are many ways to choose the boy who will be “It” for any game. Here are some suggestions, but make up others that work for your group.

- By birthdays, starting with January 1
- By alphabet, using first or last names
- By drawing a name out of an “It” box. After a name is drawn, it goes into a second box marked “It.” When all names are in the second “It” box, put them back in the first box to begin again.

When choosing teams, try one of these ideas:

- Even-numbered birthdays against odd-numbered birthdays
- First half of the alphabet against the last half
- Drawing names from a box. Each boy decorates a craft stick with his name on it and any other creative artwork he wishes. When you need teams for a game, pull out two sticks and put them in separate piles. Continue to pull out pairs of sticks, separating them into two piles, which will be your teams. When you are finished, replace all the sticks so they will be ready for the next team game.

You can also make a game of choosing sides. Have boys sit in a circle and then whisper in each boy’s ear the word “Wolf” or “Bear.” Then they must make the appropriate animal sound to find the other members of their team.

COOPERATIVE GAMES

Cooperative games emphasize teamwork and creative thinking as players face a particular challenge. Leadership opportunities within the group often arise during play. Cooperation between group members is essential. Everyone “wins” as they help and cheer each other on to a successful outcome.

In general, cooperative games:

- Include questions that have no expected solution; thus there is no “right” or “wrong” answer.
- Stimulate one’s imagination and thinking process.
- Emphasize playing rather than being eliminated from the competition.
- Are fun!

MAKING GAMES COUNT— LEADING REFLECTIONS

A reflection is a discussion led by a leader that helps Scouts learn from games and other activities. It is helpful and important to ensure that Scouts and leaders learn this process well in order to benefit most from it. As their time in Scouting continues, reflections will be led by experienced Scouts for other Scouts.

Reflection really includes two processes—thinking about what occurred and making sense of it. Reflection helps to integrate the experience into life. This is how we learn from experience. A reflection can help young people see how the skills they use to overcome challenges when playing games are the same sort of skills that they can use to overcome challenges in life.

Facilitate the discussion. As a leader, avoid the temptation to talk about your own experiences.

Reserve judgment about what the Scouts say to avoid criticizing them. Help the discussion get going, then let the Scouts take over with limited guidance from you. If you describe what you saw, be sure your comments don’t stop the participants from adding their own thoughts. Above all, be positive. Have fun with the activity and with the processing session!

Use thought-provoking questions. The following types of questions are useful in reflecting:

- **Open-ended questions** avoid yes and no answers. “What was the purpose of the game?” and “What did you learn about yourself?”
- **Feeling questions** require participants to reflect on how they feel about what they did. “How did it feel when you started to pull together?”
- **Judgment questions** ask the participants to make decisions about things. “What was the best part?” or “Was it a good idea?”
- **Guiding questions** steer your Scouts toward the purpose of the activity and keep the discussion focused. “What got you all going in the right direction?”
- **Closing questions** help Scouts draw conclusions and wrap up the discussion. “What did you learn?” “What would you do differently?” “How might you use this skill in other settings?”

Reflecting on an activity should take no more than 4–5 minutes for Tiger-aged youth. For older Cub Scouts, the reflection may last up to 10 minutes. The more you do it, the easier it becomes for both you and your Scouts. Remember that the value and values of Scouting often lie beneath the surface. Reflection helps you ensure that these values come through to your Scouts.

It is very important to use open-ended questions during reflections. Your goal is to help young people learn from their experiences. Rather than direct a Scout to specific outcomes (e.g., “Did it make you feel bad?”), allow him to come to his own understanding of the activity. The use of closed questions and asking/telling children what they are experiencing with an initiative game and the reflection that accompanies it will undermine the value of the process.

The sequence below is a helpful way to organize the questions you pose during the reflection. You want to have your participants identify (1) the purpose of the activity, (2) the challenges they encountered while taking part in the activity, and (3) what they might do differently next time (how to better apply the skill for greater future success).

Questions	Responses to elicit
Focusing Questions	<i>What did you do?</i>
What was the purpose of the game?	Have participants identify the specific actions they were to undertake. The answer should be as concrete and specific as possible.
Analysis Questions	<i>What did you do? or, How did you do it?</i>
Ask questions that help them analyze the success or challenges they encountered while playing the game. The questions should help frame the challenges they experienced in the game or activity around actions—and not around people. Later in Scouting, they will analyze obstacles to success in terms of leadership skills that games help them explore.	Seek to elicit answers to identify challenges in completing the task and how a particular obstacle was overcome.
Generalization Questions	<i>How will you use what you learned?</i> <i>How can participants use this skill more effectively?</i>
What will happen next time the group encounters obstacles related to the application of this skill?	The Scouts should demonstrate the ability to generalize from the challenges encountered in the game or activity to “real world” applications of the skill.

GAMES

◆ ACTIVE GAMES WITH EQUIPMENT

BALLOON BATTLE ROYAL

Activity Level: High

Needed: Any number of players, balloons, string

Arrange Cub Scouts in a large circle, each with an inflated balloon tied to his ankle. On a signal, players try to break all other balloons by stamping on them, while not letting their balloon get broken. When a balloon is broken, that player leaves the game. The game continues until only one player is left.

CAT'S TAIL

Activity Level: Moderate

Needed: Even number of players; pieces of cloth or yarn, different colors for each team

Divide the group into two teams. Hide several pieces of cloth or yarn—a different color for each team. One boy on each team is a Cat Without a Tail. On a signal, all players search for “tails” of their color. As each is found, it is tied to the belt of their Cat. The winner is the team whose Cat has the longest tail at the end of five minutes.

◆ ACTIVE GAMES WITHOUT EQUIPMENT

BEAR IN THE PIT

Activity Level: High

Needed: Any number of players

Boys form a circle. One player inside the circle is the Bear. While the others hold hands tightly, the Bear tries to get through the ring by force or by dodging under their arms. He may not use his hands to break the grip of the players in the ring. When he does break through, the others try to catch him. The first one to tag him is the next Bear.

SHERE KHAN (THE TIGER GAME)

Activity Level: High

Needed: Large room or outdoor area, any number of players

One boy is Shere Khan, the tiger, and stands in the center of the playing area. All others line up against a wall. The object of the game is to cross to the opposite wall without being tagged. To start the game, Shere Khan says, “Who’s afraid of Shere Khan?” The others answer, “No one,” and immediately run across the open space toward the opposite side. All boys tagged help Shere Khan tag the remaining players in the next round. The last one tagged becomes Shere Khan the next time.

Variation: With a big field and a large number of players, half can be Shere Khans and half men. This game is also known as Pom-Pom Pullaway.

◆ BALL GAMES

BUCKETBALL

Activity Level: High

Needed: Large room or playing area; even number of players; ball; two baskets, boxes, buckets, etc., for goals

This basketball-type game can be played with any type of ball that bounces and a couple of large containers such as laundry baskets, bushel baskets, or large wastepaper baskets. Place the baskets (goals) about 60 feet apart (closer if necessary because of space). Divide boys into two teams and play using basketball rules. No points are scored if the ball doesn't remain in the basket or if the basket turns over.

MONKEY IN THE MIDDLE

Activity Level: Moderate

Needed: Medium-sized playing area, three players, playground ball or volleyball

Three players play this game. Choose one to be the Monkey. The other two players stand about 10 feet apart while the Monkey stands between them. The two end players toss the ball back and forth, trying to keep it high enough or moving fast enough so the Monkey can't catch it. If a player fails to catch the ball, the Monkey can scramble for it, or he can intercept it as it is thrown back and forth. If the Monkey gets the ball, he changes places with the player who threw the ball.

◆ BICYCLE GAMES

BIKE RELAY

Activity Level: Moderate

Needed: Large paved area, even number of riders, bike and helmet for each rider

Establish a starting line and mark off turning lines about 50 feet away in opposite directions. Divide the group into two teams. The teams will ride in opposite directions. The teams should be about 20 feet apart to avoid collisions as the riders return to the start-finish line. On a signal, the first rider on each team races to his turning line and back. The next rider may not start until the first rider's front wheel has crossed the line. Continue until all have raced.

COASTING RACE

Activity Level: Moderate

Needed: Large paved area, any number of riders, bike and helmet for each rider

The object of this race is to see which rider can coast the longest distance. Each rider pedals as hard as possible for a set distance (at least 15 feet) to a starting line, and then must stop pedaling and coast as far as he can. Mark the spot where a rider's foot touches the ground. The next rider tries to better that mark.

◆ KNOT GAMES

GIANT SQUARE KNOTS

Two Webelos Scouts hold the free ends of a 10-foot-long rope in their right hands. Working together, they try to tie and tighten a square knot without letting go of the rope.

KNOT CARD GAME

Separate the den into groups. The leader hands to each group a set of cards. On each card is the name of a knot, hitch, or lash that the den has learned. The first group with all the knots, hitches, and lashes correct wins.

◆ NONCOMPETITIVE, COOPERATIVE, AND TEAM-BUILDING GAMES

BATTING DOWN THE LINE

Activity Level: Low

Needed: Large indoor or outdoor playing area, any number of players, inflated balloons

Two or more groups may play this game simultaneously. Arrange groups in parallel lines with members spaced about 2 feet apart. On a signal, the first player bats the balloon with either hand toward the person next to him, who bats it to the next, and so on until the balloon reaches the end of the line. If the balloon touches the ground, a group member must take it to the starting line, and the group members must begin again. Try varying the spacing between players. Is it more challenging to play the game with people closer together or farther apart?

BLANKET BALL

Activity Level: Low

Needed: Indoor or outdoor area, any number of players, two sheets or blankets, two balls or large soft objects (even rolls of toilet paper work well)

Form two groups. Group members grab hold of a blanket's edges, with a ball in the center of the blanket. Players practice throwing the ball up and catching it by moving the blanket up and down in unison, trying to get the ball as high as possible. After the groups have developed some skill in catching their own ball, they toss the ball toward the other group to catch on their blanket. Groups continue throwing the balls back and forth. Group members might reflect on how they decided to toss the ball to the other team.

Variation: Try using water balloons outdoors on a hot day.

◆ PARACHUTE GAMES

PARACHUTE VOLLEYBALL

Place a small (6- to 10-inch) playground ball in the middle of the parachute. Players distribute themselves evenly around the rim of the chute, with the players along one half being team A and the others, team B. The object is for one team to flip the ball off the parachute on the other team's side to score a point. The high scoring team after a certain time, or the first team to attain a certain score, wins.

Variation: Keep a running tabulation of the scores instead of individual team scores. Play several times to see how low the score can be after a predetermined length of time.

THE UMBRELLA

Players grasp the parachute waist-high using an overhand grip, making sure the hole of the parachute is on the ground. On the count of "one," everyone flexes his knees to a squatting position. On the count of "two, three, and UPI!" everyone stands and raises arms overhead, pulling the parachute up and over their heads. As the chute billows out, the players will be pulled to their tiptoes and their arms will be stretched high in the air. The parachute is allowed to remain aloft and then slowly settle back to the ground. This can be done from a sitting or kneeling position—or even from wheelchairs.

◆ RELAYS AND RACES

BALLOON SWEEPING RELAY

Activity Level: High

Needed: Even number of players, balloons, brooms

Arrange teams in parallel lines. Place an inflated balloon on the floor in front of each team. Give the first boy in each team a broom. On a signal, he sweeps the balloon to a turning line and back and then hands the broom to the second player, who repeats this action.

BALLOON KANGAROO JUMPING

Activity Level: High

Needed: Any number of players, balloons

Boys line up side by side, each with an inflated balloon between his knees. On a signal, boys hop to the other side of the room and back to the starting line. The one finishing first wins. If a boy breaks his balloon, he is out of the race. If a boy drops his balloon, he must replace it between his knees before he can keep going.

◆ PHYSICAL FITNESS ACTIVITIES

CIRCLE HOP

Draw a circle about 6 feet in diameter and stand two boys inside it. They face each other with their arms folded and one leg extended in front. On a signal, they try to upset or force each other from the circle by using the extended leg. They may hook or lift with the leg but must not touch their opponent with any other part of the body. Kicking or pushing with the uplifted leg is not permitted.

CRAB WALK

From a squatting position, boys reach backward and put their hands on the floor without sitting down. They walk forward, keeping their heads and body in a straight line.

◆ QUIET GAMES WITH EQUIPMENT

CLIP IT

Materials: Small dish with paper clips for each team

Each team has a small dish filled with paper clips. On a signal, the first person joins two paper clips together and passes the dish and beginning of the chain to the next person. That player adds another clip to the chain and passes it on. After a set time (five to eight minutes), the paper clip chains are held high in the air to see which team has the longest. This can be a good game to play at a blue and gold banquet, with each table having a dish with paper clips.

BLOWBALL

Materials: Small table or large box, table tennis balls

Boys sit at a table small enough so they are close together. Put a table tennis ball in the center of the table. On a signal, the players, with their chins on the table and their hands behind them, try to blow the ball away from their side of the table. If the ball falls on the floor, return it to the center of the table and continue.

◆ QUIET GAMES WITHOUT EQUIPMENT

ABOVE AND BELOW

Boys stand in a circle. One at a time, call out the names of things that are found either above or below the ground. For example, strawberries grow above the ground; potatoes grow below the ground. When you call the name of something that is found above the ground, the players stand; if it is found below the ground, they sit down. A player is eliminated if he responds incorrectly. The last player to remain in the game wins.

Variation: Call out the names of things that fly and crawl.

ELECTRIC SQUEEZE

Boys form a circle and hold hands, with "It" in the center. One player starts the "shock" by squeezing the hand of one of the boys next to him. That player passes it on. The shock may move in either direction. "It" watches the faces and hands of the players, trying to spot the location of the shock. When he guesses correctly, the player caught becomes "It."

◆ HOMEMADE GAMES

HOMEMADE RING TOSS

Invert a shallow cardboard box and push old-fashioned clothespins (not the spring-type) through the cardboard. Mark each pin with a number of points. Boys toss rubber, metal, or plastic rings from a distance away.

TEETERBOARD JOUSTING

Make two teeterboards as shown (24 inches in diameter with 4-inch-high rockers). Make the padded jousting poles from plumber's suction cups, soft rubber balls, and squares of cloth. Place the boards so that the players are just within reach of each other. Each "knight" tries to push his opponent off his board. When any part of a knight's body touches the floor, he is beaten. *Only pushing is permitted; do not permit swinging or hard thrusting of the poles!*

◆ TIRE GAMES

ROLL FOR DISTANCE

Each boy rolls his tire as hard and as fast as he can up to a stopping line. The player whose tire rolls the farthest wins.

TIRE ROLLING RELAY

Form two teams and give the first boy on each team a tire. Place a stake or chair opposite each team on a turning line. On a signal, the first player rolls the tire to the turning line, around the stake or chair, and back to his team to the next player.

◆ WATER GAMES

UP AND UNDER

Swimming Ability Level: Nonswimmers and up

Materials: Playground ball

Dens line up in relay formation in waist-deep water. The first boy on each team has a large ball. On a signal, he passes the ball overhead to the second player, who passes it between his legs to the third, who passes it overhead, and so on to the end of the line. The last player runs to the head of the line and passes it as before.

CORK RETRIEVE

Swimming Ability Level: All boys should be of the “Swimmer” ability level.

Materials: Ample supply of corks or wooden blocks

Scatter a dozen or more corks or blocks of wood on the far side of the pool. On a signal, boys jump in and try to retrieve the corks, bringing them back to the starting point one at a time. The boy with the most corks wins.

LIVE LOG

Swimming Ability Level: All boys should be of the “Swimmer” ability level.

Establish a goal at one end of the pool. One boy is the “log.” He floats on his back in the center of the pool. The others swim around him. At any time the “log” may roll over and begin chasing the others, who race for their goal. Any player who is tagged becomes another “log,” and the game resumes. Continue until there is only one player left who has not been tagged.

◆ WINTER GAMES IN THE SNOW

FOX AND GEESE

Needed: Freshly fallen snow on an open playground

In a large flat area, make a circle about 30 yards in diameter in the snow. Inside, make crisscrossing paths in any direction. Some may be dead ends. Where the paths cross in the center, make a safe zone. Make more than one circle, depending on the number of players, and make sure the circles are connected. One player (the Fox) chases the others (the Geese), but all must stay on the snow paths. When the leader says “Go,” the Fox chases the Geese, trying to tag one of them. A Goose can’t be tagged while standing in the safe zone, but if another Goose wants to use the safe zone, the first Goose must give it up. When a Goose gets caught by the Fox, he becomes the new Fox.

SNOWBALL SHARPSHOOTING

Materials: Old sheet or blanket or piece of cardboard, clothespins, scissors

Hang an old sheet or blanket on a clothesline with plenty of clothespins. Cut three or four holes in the sheet, each 8 to 12 inches across. Boys stand 12 to 15 feet away and try to throw snowballs through the holes. Each snowball that goes through a hole is worth one point. If boys are real sharpshooters, have them move farther away to throw.

Variation: For Tigers or younger boys, use a hula hoop as the target. Suspend it from a tree or clothesline. A player could hold the hoop and use it as a moving target, slowly moving up or down as the other boys aim and shoot.

APPENDIX 5

OUTDOORS

Outdoor activities are an important part of Cub Scouting. Boys learn to appreciate and care for the beautiful environment all around them as they hike, explore, and investigate the world. The Cub Scouting outdoor program is a foundation for the outdoor adventure boys will continue to experience when they move on to a Boy Scout troop.

All Cub Scouts should have opportunities to enjoy the outdoors. Remember: You don't need to go far to share the wonder of nature with children. There are many opportunities for everyone to have outdoor experiences—even just in the neighborhood. Also remember that Cub Scouts with special needs can often enjoy outdoor activities with only minor modifications to the activity.

WHAT TO DO IF LOST

Have boys learn the following suggestions, which can be learned with the visual cue of a stop sign:

S – T – O – P!

S = Stay calm. Stay where you are. Sit down, take a drink of water, and eat a little trail food. Stay where you can be seen. Don't hide! You are not in trouble!

T = Think. Think about how you can help your leaders or others find you. Stay where you are, and be sure people can see you. Make yourself an easy target to find. Remember, people will come to look for you. Stay put, be seen, and help them find you!

O = Observe. Listen for the rest of your group or people looking for you. Blow your whistle three times in a row, then listen. Three of any kind of signal means you need help, and everyone will try to help you.

P = Plan. Stay calm, stay put! Plan how to stay warm and dry until help arrives. Don't worry, you will be found.

HEALTH AND SAFETY

The health and safety of boys, leaders, and families must be one of the first considerations in planning any outdoor activity. Try to anticipate and eliminate hazards—or at least warn against them. Most accidents can be prevented. The *Guide to Safe Scouting* should be the primary resource for safety policies and procedures, and the most current version is available online at www.scouting.org/HealthandSafety/GSS/toc.aspx. Additionally, see the *Cub Scout Leader Book* for outdoor safety rules, and see Safe Swim Defense (swimming) and Safety Afloat (boating) information at www.scouting.org/HealthandSafety/GSS/gss02.aspx and in the Aquatics section of the Appendix.

Also, follow these tips when planning and conducting an outdoor activity:

- Always get permission from parents or guardians for activities that are held away from the regular den and pack meeting places. Better yet, take the families with you!
- Be sure to have enough adult leaders for the activity planned. Always follow the policy of two-deep leadership.
- Check out the site before the activity. Find out about gathering places, restroom facilities, and safe drinking water. Look for hazards such as poison ivy.
- If applicable, get permission from the owner to use the property.

- Use the buddy system to prevent anyone from getting lost. Coach the boys in advance about what they should do if they get lost (see above).
- Carry a first-aid kit and know how to use it. Know basic emergency first-aid procedures.
- File a tour and activity plan with your local council service center two weeks before any den outing or campout.
- Have adequate and safe transportation.
- When leaving the site, take everything you brought with you. Leave the site in its natural condition.

FUN ON HIKES

When did you last watch a colony of ants scurrying about as they worked hard? Or investigate a hollow tree? Or travel an unbeaten path? These are just a few things that you and the boys can do when you go hiking. The fun lies in observing everything around you as you hike, and while observing, talking about what you see. Enjoy nature—but *don't remove growing things from their natural habitats.*

You can hike in your own neighborhood or a nearby park, or you can travel to an out-of-the-way location. Or go to a nature center. Many nature centers include wheelchair-accessible trails so all boys can participate.

There are many types of nature hikes, some of which include nature activities. Several nature hikes are described here. See the *Cub Scout Leader Book* for other types of hikes and for hiking safety rules.

Note: Always use the buddy system on hikes for safety and to prevent anyone from getting lost. Buddies should remain together at all times.

TYPES OF HIKES

◆ SEASONS HIKE

Materials: Pencils and crayons, notebooks for data collection, field guides

Choose a hiking area that you can hike in each season of the year. Each season, boys make a list of things they see along the way. Have them draw a particular area along the trail and how it changes. Which things remained the same each season? How many things changed as the seasons changed? (It's a good idea to collect and keep the boys' notebooks between seasons.)

◆ WEB OF LIFE

Materials: Pencil, paper

Animals, plants, and habitats rely on each other and form a "web of life." The soil nourishes the tree; the tree shelters the animal; the animal dies and adds nutrients to the soil. Everything in nature is affected by the many other things living around it.

Boys draw 12 small circles on paper where the numbers would be on a clock face. In each circle they draw or write the name of something they see along the hike. Encourage them to include different types of things: rocks, animals, plants, river, etc. Then have them draw a line from one circle to everything it affects or is affected by it. Continue doing the same with the other 11 circles. They have now created a web of life for this area. Was there anything that didn't have lines and didn't affect anything else? What would happen if you covered up one of the circles and it was gone from your area? How many other things would its absence affect?

◆ TRACKS AND SIGNS

Be a keen observer whenever you are out in nature. Look for all types of signs of animals and birds. Identify bird and animal tracks. Make plaster casts of animal tracks.

◆ MICRO HIKE

Materials: Strings 3 to 5 feet long

Lay strings out along an area to study. Boys cover the string trail inch by inch on their stomachs, with their eyes no higher than 1 foot off the ground. They may see such wonders as grass blades bent by dewdrops, colorful beetles sprinkled with flower pollen, powerful-jawed eight-eyed spiders, and more. Ask questions to stimulate their imaginations: "What kind of world are you traveling through?" "Who are your nearest neighbors?" "Are they friendly?" "Do they work hard?" "What would life be like for that beetle—how would it spend its day?"

◆ NATURE SAFARI

Materials: Field guides, pencils, paper

This hike will help boys learn to identify animals. See how many different species each boy can see on this local safari.

◆ SENSE OF TOUCH

This hike will illustrate the many textures of nature. Make sure that boys are instructed to examine the objects they find, not take them. Examples of what the boys may look for:

- The hairiest leaf
- The roughest rock
- Something dry
- The softest leaf
- The roughest twig
- Something warm
- The smoothest rock
- Something cool
- Something bumpy

Ask questions such as: “What did you find that was dry? Why was it dry?” “How might it be different tonight? Next summer/winter?” “How did it get there?” “Does it belong there?” “Did people have anything to do with it being there?” “Has it always been the way it is?”

◆ NATURE BABIES

Look for “nature babies”—birds, ferns, leaves, snails, insects, etc. How are the babies protected? How are they fed? Do not touch baby birds or animals. Look only from a little distance. Most babies that seem abandoned by their parents really aren’t. Mother or father may be nearby.

◆ HEADS-TAILS HIKE

Materials: Coin

Toss a coin each time you reach a crossroads. Turn left if the coin turns up heads, right if the coin is tails.

◆ NATURE NOISES

This is a great way to help boys notice and enjoy the sounds around them. Stop along the hike at different points. Boys sit or stand very still and listen. As they hear a new sound, they raise their hand as a signal. They can “collect” different sounds on their fingers, holding up a finger for each sound they hear. Can you count to 10 in between sounds? Listen for birds, animals, wind in the trees, falling leaves, or rushing water.

◆ COUNT THE COLORS

Materials: Crayons, paper, pencils

Each boy selects five crayons and colors an area on a piece of paper with each crayon. Take the paper on a hike and write each object found that matches the colors. Write them under the colored area on the paper. Ask boys how many colors they can see without moving from where they are.

◆ INCH HIKE

Materials: Small rulers

Find as many objects as possible that are 1-inch high, long, etc. Use the small rulers to measure. This helps boys notice the small things that they might otherwise overlook.

◆ A-B-C HIKE

Materials: Pencils, paper

Write the letters of the alphabet vertically on a piece of paper. On the hike, find an object, sound, or smell in nature for each letter and write it down.

◆ STRING-ALONG HIKE

Materials: 36-inch piece of string

Take the piece of string on your hike. Every now and then, place the string in a circle on the ground. See how many different things you can find enclosed in the circle. Then stretch the string in a line and see how many different things touch it.

◆ SURPRISE BREAKFAST HIKE

Materials: Breakfast fixings for everyone

Make arrangements ahead of time with the parents of your boys to go on a “surprise” hike. Pick the boys up at their homes and head out on an early-morning hike, cooking (or providing) breakfast outdoors.

◆ NIGHT HIKE

In areas where it is safe to walk at night, try a hike after dark. See how different things look, smell, and sound at night. Don't use flashlights, as they will lessen your ability to see and reduce your awareness of what is happening in the dark. Carry flashlights for emergency use only.

◆ SILENT HIKE

This hike can be difficult to accomplish but powerful in helping boys appreciate the world around them. Calm the boys by having them sit alone and a few feet apart for a short period of time. On the den leader's signal, the group begins to move along the trail tapping shoulders and pointing to share the sights and sounds of the hike. No talking!

HIKING GAMES

While out on a hike you might want to stop to have a rest, enjoy lunch, or play a game. Here are some ideas for activities while taking a hiking break.

◆ KNOW YOUR ROCK

Materials: Tape, pencil, rocks found on your hike

Each boy finds a fist-sized rock, remembering where he found it so he can return it after the game. All sit in a circle with eyes shut, holding their rocks. Tell them to “get to know” their rocks by the feel, texture, smell, etc. After a few minutes, collect the rocks, mix them up, and redistribute them. The boys pass the rocks around the circle and try to identify their own rock with their eyes still shut. To help prevent any disagreements, affix a small piece of tape to each rock with the owner's initials. Be sure to remember to remove the tape when you leave the rock behind!

◆ KNOW YOUR LEAF

Materials: Leaves

This is similar to Know Your Rock. With eyes open, each boy gets to know a leaf by its shape, size, color, veins, etc. Then put all leaves in a pile and let one boy at a time try to find his, explaining to the group how he did it and what he looked for.

◆ GRAB BAG

Materials: 15 items from nature, 15 small paper bags

Collect 15 items from nature, such as pinecones, nuts, shells, etc., and place each in a small paper bag. Pass the bags around the circle of boys and let them try to identify the object by feeling the outside of the bag.

◆ NATURE PHOTOGRAPHER

Boys work in buddy pairs, with one boy acting as the “camera” and the other as the “photographer.” The photographer guides the camera, who has his eyes closed, to an interesting nature picture. When the photographer is ready to “take the picture,” he taps on the camera’s shoulder to signal him to open and close his eyes. The photographer can “adjust” his camera to take tight- and wide-angle shots and to use interesting angles and perspectives. The camera and photographer should talk as little as possible to enjoy this experience. The photographer should also remember to guide his camera safely. After several pictures have been taken, it will be time for the photographer and camera to switch positions and begin again.

◆ NATURE KIM’S GAME

Materials: Nature items, towel or jacket

Gather nature items such as pinecones, leaves, twigs, rocks, etc. Place them in an area for the boys to study. After a few minutes, cover the items with the towel or jacket and have the boys try to remember all the now-hidden items.

◆ CAMOUFLAGE TRAIL

Materials: 15 or 20 human-made objects

This game can open doors to a discussion about how an animal’s color can help protect it. Along an area of trail, place 15 or 20 human-made objects. Some objects should stand out and be bright colors. Some should blend in with the surroundings. Keep the number of objects a secret. Boys walk along the section of trail, spotting as many objects as they can. When they reach the end, they whisper to you how many they saw. Invite them to go back and see whether they can spot any that they missed. Be sure to track the objects you have placed and collect them all when the game is finished.

◆ NATURE SCAVENGER HUNT

This hunt is intended to test the boys’ knowledge of nature in an exciting competition. It is run like any scavenger hunt—each group of boys gets a list of objects from nature with the goal of finding as many as possible within a given time limit (10 to 20 minutes). Set boundaries for the hunt, and list 20 to 50 objects from nature that boys can find within the area. Objects should be common enough that a Cub Scout can identify most of them. Make sure that boys are marking these items off their list and leaving the items themselves undisturbed. Your list will reflect nature items that can be found in your locale, but here are some common suggestions:

Anthill	Oak leaf	Maple leaf
Dandelion	Insect	Cocoon
Spider web	Animal track	Bird’s nest
Needle from an evergreen	Barrel cactus	Acorn

BSA OUTDOOR ETHICS PROGRAM

Wilderness conservation depends on understanding and respect for wild places. It also supports the idea that that we do not inherit wildlands from previous generations, but instead we are borrowing these places from our children. What we use now—and what we use up now—will be compromised for future generations.

The Boy Scouts of America has long had a commitment to outdoor ethics and conservation practices.

The Cub Scout program includes outdoor stewardship and care for the environment as demonstrated through the BSA's Outdoor Code and the Leave No Trace Principles for Kids. These guiding principles serve as part of an overall program supporting ethical decision making in the outdoors and are an appropriate place to start with Cub Scouts.

THE OUTDOOR CODE

As an American, I will do my best to—

- ◆ Be clean in my outdoor manners,
- ◆ Be careful with fire,
- ◆ Be considerate in the outdoors, and
- ◆ Be conservation minded.

LEAVE NO TRACE* PRINCIPLES FOR KIDS

Know Before You Go
Choose the Right Path
Trash Your Trash
Leave What You Find
Be Careful With Fire
Respect Wildlife
Be Kind to Other Visitors

**The member-driven Leave No Trace Center for Outdoor Ethics teaches people how to enjoy the outdoors responsibly. This copyrighted information has been reprinted with permission from the Leave No Trace Center for Outdoor Ethics: www.LNT.org.*

APPENDIX 6

RESOURCE GUIDE FOR AQUATICS ACTIVITIES

WATER SAFETY

Water activities can make good den or pack activities, but safety rules are very important any time a pack is holding an event around water. Some of the boys are probably nonswimmers, and it is likely that some who think of themselves as swimmers can't swim very far or safely in deep water.

To ensure safe aquatics activities, the Boy Scouts of America requires implementation of Safe Swim Defense and Safety Afloat plans whenever Scouting units engage in swimming or boating activities. Swimming or boating activities must be supervised by at least one adult with current training in the appropriate program. That training may be obtained online at MyScouting.org or at various other Scouting venues. (However, training not done online is valid only if the participants are shown the same video viewed online. Those videos are available as items AV-09DVD29 and AV-09DVD02.)

Safe Swim Defense and Safety Afloat provide awareness training of the procedures and skills needed to keep youth safe in and on the water. A conscientious adult who completes the training should learn enough to decide if he or she is sufficiently experienced and well-informed to make appropriate decisions to prevent incidents and to plan for and respond appropriately during emergencies. Additional information to make that assessment is found in the BSA publication *Aquatics Supervision*, No 34346.

Aquatics Supervision also serves as the text for Aquatics Supervision: Swimming and Water Rescue, and Aquatics Supervision: Paddle Craft Safety training. Those two adult training courses teach the skills needed to implement Safe Swim Defense and Safety Afloat procedures in various settings. Each course takes approximately eight hours. Check with your council service center for course offerings.

Leaders may also obtain skilled help to plan and conduct safe aquatics activities by consulting with the local council aquatics committee. Check with your council service center for contact information.

BSA SAFE SWIM DEFENSE

BSA groups shall use Safe Swim Defense for all swimming activities. Go to www.scouting.org/OutdoorProgram/Aquatics/safe-swim.aspx for detailed information about the eight principles.

1. Qualified supervision
2. Personal health review
3. Safe area
4. Response personnel (lifeguards)
5. Lookout
6. Ability groups
7. Buddy system
8. Discipline

HOME SWIMMING POOL SAFETY FOR UNIT EVENTS

All elements of Safe Swim Defense apply at backyard pools even though they may be small, shallow, and familiar. The biggest danger is probably complacency. Adult supervision must be continuous while the pool is in use. A Cub Scout who can't swim can drown silently within 20 seconds of entering water over his head.

Aquatics Supervision contains safety information specific to both in-ground and above-ground backyard pools. That includes the following:

- Most such pools are too shallow for diving. Diving prohibition should be discussed at a tailgate review for all participants prior to the activity.
- Beginner and swimmer areas may be combined in small, relatively shallow pools.
- Make sure to control access. Many backyard pools are too small to accommodate an entire pack at once. If other activities are also taking place, it may be best to allow only one den into the water at a time rather than allowing Scouts to move at will in and out of the water.
- Many states require pool fencing, which may help with supervision.
- If the uniform depth of an in-ground pool is too deep for short nonswimmers, they may need properly fitted life jackets.
- Rescues, if needed, should be simple. Provide reaching and throwing devices for active victims. A wading assist may be feasible for passive victims.
- For above-ground pools without decks, have a plan to remove large unresponsive adults who suffer a heart attack or other debilitating condition.

GUARDED PUBLIC POOLS WITH LIFEGUARDS ON DUTY

Aquatics Supervision also covers swimming at public pools, waterparks, and guarded beaches.

Important items include the following:

- Dens and packs do not need to assign and equip rescue personnel. Professionally trained lifeguards provided by the venue satisfy that need.
- Unit leaders are still responsible for medical screening, ability groups, the buddy system, discipline, and supervision.
- Many public pools will have a safety line at the 5-foot mark separating shallow and deep water that can be used to help designate appropriate areas for the different ability groups.
- Otherwise, appoint adult lookouts to make sure nonswimmers and beginners stay in their assigned areas.

Studies show that more than half of victims at public pools are spotted first by others rather than lifeguards. The buddy system is still very important for safety as well as instilling responsibility. It is likely awkward to conduct frequent buddy checks. Therefore, arrange a time for everyone to leave the water and meet at a given location. Then do a head count. Otherwise rely on unit lookouts, buddies, and lifeguards to maintain vigilance. At large waterparks, leaders should accompany dens moving from one feature to another after everyone in the group is accounted for.

BSA SAFETY AFLOAT (Boating Safety)

BSA groups shall use Safety Afloat for all boating activities. Go to www.scouting.org/OutdoorProgram/Aquatics/safety-afloat.aspx for more information on the nine principles.

1. Qualified supervision
2. Personal health review
3. Swimming ability
4. Life jackets
5. Buddy system
6. Skill proficiency
7. Planning
8. Equipment
9. Discipline

WATER RESCUE

Water rescue training for the lay rescuer often uses a reach, throw, row, go mnemonic to establish a safe, effective sequence for responding to water emergencies. That sequence is important to Cub Scout leaders for two distinct reasons. First it establishes the procedure that response personnel under Safe Swim Defense should follow. If professionally trained lifeguards are not available at a swimming location, then the qualified supervisor has to provide personnel and equipment suitable for likely emergencies. Fortunately, that is often not as difficult as it might first appear. For that reason, a review of the reach, throw, row, and go sequence is appropriate. Important detail can be found in *Aquatics Supervision*.

The other reason for reviewing the sequence is for age-appropriate training of youth. Drowning is the second-leading cause of accidental death for those of Cub Scout age. Therefore, there is a chance that Cub Scouts will be faced with seeing someone in trouble. That possibility is further supported by the Scouts in Action reports in *Boys' Life* magazine. Cub Scouts do save people from drowning.

However, there are also double drownings that occur yearly in the United States when well-meaning people of all ages attempt to save drowning victims. Those are often frantic friends and relatives whose swimming skills are no better than those of the person in trouble. Since Cub Scouts often lack swimming skills and the maturity to realize their limitations, it is important to modify the rescue sequence for Cub Scout training to reach, throw, row, and go for help.

Reach: This technique is appropriate to teach Cub Scouts, parents who are nonswimmers, and rescue personnel who are skilled in the water. People who can't swim often begin to struggle immediately after they step into or fall into water over their heads. That is likely to be very close to safety. If so, the rescuer should lie down, reach out, and grab the person. Laying down is necessary since the person in the water will likely stop all effort to remain afloat, and that sudden increase in weight can topple an unprepared rescuer into the water. If the victim is a bit farther out, an extension device such as a pole, paddle, or noodle can be used. Those should be swept to the person from the side, not used like a spear. Victims often cannot reach for an extended item, even if it is just a foot away. Rescuers should therefore be told to place the item under the person's arm or within his grasp. Rescuers should also be told to provide loud, clear, simple instructions to the victim, for example "GRAB THIS!"

Throw: The second procedure in the sequence, used when the person is too far out to reach, is to throw the person an aid. A throwing rescue is also appropriate to teach to rescuers of any age and swimming ability. A float with a line attached is best, but any light floating item or a rope by itself may be used. An accurate first toss is required if a line is not attached, but throwing a line takes practice. Ring buoys are often found at hotel and apartment pools and are good devices for Cub Scout practice. Leaders may also fashion throwing devices from light floating line and a plastic jug with just a bit of water in it for weight. A throwing rescue is best suited to poor swimmers in trouble. Drowning nonswimmers will not be able to reach for the object unless it lands within their grasp, nor will passive victims floating face down or on the bottom.

Row: A boat can be used to provide a mobile platform from which to do reaching or throwing assists. Since Cub Scouts often do not have the skills needed for a safe rowing rescue, this procedure is not emphasized for that age group. A boat rescue is also not a common part of an emergency action plan for a unit swim since the swimming area is typically small and within easy reach of shore-based response personnel.

Go: For Cub Scout training, this item should be interpreted as “go for help.” That is, they should first shout for help, and if no one responds, seek out a responsible person such as a parent, lifeguard, or park ranger. Poor swimmers should not enter the water to attempt a rescue. On the other hand, a unit swim cannot rely on reaching or throwing rescues for emergency planning. An in-water assist will be needed for a parent suffering cardiac arrest in the water. At guarded swims, GO also means going with equipment since lifeguards or response personnel should never be without appropriate rescue aids.

SWIM CLASSIFICATION TESTS

The following content on swim classification tests is taken from the BSA *Aquatics Supervision* guide.

Safe Swim Defense and Safety Afloat guidelines tailor activities to swimming ability. Therefore, the unit leader needs to provide opportunities for swim classification before aquatics outings. Swim tests conducted by council personnel during or just before summer camp give the unit one way to determine swimming ability. However, not all unit members attend camp, new members may join the unit at any time, and some units plan aquatics activities in lieu of summer camp. Therefore, the unit should be able to safely conduct its own swim tests.

SWIMMER CLASSIFICATIONS

Scouting recognizes three basic swimming classifications: **swimmer**, **beginner**, and **nonswimmer**. Swim classification tests should be renewed annually, preferably at the beginning of the season.

The **swimmer** test demonstrates the minimum level of swimming ability required for safe deepwater swimming. The various components of the test evaluate several distinct, essential skills necessary for safety in the water. A precise statement of the swimmer test is:

Jump feetfirst into water over the head in depth. Level off and swim 75 yards in a strong manner using one or more of the following strokes: sidestroke, breaststroke, trudgen, or crawl; then swim 25 yards using an easy, resting backstroke. The 100 yards must be completed in one swim without stops and must include at least one sharp turn. After completing the swim, rest by floating.

The test administrator must objectively evaluate both the ease of the overall performance and the purpose of each test element. Any conscientious adult who is familiar with basic swimming strokes and who understands and abides by the following guidelines can administer the test.

1. “Jump feetfirst into water over the head in depth. Level off . . .”

The swimmer must be able to make an abrupt entry into deep water and begin swimming without any aids. Walking in from shallow water, easing in from the edge or down a ladder, pushing off from the side or bottom, and gaining forward momentum by diving do not satisfy this requirement. If the swimming area available for the test is not quite over the swimmer’s head in depth, or does not provide a platform for jumping into deep water, then a person may be provisionally classified as a swimmer if able to easily bob repeatedly up and down in the water, then level off and begin swimming. The head must submerge without the legs touching bottom. Ideally, the feetfirst entry should be tested at the next available opportunity.

2. “. . . swim 75 yards in a strong manner . . .”

The swimmer must be able to cover distance with a strong, confident stroke. The 75 yards is not the expected upper limit of the swimmer’s ability. The distance should be covered in a manner that indicates sufficient skill and stamina for the swimmer to continue to swim for greater distances. Strokes repeatedly interrupted and restarted are not sufficient. The sidestroke, breaststroke, or any strong over-arm stroke, including the back crawl, are allowed in any combination; dog paddling and underwater strokes are not acceptable. The strokes need to be executed in a strong manner, but perfect form is not necessary. If it is apparent that the swimmer is being

worn out by a poorly executed, head-up crawl, it is appropriate for the test administrator to suggest a change to a more restful stroke. A skilled, confident swimmer should be able to complete the distance with energy to spare, even if not in top physical condition. There should be little concern if a swimmer is out of breath because the distance was intentionally covered at a fast pace. However, a swimmer who barely has the energy to complete the distance will benefit from additional skill instruction.

3. “. . . swim 25 yards using an easy, resting backstroke.”

The swimmer must demonstrate a restful, free-breathing backstroke that can be used to avoid exhaustion during swimming activity. It is placed at the end of the distance requirement to emphasize the use of the backstroke as a relief from exertion and may actually be used by some swimmers to catch their breath if they swam the first part more strenuously than needed. The change of stroke must be done without support from side or bottom. Any effective variation of the elementary backstroke is acceptable. The form need not be perfect. For example, a modified scissors kick may be substituted for a whip kick. Restful strokes are

emphasized in Scouting as important safety skills that can be used whenever the swimmer becomes exhausted or injured. Some swimmers, particularly current or former members of competitive swim teams, may not be familiar with the elementary backstroke. A back crawl will suffice for the test if it clearly provides opportunity for the swimmer to rest and catch the breath. However, individuals successfully completing the test with the back crawl should be encouraged to learn the elementary backstroke.

4. “The 100 yards must be completed in one swim without stops and must include at least one sharp turn.”

The total distance is to be covered without rest stops. It is acceptable for someone to float momentarily to work out a kink in a muscle or to tread water to avoid collision with another swimmer, but not to make up for a poorly executed stroke by repeatedly floating, grasping the side, or touching the bottom. The sharp turn demonstrates the important skill of reversing direction in deep water without support. There is no time limit for completion of the test.

5. “After completing the swim, rest by floating.”

This critically important component evaluates the swimmers’ ability to support themselves indefinitely in warm water when exhausted or otherwise unable to continue swimming. Treading water will tire the swimmer and is therefore unacceptable. The duration of the float is not significant, except that it should be long enough for the administrator to determine that the swimmer is in fact resting and could continue to do so. A back float with the face out of the water is preferred, but restful facedown floating is acceptable. If the test is

completed except for the floating requirement, the swimmer may be retested on the floating only (after instruction), provided the test administrator is confident that the swimmer can initiate the float in deep water when exhausted.

A precise statement of the **beginner** test is:

Jump feetfirst into water over the head in depth, level off, and swim 25 feet on the surface. Stop, turn sharply, resume swimming and return to the starting place.

The entry and turn serve the same purpose as in the swimmer test. The swimming may be done with any surface stroke. Underwater swimming is not allowed. The stop assures that the swimmer can regain the stroke if it is interrupted. The test demonstrates that the beginner swimmer is ready to learn deepwater skills and has the minimum ability required for safe swimming in a confined area in which shallow water, sides, or other support is less than 25 feet from any point on the water.

Anyone who has not completed either the beginner or the swimmer test is classified as a **nonswimmer**. The title is descriptive and nonjudgmental. It may represent those just learning to swim who do not yet have the skills to safely venture beyond shallow water. It may also apply to those who have not yet been tested or who have elected to forego the test and to accept the limitations on activities imposed by the classification.

Both nonswimmer and beginner classifications prevent a Scout from gaining the full benefit of aquatics programming. Unit leaders should promote swimming ability to all members and strive to have everyone in the unit classified as swimmers. Such a goal increases each Scout's safety and confidence, provides more recreational and instructional opportunities, and makes it easy for units to administer their own aquatics programs. Note that the beginner test is a requirement for Boy Scout Second Class rank, whereas the swimmer test is a requirement for First Class rank. A unit's ability to conduct swim classification tests also makes it easier to administer rank advancement.

TESTING PROCEDURE

Beginners:

- ✓ Jump into deep water.
- ✓ Swim 25 feet.
- ✓ Turn.
- ✓ Return.
- ✓ Total: **50 feet** with entry and turn

Swimmers:

- ✓ Jump into deep water.
- ✓ Swim 75 yards with strong forward stroke.
- ✓ Swim 25 yards with restful backstroke.
- ✓ Rest by floating.
- ✓ Total: **100 yards** with entry and turn

All swimming activities, including swim classification tests, follow the elements of Safe Swim Defense. The health history of each individual should be reviewed before testing. No one should be allowed in the water against the recommendations of parents, guardian, or physician. Those who are not allowed to enter the water for whatever reason do not automatically fall into the nonswimmer category. Normally, nonswimmers are encouraged to participate in aquatics activities as an incentive to improve their skills. If the aquatics activities are conducted by the unit, then the adult in charge of the event should know the difference between those classified as nonswimmers on the basis of skill, and those not allowed to swim due to a chronic or temporary physical condition that limits water contact. The unit may be asked to conduct swim classification tests before

Swim tests are done one-on-one, with the examiner and youth as buddies.

Participant is asked to describe test and confirm comfort with each task. If there is any hesitation, check ability first in shallow water.

participation in a multiple-unit event, such as summer camp or jamboree. In those cases, care should be taken to preclude participation in an event as a nonswimmer by someone who should not be in the water. The unit leader should discreetly communicate such situations to the event supervisor. The youth should be privately put on his honor not to circumvent any restrictions.

Situations may arise when special consideration should be given to those with temporary medical conditions. For example, yearly swim classification renewals may be scheduled just before a canoe trip. A physician may approve a person with an ear infection or a sutured wound to go on the trip, but caution against submerging the head or the bandage. Since it would be difficult to administer the swim test without getting the ears or the wound wet, the adult leader might classify the Scout temporarily as a nonswimmer. That, however, would prevent the Scout from paddling in a canoe with his buddy. If the unit leader has sufficient evidence that the Scout is indeed a good swimmer—he has earned the Lifesaving merit badge, for example, or is a member of a swim team—then an extension of the Scout's previous swimmer classification is appropriate until he heals sufficiently to retake the test.

The ideal place to conduct a swim test is a swimming pool with straight stretches of 25 to 50 yards and clear water at least 7 feet deep at the point of entry. Those taking the swimmer test can then be instructed simply to swim either four or two lengths as appropriate. A pool 25 or 50 meters in length is easily adapted by placing a turning mark or line at the yard mark, or by having the person swim the short extra distance. (Recall that the swimmer test is not meant to demonstrate the maximum distance a person can swim.) The course may also be laid out such that the swimmer follows a circular pattern around the pool rather than back and forth, but be sure to incorporate the sharp turn required by both beginner and swimmer tests.

Very small backyard or apartment pools (less than roughly 20 feet in the maximum direction) are fine for a unit swim, but should be avoided as locations for swim classification tests since likely contact with the sides and bottom during all the turns makes it difficult to judge how well the person can swim. Such pools may also be too shallow to meet the criterion for a feetfirst entry into water over the head in depth.

Any natural body of water that satisfies Safe Swim Defense requirements may be used for swim classification tests. Clear water is preferred over murky water; warm water over cold water. A pier that extends from shore to deep water is ideal for the feetfirst entry in the requirements, but a floating platform can also be used.

If a pool open to the public is used for testing, try to schedule a time when the pool is less crowded. Inform pool personnel of what you are doing. A guard may be willing to clear an area briefly if you have only one or two Scouts who need the test.

During swim classification tests, the swimmer and the test administrator form a buddy pair. If there is a large group needing tests, then several testers are useful. Individual testing is required. Unit members should not be aligned at each lane and started at once, as in a swim competition.

Although the tests may be explained to the unit as a whole, the test administrators should briefly review the tests with each participant. Each person should be asked if he or she would like to first try the beginner or the swimmer test. If the person asserts the ability to easily swim 100 yards, then it is not necessary to take the beginner test before the swimmer test. If a person is hesitant, he may take the beginner test first and follow it with the swimmer test if that seems appropriate. Those who fall just short of the required distances may be given a few pointers, a rest, and another try. Those who cannot complete the tests should be congratulated on how far they got, encouraged to practice, and told that they will be able to retake the test at a later date. If a person in a swim-suit at the swimming area decides not to take either test,

Tests measure comfort in the water but do not require perfect form.

Rest stops are not allowed. However, the course should be close to the side to allow for resting and easy assists if needed.

then he should be encouraged to slip into shallow water and show what he does know. That is, professed nonswimmers should be part of the overall unit activity, not shunted aside in the interest of time. Everyone should be encouraged to try to swim to the best of their ability, but no one should be coerced into the water.

Some participants may be willing to jump into water over their head even though they have never done it. Therefore, every participant should be asked if they have jumped into deep water before. If they have not, first confirm that they can swim in shallow water and then see if they are comfortable in deep water with a slide-in entry at the edge. The test may proceed once the person demonstrates comfort in deep water.

With proper screening, those taking the test should not be at risk of a bad experience. Nevertheless, test administrators should be ready and able to provide immediate assistance if the swimmer does need help, perhaps due to a cramp or exhaustion. Ideally, the course for the beginner test should be alongside a pool deck or pier so that the swimmer is always within a hand's reach or a single stroke from support. The course for the swimmer test should be within reach of a pole. The best way to keep poles ready for use is to lay them along the edge of the pool or pier. A pole is then within easy, unobtrusive access at all times. If the course incorporates a floating dock in a natural body of water, then the feetfirst entry and first few strokes should be within easy reach. If the course then extends beyond the reach of a pole, the swimmers should be either within reach of rescue personnel in a rowboat or canoe or within easy throwing distance of a ring buoy on a line or a throw bag. If a person taking the test succeeds in leveling off after the feetfirst jump, then the most likely need will be to encourage a tired swimmer to come to the side under their own power. In a few cases, a reaching assist may be needed immediately after the feetfirst entry. Test administrators should be skilled in basic rescue techniques to satisfy Safe Swim Defense guidelines for trained safety personnel. If there are others in the water not taking part in the testing, then additional response personnel (lifeguards) are needed. In either case, a lookout is required to monitor all in-water activity.

SWIM TEST ANXIETY

Both the unit leader and the test administrator should be sensitive to those who may be fearful of the water, uncertain of their ability, worried about peer reaction, otherwise apprehensive, or simply confused about the process and what is expected of them. The unit leader should work with the test administrator to help prepare such Scouts for the swim test, particularly when it is conducted by someone the Scout is unfamiliar with, such as staff at resident camp or at a multiunit, council-organized swim test prior to camp.

The first day of a camp program may be an overwhelming experience for Scouts for many reasons—being away from home and the support systems that home provides, the thrill but uncertainty of what they will experience at camp, and perhaps thoughts of how they will measure up in comparison to their buddies. At summer camps, the swim test is often the first program activity where Scouts both interact significantly with those outside the unit and are asked to perform to a standard. That experience may produce significant anxiety for a small number of boys. However, there is no justification for fears to be realized. The unit leader can help prepare those Scouts both before and at camp so that the swim test is a positive experience. The following items should help leaders recognize and reduce anxiety about the testing process:

- **Early identification.** Scouts who may be anxious around the water or with the swim test process should be identified well before summer camp or other event for which the test is required. Comfort around the water should be included in the leader's discussion with parents for boys who join the unit. The leader should also talk to the boys themselves. For Cub Scouts, check to see if swimming is an interest. For Boy Scouts, comfort in the water should arise naturally during discussions of advancement requirements for Second Class, which includes the beginner test, and for First Class, which includes the swimmer test. Be sure to watch for nonverbal cues to see if the boy's body language matches what he says.
- **Year-round swimming programs.** A year-round swimming program provides meaningful and fun activities and allows the leader to observe firsthand the comfort level of Scouts around the water. It also provides an opportunity to see how unit members respond to those reluctant around the water or with lesser swimming ability. For troops, it will help move Boy Scout advancement along faster. Ideally, the first time the Scout takes a swim test is during a learn-to-swim class with a familiar, trusted instructor conducting the exercise. Subsequent tests are just repeats of tasks the boy knows he has accomplished before.

- **Consider precamp swim tests.** Some councils arrange precamp swim tests for units. If that option is available, consider whether boys with swim test anxiety might perform better away from the other first-day camp activities. If allowed, reluctant members of the unit might arrive early to get adjusted to the water and take a “mock” test prior to the “real” test. (Note that the camp aquatics director may retest any Scout or leader whose skills appear inconsistent with their classification.)
- **Prepare the unit for the test.** The leader should familiarize Scouts with the swim test process as part of the unit’s camp readiness discussions. Explain the purpose of the test and how it will be conducted. Explain that each boy’s swimming ability may be different and that the better swimmers are expected to encourage and support those with lesser ability. Remind everyone that opportunities to retake the test will be provided to those who don’t make it as far as they would have liked. Encourage any boy who needs to speak with the leader in private to do so. And remember that no one should be forced—whether by anyone’s statement or through peer pressure—to take either test if they choose not to.
- **Work with the camp aquatics director.** The camp aquatics director should approach the unit leader when the unit arrives at the swimming area for orientation before the test. That is an intentional opportunity for the leader to identify any medical concerns and to discuss any boys who may be anxious about the swim test. Make sure the aquatics director assigns an empathetic, experienced staff member to work with each such boy and stay with the boy until the staff member establishes a reasonable rapport. The tests will be conducted one-on-one, so it should be possible for leaders to stagger interactions with more than one Scout. If the Scout remains anxious, the leader may request the aquatics director to arrange a special time to conduct the test for that individual when there is less activity in the area and more time for the boy to become comfortable before taking the test.

APPENDIX 7

LEADER HELPS

KNOTS AND ROPES

◆ WHIPPING A ROPE

Ropes are made of twisted fibers. When a rope is cut, the fibers separate. You can whip the ends in place with string so the rope won't unravel.

Cut off the part that has already unraveled. Take a piece of strong string, dental floss, or thin twine at least 8 to 10 inches long. Make a loop and place it at one end of the rope.

Wrap the string tightly around the rope. When the whipping is as wide as the rope is thick, slip the end through the loop. Then firmly pull out the string ends and trim them off.

◆ FUSING A ROPE

Rope and cord made of plastic or nylon will melt when exposed to high heat. Cut away the frayed part of the rope. Then, working in a well-ventilated area, hold each end a few inches above a lighted match or candle to melt and fuse the strands together. Melted rope can be hot and sticky—don't touch the end until it has cooled. Do not try to fuse ropes made of maila, sisal, hemp, cotton, or other natural fibers, because they will burn rather than melt.

◆ KNOTS FOR CAMPING

You will use rope for many purposes when you go camping. These knots will come in handy for different situations.

1. **Square Knot:** For tying two ropes together and for tying bandages in first aid.

2. **Taut-line Hitch:** For tightening and loosening a rope easily and for use on tent guy lines. Tighten or loosen the knot by pushing the hitch up or down.

3. **Two Half Hitches:** For tying a rope to a post or ring. This knot is strong but is easy to loosen.

4. **Bowline:** Used when you want a loop that will not slip or close up. It is often used in rescue work.

APPENDIX 8

AWARDS

AWARDS CUB SCOUTS CAN EARN

The following awards can be earned by Cub Scouts. Visit Scouting.org to learn more about each individual award and to find current requirements.

◆ CONSERVATION GOOD TURN AWARD

The Conservation Good Turn is an award packs may earn by partnering with a conservation or environmental organization to choose and carry out a Good Turn in their home communities.

◆ OUTDOOR ACTIVITY AWARD

Tiger, Wolf, Bear, and Webelos Scouts have the opportunity to earn the Cub Scout Outdoor Activity Award. Scouts may earn the award in each of the program years as long as the requirements are completed again each year. Cub Scouts complete specific requirements for each rank, including a number of different outdoor activities.

◆ NATIONAL SUMMERTIME PACK AWARD

The National Summertime Pack Award encourages packs to be active when school is out for the summer. Youth and adult pack members can earn the award by taking part in one activity per month in June, July, and August.

◆ OUTDOOR ETHICS AWARENESS AWARD AND OUTDOOR ETHICS ACTION AWARD

Cub Scouts who are interested in learning more about outdoor ethics and Leave No Trace may earn the Outdoor Ethics Awareness Award. The Outdoor Ethics Action Award asks Scouts to use their new knowledge to take steps to improve their outdoor skills.

◆ SCOUTSTRONG HEALTHY UNIT AWARD

When a Scout recites the Scout Oath and Law, he promises to keep his mind and body fit. Help Cub Scouts in your den keep that promise by following three healthy practices at all meetings and gatherings: drink right, move more, and snack smart. Your den can earn the SCOUTStrong Healthy Unit Award by fulfilling the following requirements during meeting times:

Drink right: Make water the main beverage (6 meetings).

Move more: Include 15 minutes of fun physical activity (9 meetings).

Snack smart: Serve fruits or vegetables, when snacks are provided (3 meetings).

When Scouts achieve and wear the SCOUTStrong Healthy Unit Award, they're creating a standard for meetings. This builds a healthy Scouting experience that can establish lifelong habits. Plus, activities for the award match many advancement requirements. Find a tracker to record your den's progress toward this award and additional resources at Scouting.org.

◆ STEM/NOVA AWARDS

The Nova awards for Cub Scouts are for Wolf, Bear, and Webelos Scouts who are interested in learning more about science, technology, engineering, and mathematics. These awards may not be earned by Tigers.

For their first Nova awards, Scouts have the opportunity to earn the Nova award patch, followed by three more π pin-on devices. The patch and the three devices represent each of the four STEM topics. The Supernova awards have more challenging requirements and recognize more in-depth, advanced achievement in STEM-related activities.

◆ WORLD CONSERVATION AWARD

The World Conservation Award for Cub Scouts provides an opportunity for individual Wolf, Bear, and Webelos Scouts to “think globally” and “act locally” to preserve and improve our environment. This program is designed to make youth members aware that all nations are closely related through natural resources, and that we are interdependent with our world environment.

Requirements for this award must be completed *in addition to* any similar requirements completed for rank. This award may not be earned by Tigers.
